SECTION 1: AUTHORITY AND PURPOSES

1.1 AUTHORITY

This Ordinance is enacted in accordance with the authority conferred in Chapters 673, 674, 675, 676, and 677 of the Revised Statutes Annotated and subsequent amendments thereto and is hereby adopted by the voters of the Town of Stratham, New Hampshire in official meeting convened.

1.2 PURPOSES

The purposes of this Ordinance are to promote the health, safety, convenience and general welfare of the inhabitants of the Town of Stratham, to protect and conserve the value of property, to encourage the most appropriate use of land throughout the Town, and to promote the efficiency and economy in the process of development by securing safety from fire, panic and other dangers, by providing adequate areas between buildings and various rights-of-way, by preserving the character of the Town, and by promoting good civic design and arrangements, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements, and by other means.

1.3 TITLE

This Ordinance shall be known as the "Zoning Ordinance of the Town of Stratham, New Hampshire."

SECTION II: DEFINITIONS (Rev. 3/13)**2.1 DEFINITIONS**

Except where specifically defined herein, the words used in this Ordinance shall carry their customary meaning. The following words are specifically defined:

- 2.1.1 Abutter: Abutter means any person whose property adjoins or is directly across the street or stream from the land under consideration by the local land use board. For purposes of receiving testimony only, and not for purposes of notification, the term abutter shall include any person who is able to demonstrate that his land will be directly affected by the proposal under consideration.
- 2.1.2 Accessory Apartment: One apartment provided it is located within a single-family dwelling or garage which may be separate from or attached to the main dwelling and is clearly a subordinate part thereof, and has safe and proper means of entrance and exit, and meets the requirements set forth in Section 5.4. (Rev. 3/90 & 3/09)
- 2.1.3 Accessory Building: A building whose purpose is subordinate to that of the main building. It may be separate from or attached to the main building. For the purpose of this Ordinance a breezeway, a garage or a carport that is attached directly, or by means of another structure, to the main building shall be regarded as an integral part of the main building.
- 2.1.4 Accessory Use: Any subordinate use of premises which customarily is accepted as a reasonable corollary to the principal use thereof and which is neither injurious nor detrimental to the neighborhood.
- 2.1.5 Adult Use: A business where more than 25% of the gross revenues, 25% or more of the stock in trade, or 25% or more of the goods or paraphernalia displayed are of a sexually oriented or sexually explicit nature. Such goods and paraphernalia include, but are not limited to sexually explicit books, videos, or devices. Examples of adult uses include, but are not limited to, theaters or mini-motion picture displays where sexually explicit films or videos are shown, nude modeling studios, massage parlors, escort agencies or sexual encounter centers. Businesses where body piercing and tattoos are performed shall be considered adult uses unless completed by a licensed physician in their place of practice. (Rev. 3/93) (Rev. 3/99)
- 2.1.6 Agriculture, Farm, Farming: The word "farm" means any land, buildings, or structures on or in which agriculture and farming activities are carried out or conducted and shall include the residence or residences of owners, occupants, or employees located on such land. Structures shall include all farm outbuildings used in the care of livestock; and in the production and storage of fruit; vegetables, or nursery stock; in the production of maple syrup; greenhouses for the production of annual or perennial plants; and any other structures used in operations of the farm.

The words "agriculture" and "farming" shall mean all operations of a farm such as the cultivation, conserving and tillage of the soil, dairying, greenhouses, hydroponic farming, the production, cultivation, growing and harvesting of any agricultural, floricultural, or horticultural commodities, the raising of livestock, bees, fur bearing animals, poultry or fish-farming or any practices on the farm as an incident to or in conjunction with such farming operations as further defined in NH RSA 21:34-a.

A farm roadside stand shall remain an agricultural operation and not be considered commercial, provided that at least 35 percent of the product sales in dollar volume are attributable to products produced on the farm or farms of the stand owner.

Practices on the farm may include technologies recommended from time to time by the University of New Hampshire cooperative extension, the New Hampshire Department of Agriculture, Markets, and Food, and appropriate agencies of the United States Department of Agriculture. (Rev. 3/09)

- 2.1.7 Alteration: Any alteration of a building or a fabricated structure means a change, rearrangement, or addition involving the original structural parts, or significant changes, or additions to the plumbing, gas piping, electrical wiring, ventilation, or heating installations. Such alterations are not to be confused with replacements or repairs.
- 2.1.8 Awning: A removable shelter of canvas, metal or similar material extending over a doorway or window to provide shelter from natural elements. (Adopted 03/11)
- 2.1.9 Bedroom: A room primarily used for sleeping.
- 2.1.10 Building: A fabric, edifice, or structure, framed or constructed, designed to stand more or less permanently, and covering a space of land for use as a dwelling, storehouse, factory, shelter for beasts or some other useful purpose. (Rev. 3/90)
- 2.1.11 Building Coverage: The aggregate or the maximum horizontal cross section area of all buildings on the lot including accessory buildings but excluding cornices, eaves, or gutters projecting not more than thirty (30) inches. Structures less than eighteen (18) inches above ground level shall not be included in calculating building coverage.
- 2.1.12 Building Face or Wall: All window and wall or façade areas of a building in one (1) plane or elevation. (Adopted 03/11)
- 2.1.13 Building Inspector: The duly appointed building inspector, or any other duly designated agent, as appointed by the Board of Selectmen. Such agent(s) shall possess and be vested with all the rights, authority, responsibility and protections accorded the building inspector within the jurisdiction of his/her appointment by the Selectmen. (Rev. 3/92)
- 2.1.14 Building Height: The vertical distance measured from the average level of the grade at the building line to the highest point of the roof, excluding chimneys, ventilators, silos, and other accessory features required above the roof.
- 2.1.15 Canopy (or marquee): A permanent roof-like shelter extending from part or all of a building face over a public right-of-way and constructed of a durable material such as metal, glass or plastic. (Adopted 03/11)
- 2.1.16 Certificate of Occupancy: A statement signed by the Building Inspector setting forth either that a building or structure complies with this Ordinance or that a building, structure or parcel of land may lawfully be occupied for specified uses or both.
- 2.1.17 Commercial Service Establishment: A business in which the primary concern is rendering services to persons and/or businesses rather than the sale of products, including but not limited to electricians, plumbers, repair services, installation services, general contractors, cleaning services without bulk storage of chemical cleaning materials, and businesses providing similar commercial services. Commercial services may include, as an accessory use only, retail sales of items related to the services being provided. Commercial Service Establishment does not include Personal Service Establishments,

- motor vehicle related services, tattoo shops, Professional Office, or psychics or similar types of services. (Adopted 3/13)
- 2.1.18 Condominium: Real property, and any interests therein, lawfully submitted to RSA 356-B by the recordation of condominium instruments pursuant to the provisions of RSA 356-B.
- 2.1.19 Contiguous: Starting an edge or boundary of an adjacent lot.
- 2.1.20 Demolition: Destruction of a structure or portion thereof or commencement of work with the purpose of completing the same except in conjunction with construction of a permitted addition or alteration. Demolition shall include the cutting away of any wall, partition, portion thereof, or the removal or cutting of any structured beam or bearing support affecting the exterior of the structure.
- 2.1.21 Developable Area: An area of 43,560 square feet or minimum lot size as defined by soil type lot size regulations as adopted by the Town of Stratham.
- 2.1.22 Dwelling: A building or portion thereof containing one or more dwelling units, but not including hotels, motels, rooms or a boarding house, clubs, lodges, trailers, or structures solely for transient or overnight occupancy.
- 2.1.23 Dwelling Unit, Duplex: A building designed and/or used exclusively for residential purposes and containing two principal dwelling units separated by a common party wall or otherwise structurally attached. (Rev. 3/90) (3/06)
- 2.1.24 Dwelling Unit, Quadplex: A building designed and/or used exclusively for residential purposes and containing four principal dwelling units. (Adopted 3/06)
- 2.1.25 Dwelling Unit, Single Family: A detached building designed for or occupied exclusively by one family.
- 2.1.26 Dwelling Unit, Triplex: A building designed and/or used exclusively for residential purposes and containing three principal dwelling units. (Adopted 3/06)
- 2.1.27 Excavation: Excavation means a land area which is used, or has been used, for the commercial taking of earth, including all slopes, pursuant to RSA 155-E:1.
- 2.1.28 Family: Individuals occupying a dwelling unit and living together as a single housekeeping unit and doing their cooking together, provided that unless all members are related by blood, marriage, adoption, or legal custody no such family shall contain more than five persons.
- 2.1.29 Flag: Banners that represent a nation, state or other political or corporate entity. (Adopted 03/11)
- 2.1.30 Frontage: The horizontal distance measured along a lot line dividing a lot from a street. Driveways to single rear lots shall not be construed as frontage. In the case of corner lots, frontage and front lot lines shall mean the dimensions and lines on one street. (Rev. 3/95)
- 2.1.31 Frontage, Building: The linear length of a building parallel to or closely facing the right-of-way. (Adopted 03/11)
- 2.1.32 Gross Floor Area: The sum of the area of the several floors of the buildings as measured by the exterior faces of the walls, but excluding the areas of fire escapes, unroofed

porches or terraces, and areas such as basements and attics exclusively devoted to uses accessory to the operation of the building.

- 2.1.33 Home Occupation: An individual business or profession conducted within a dwelling or an accessory building or property which is clearly incidental and secondary to the use of the dwelling for dwelling purposes and does not adversely affect or undermine the residential character of the neighborhood thereof, and in connection with which there is no outside display, no outside storage (unless permitted under Section 5.13.2.f.), nor emission of dust, noise, fumes, vibration or smoke beyond the lot line. Refer to Section 5.13.4 for exemptions.
- 2.1.34 Junk: Two or more uninspected motor vehicles no longer intended or in condition for legal use on the public highways; and/or any machinery, scrap metal or other worn, cast off, or discarded articles or materials ready for destruction or collected or stored for salvage or conversion to some use, the accumulation of which is detrimental or injurious to the neighborhood. (Rev. 3/98)
- 2.1.35 Junk Yard: Any space more than 500 sq. ft. in area, outside a building, used for storage, keeping, processing, salvaging or abandonment of junk.
- 2.1.36 Kennel: Any premises, site, or portion thereof, where 5 or more dogs 10 weeks in age or older are bred, raised, trained, or kept for any reason. This definition does not include sites that are accessory to a veterinarian hospital where a licensed veterinarian practices or the SPCA. (Adopted 3/97)
- 2.1.37 Light Industry: Includes all manufacturing and assembly processes carried on completely within a structure, and involving no permanent outside storage of equipment or materials (except as a customary accessory use in connection with the permitted activities within the structure), unless such storage is approved by the Stratham Planning Board during the Site Plan Review process. Outdoor storage shall be permitted as an accessory use to a permitted use if it occupies an area of 20 percent or less of the footprint area of the principal building. Otherwise, outdoor storage shall require a special exception. All outdoor storage shall be appropriately screened from view and shall not occupy required open space or required parking areas. Light Industry shall not be interpreted to include any industry, the operations of which shall result in significant objectionable noise, glare, vibration or odor which would constitute a nuisance nor which would adversely affect other private or public properties. (Adopted 3/98)
- 2.1.38 Lot: A single parcel of land in the same ownership throughout as shown or defined on a recorded instrument or defined by metes and bounds and having its principal frontage on a street in accordance with the provisions of law to be adequate as a condition of the issuance of a building permit for building on such land.
- 2.1.39 Lot Area: The extent in square feet of the surface of a lot. The lot area shall not include any part of the street upon which the lot fronts or abuts.
- 2.1.40 Lot Depth: The mean distance from the frontage line to the rear lot line when measured on a line halfway between the two side lot lines.
- 2.1.41 Lot Lines: The lines bounding a lot, and dividing the lot from other lots, streets or land.
- 2.1.42 Lot of Record: A lot which is described in a deed which has been lawfully recorded in the Rockingham County Registry of Deeds, prior to the enactment of planning and zoning

- regulations in Stratham *March 12th, 1957*, or which, if not so deeded, is a lot which is part of a subdivision, the plan of which has been lawfully recorded in such Registry of Deeds.
- 2.1.43 Lot Width: The mean distance between the lot sidelines measured on a line, which is halfway between the front and rear lot lines.
- 2.1.44 Manufactured Housing: Manufactured housing is housing, which is partially or wholly assembled, off-site and then is placed on a permanent foundation. Manufactured housing may include trusses, panels, or entire modules.
- 2.1.45 Mobile Homes: Housing which is assembled off-site, built on a permanent chassis, can travel to the site on its own wheels and retain forever the possibility of being relocated readily to another site. Mobile homes typically are not placed on permanent foundations, but rest on grade or a slab with skirts to conceal the wheels and undercarriage.
- 2.1.46 Motel, Hotel: A building designed for or used commercially as more or less temporary living quarters for persons who are lodged with or without meals, containing nine or more sleeping rooms usually occupied by transients.
- 2.1.47 Nonconforming Use: Nonconforming means use of land, building or premise which is not a use permitted by the provisions of this ordinance for the district in which such land, building or premise is situated.
- 2.1.48 Occupancy: The use of a structure, room or enclosed space designed for human habitation in which individuals congregate for amusement, education or similar purposes, or in which occupants are engaged at labor, where the structure, room or enclosed space is equipped with means of egress, light, and ventilation facilities meeting the requirements of the Town's Building Ordinance. (Rev. 3/94)
- 2.1.49 Open Space: Land or water area free of all structures, parking, drives, and other uses, which preclude attractive landscaping in such area. Open space may be landscaped with lawn, trees, shrubs, or other planting and may include walks and terraces.
- 2.1.50 Open Space Setback: The distance extending across the full width of a lot between the front, side and rear lot lines and the nearest point of the nearest part of any constructed or erected improvement, such as gravel, pavement and other man-made improvements, but exclusive of drainage structures, septic systems, access drives and walkways. Exclusive of access drives and walkways, the distance between the property line and improvement shall be open to the air and in accordance with 2.1.49, Open Space, of this ordinance. (Rev. 3/96)
- 2.1.51 Personal Service Establishment: A business, the primary concern of which is the rendering of services to persons rather the sale of products, including but not limited to barber, hairdresser, health spa, beauty salon, shoe repair, laundry, laundromat, dry cleaner drop-off and pick-up service (for off-site dry-cleaning only), tailoring, dressmaking, photographic studio, catering, express mail/courier and businesses providing similar personal services. Personal services may include, as an accessory use only, retail sales of items related to services being provided. Personal Service Establishment does not include motor vehicle related services, tattoo shops, Professional Office, or Commercial Service Establishments. (Adopted 3/13)
- 2.1.52 Professional (Professional Office): These occupations shall include the practice of medicine, dentistry, law, accounting, architecture, engineering, real estate, teaching and similar activities in which specialized services are provided to clients. A business

- conducted by an individual or group practice characterized by a high level of training or proficiency in a particular pursuit, science, or study such as medicine, dentistry, law, professional recruiters, engineering, land use planning, architecture, real estate, insurance, accounting, teaching, investment, information and communications technology, and similar types of professions. Professional Office does not include psychics or similar types of services, tattoo shops, Commercial Service Establishments or Personal Services Establishments. (Amended 3/13)
- 2.1.53 Recreational Camping Parks or Trailer Parks: A parcel of land under single ownership consisting of a minimum of ten (10) acres used primarily for transient recreational vehicles (tents, travel trailers, tent campers, motor homes and pick-up campers).
- 2.1.54 Repair: Replacement or mending of parts already existing but in a state of deterioration with equivalent materials and for the purpose of maintaining their quality.
- 2.1.55 Retail Sales: The sale or rental of goods or merchandise directly to the public, including services incidental to the sale of such goods and merchandise. Wholesale sales from a retail showroom are included. This shall exclude any gasoline filling or service stations, motor vehicle repair service, new / used motor vehicle sales / rentals, and trailer, boat, RV, manufactured home sales and service. Retail also does not include Commercial Service Establishments or Personal Service Establishments. (Adopted 3/13)
- 2.1.56 Retirement Planned Community: Any development of three (3) or more dwelling units in detached or multi-unit building(s) which is planned generally as a retirement community for elderly persons and which includes legal covenants and restrictions which are designed to promote the use and occupancy of such building(s) principally by persons 55 years of age or older. (Adopted 3/99)
- 2.1.57 Right-of-Way: All town, state and federal highways and the land on either side as covered by statutes to determine the widths of the rights-of-way.
- 2.1.58 School: An institution for instruction of children and/or adults in a formal setting with a prescribed curriculum and certified teachers.
- 2.1.59 Self Storage or Warehousing: A business or use that consists of individual, self contained units, that may or may not vary in size, that are leased or owned for the storage of business equipment, supplies, household goods, or other items. (Adopted 3/99)
- 2.1.60 Setback, Front: The distance extending across the full width of a lot between the front lot line and the foremost point of the foremost part of the structure. In the case of a corner lot the front setback shall mean the distance measured from both intersecting streets. (Rev. 3/95)
- 2.1.61 Setback, Rear: The distance extending across the full width of a lot between the rear lot line and the rearmost point of the rearmost part of the structure nearest the rear lot line. (Rev. 3/90)
- 2.1.62 Setback, Side: The distance between a side lot line and the nearest point of the nearest part of a structure to it, extending from the required front setback to the required rear setback. (Rev. 3/90)
- 2.1.63 Special Exception: A use allowed by the Zoning Ordinance but under pre-determined conditions and after a public hearing before the Board of Adjustment to determine if the conditions have been met.

- 2.1.64 Story: That part of a building or structure comprised between a floor and the floor or roof next above it.
- 2.1.65 Street: A street shall mean a right-of-way which has been dedicated or intended for public travel, or a private way offering the principal means of access to abutting properties.
- 2.1.66 Structure: Anything constructed or erected with a fixed location on or in the ground, or attached to something having a fixed location on or in the ground. Structure includes, but are not limited to, buildings, mobile home, bridges, trestles, towers, framework, hoop houses, tanks or group of tanks exceeding a total of 500 gallons, tunnels, stadiums, platforms, shelters, piers, wharfs, signs, fences and retaining walls over six feet (6') in height, swimming pools, or the like. Where Stratham Zoning Ordinance is silent, then the most current edition of the State Building Code shall be assumed to apply. (Revised 3/90, 3/11)
- 2.1.67 Structural Alteration: Any change in the supporting members of a building or structure, such as load bearing walls, columns, beams or girders.
- 2.1.68 Subdivision: The division of a lot, tract, or parcel of land into 2 or more lots, plats, sites or other divisions of land for the purpose, whether immediate or future, of sale, rent, lease, condominium conveyance, or building development. It includes resubdivision, and, where appropriate to the context, relates to the process of subdividing or to the land or territory subdivided. The division of a parcel of land held in common and subsequently divided into parts among several owners shall be deemed a subdivision under this title, per RSA 672:14.
- 2.1.69 Travel Trailer: A mobile home designed to be used for temporary occupancy for travel, recreational or vacation use; with the manufacturer's permanent identification "Travel Trailer" thereon; and when factory equipped for the road, being of any length provided its gross weight does not exceed forty-five hundred (4,500) pounds, or being of any weight provided its overall length does not exceed twenty-eight (28) feet.
- 2.1.70 Wetlands: an area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal conditions does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. (Rev. 03/05)
- 2.1.71 Yard: An open space from the ground upward and open to the sky on the same lot with a building or a structure.
- 2.1.72 Yard, Front: A yard extending across the full width of a lot between the street right-of-way line and the nearest point of any building. In the case of a corner lot or waterfront lot, the front yard is the yard bordering the principal street. Front yard dimensions are to be measured from the street where a plan of the street is on file with the Registry of Deeds or in the Town records, or in the absence of such plan, from a line thirty (30) feet from property line, parallel with the center line of the traveled way. (Rev. 3/91)
- 2.1.73 Yard, Rear: A yard extending the full width of the lot along the rear lot line and extending in depth from the nearest point on the rear lot line to the nearest point of the principal building or buildings.
- 2.1.74 Yard, Side: A yard extending from a front yard to the rear yard and from the nearest point of a side lot line to the nearest point of the principal building or buildings.

- 2.1.75 Yard Sale: The occasional sale of personal property at a residence conducted by one or more families in a neighborhood or on a public/private way. Yard sales do not exceed three (3) consecutive days in length, are not conducted more often than three (3) consecutive weeks per calendar year. Yard sales are also known as garage sales, stoop sales, or the like. (Adopted 3/11)

SECTION III: ESTABLISHMENT OF DISTRICTS AND USES
3.1 ESTABLISHMENT OF DISTRICTS (REV. 3/13)

For the purpose of this Ordinance, the Town of Stratham is hereby divided into the following districts:

<u>Abbreviation:</u>	<u>District Name:</u>
Residential/Agricultural	R/A
Manufactured Housing/Mobile Home.....	MAH
Retirement Planned Community (Adopted 3/99, Rev. 3/07)	RPC
Professional/Residential.....	PRE
Town Center.....	TC
Gateway Commercial Business District (Adopted 3/10, Rev. 3/13).....	G CBD
Special Commercial (Adopted 3/09).....	SC
Flexible\Mixed Use Development District (Adopted 3/07)	MUD
Commercial/Light Industrial/Office (Rev. 3/98).....	CLIO
Industrial.....	IND
Aquifer Protection District (Overlay) (Rev. 3/92).....	APD
Floodplain Management District (Overlay) (Rev. 3/91).....	FM
Shoreland Protection (Overlay).....	SHP
Wetlands Conservation (Overlay).....	WTC

3.2 LOCATION

Said districts are located and bounded as shown on a map entitled Zoning Map, Town of Stratham, New Hampshire, copies of which are on file and may be obtained in the Town Offices. The Zoning Map, with all explanatory material thereon, is hereby made a part of this Ordinance and may be reissued by the Planning Board to incorporate such amendments as may be made by the Town Meeting. This official Zoning Map shall be the final authority as to the current zoning status of land in the Town.

3.3 INTERPRETATION OF DISTRICT BOUNDS

The location of district boundary lines shown upon the Zoning Map shall be determined as follows:

- 3.3.1 Where a boundary is shown as following a street or utility, the boundary shall be the centerline thereof unless otherwise indicated.
- 3.3.2 Where a boundary is shown outside of a street or utility and is approximately parallel thereto, it shall be deemed parallel to the nearest line thereof and the figure placed on the Zoning Map between the boundary and such line shall be the distance in feet between them, as measured at a right angle from such line unless otherwise indicated.

- 3.3.3 Where a boundary is shown as following a watercourse, the boundary shall coincide with the centerline thereof as said centerline existed at the date of the Zoning Map.
- 3.3.4 Where a boundary apparently follows a property line, it shall be interpreted as such. Such property line shall be interpreted as one existing at the time of enactment of this Ordinance¹.
- 3.3.5 Where a district boundary line divides a lot, either zoning district shall be interpreted as extending twenty (20) feet into the adjacent district².
- 3.3.6 In case of uncertainty, the Planning Board shall determine the exact location of the Boundary.³

3.4 **DISTRICT PURPOSES**

The following purposes are hereby established for each of the districts:

- 3.4.1 **Residential/Agricultural**: The intent of this district is to provide for open space conservation, agricultural use, and predominantly low density residential development on individual lots or in cluster developments, which can be accommodated on the land without major disruptions of the natural terrain, vegetation, watercourses or surface drainage and which would not customarily have Town water and sewers.
- 3.4.2 **Manufactured Housing/Mobile Home**: The intent of this district is to provide predominantly manufactured housing, mobile home or single family housing on individual lots or in cluster developments which can be accommodated on the land without major disruptions of the natural terrain, vegetation, watercourses or surface drainage and which would not customarily have Town water or sewers.
- 3.4.3 **Retirement Planned Community District**: The intent of this district is to provide a location for elderly housing that recognizes the specific needs for residents 55 years of age and older. This district encompasses Tax Map 2 Lot 41, Map 3, Lots 6, 7, 8, and 24, and a tract of land adjoining the Stratham/Exeter Town Line as shown on a plan recorded at the Rockingham County Registry of Deeds as Plan #D-25288. (Adopted 3/99, Rev. 3/2007)
- 3.4.4 **Professional/Residential District**: The intent of this district is to maintain the existing and surrounding neighborhood's residential appearance while allowing professional office development and limited retail uses through creative planning, oversight, and performance standards.

The district offers a unique opportunity to promote mixed-use development while maintaining buffering for residential neighborhoods from disturbance and disruption on streets with high traffic volumes.⁴ (Amended 3/13)

¹ For that portion of the GCBD east of Route 108, the northern boundary of the district shall conclude at the northernmost property line of Map 9, Lot 8, not to exceed the district's existing depth of 800 feet (Rev. 3/92, 3/96, 3/10).

² For that portion of the TC district east of Route 33, the northern boundary of the district shall conclude at the northernmost property line of Map 17, Lot 87, not to exceed the district's existing dept of 800 feet (Rev. 3/94, 3/96, 3/12).

³ Stratham Tax Map 17, Lot 13 (known as the Stratham Circle) is entirely within the Town Center district (Rev. 3/01).

⁴ The Stratham Zoning Map was amended to include in the Professional/Residential district, the property on Emery Lane, Map 13, Lot 44, located on the east side of Emery Lane with frontage on both Emery Lane and Portsmouth Ave. (Rev. 3/96); and amended to include in the Professional/Residential district, the property south of Bunker Hill

- 3.4.5 Town Center District: The intent of this district is to provide limited commercial, institutional, professional, and personal service uses in the Town Center along with residential uses. The intent is to define the Town Center area and encourage uses suitable to a pedestrian scale.
- 3.4.6 Gateway Commercial Business District: The intent of this District is to promote economic vitality, business diversity, accessibility, and visual appeal of the Route 108/Portsmouth Avenue corridor in a manner that is consistent with the landscape and architecture of the Town's agricultural tradition. Further, the District fosters the development of a vibrant mixed-use zoning district with a cohesive street layout and architectural character that includes commercial, residential, and civic uses and the integration of open spaces, transit, bicycle, and pedestrian accommodations. (Adopted 3/10, Rev. 3/13)
- 3.4.7 Special Commercial District: The intent of this district is to provide an opportunity for the development of hotel, conference center, and restaurant and entertainment complexes to be provided within Stratham, larger scale mixed-use development should be encouraged within the district. Where municipal water and sewer services are available, increased densities shall be allowed. Traditional New England Village design shall also be required to permit higher densities. In addition commercial/professional uses are allowed with upper story residential uses encouraged. The development of any new auto dealerships or service stations shall be prohibited. (Adopted 3/09)
- 3.4.8 Flexible/Mixed Use Development District: The intent of this district is to address the re-development of the current NH Community College site. The ordinance requires any developer to utilize compact village development guidelines for new development, which encourages the creation of human-scale development with pedestrian friendly spaces, centralized park areas, recreational opportunities and energy efficiency standards and sustainability practices. The ordinance also encourages a mixed-use environment, which allows opportunities to develop new or provides for the adaptive reuse of existing structures where flexible performance standards provide for the protection of abutting neighborhoods, surrounding properties and uses. (Adopted 3/07)
- 3.4.9 Commercial/Light Industrial/Office District: The intent of this district is to provide land in appropriate locations for commercial, office, and light industrial uses which are similar in nature, and which improve employment opportunities and strengthen the economic base of the town. Such activities should not adversely affect the natural environment, adjacent residential areas or community facilities. However, in order to preserve appropriate land for such uses, residential uses and some types of commercial and industrial uses are not allowed. In order to maintain this protection, this zone contains more stringent buffer requirements for neighboring residential zones and uses. (Adopted 3/98)
- 3.4.10 Industrial District: The intent of this district is to provide areas for research and development, manufacturing, processing, assembly, wholesaling, and transportation-oriented activities and related services as trucking and warehousing providing that such uses are determined not to be injurious or hazardous to the public health, safety, and/or welfare.

Avenue and east of Portsmouth Avenue (Tax Map 13 Lots 127, 128, & a portion of 129 with frontage on Portsmouth Avenue). (Rev. 3/98)

- 3.4.11 Aquifer Protection District (overlay): The intent of this district is to protect, preserve, and maintain potential groundwater supplies and related groundwater recharge areas within Town. (Rev. 3/92)
- 3.4.12 Floodplain Management District (overlay): The intent of this district is to maintain the flood carrying capacity of the surface waters of Stratham by discouraging the alteration of floodway, and by promoting building practices within the Town's flood hazard areas which are consistent with minimizing flood damage to land and property. (Rev. 3/91)
- 3.4.13 Shoreland Protection District (overlay): The intent of this district is to promote the preservation and maintenance of surface water quality, conserve and protect aquatic and terrestrial habitat associated with intertidal and riparian areas, preserve and enhance those aesthetic values associated with natural shoreline and encourage those uses that can be appropriately located adjacent to shoreline.
- 3.4.14 Wetlands Conservation District (overlay): The intent of this overlay district is to provide protection for and appropriate use of lands which are delineated as poorly drained or very poorly drained soils identified by the U.S. Department of Agriculture, Soil Conservation Service, through field mapping surveys and shown on its field mapping photographic sheets for the Town of Stratham, New Hampshire.

3.5 USE REGULATIONS

- 3.5.1 The Table of Uses, Table 3.6, specifies the uses that are permitted by right, are permitted by special exception, are permitted by conditional use permit, or are prohibited. Permitted uses are designated in the Table with a P; uses which require the granting of a special exception by the Board of Adjustment are designated with an S; uses which require a conditional use permit from the Planning Board are designated with a C; and prohibited uses are designated with an X. The Wetlands Conservation District is an overlay district and information is in Section XI. Additional explanation on Shoreland Protection District, which is also an overlay, is in Section XII.

For any use not specifically listed in the Table, the Planning Board shall determine whether the proposed use is of the same general character as the uses allowed in the Table. If the Board determines it is of the same general character, then the use will be allowed. If the Board determines that it is not of the same general character, then it shall not be permitted. (Rev. 3/88)

- 3.5.2 All uses illustrated in Section 3.6 shall be subject to the limitations delineated in other Sections of this Ordinance. In cases of conflict, the more restrictive interpretation shall apply.
- 3.5.3 All buildings or structures hereafter erected, reconstructed, altered, enlarged, or moved, or all future uses of premises in the Town of Stratham shall be in conformity with the provisions of this Ordinance. Any building, structure, or land shall not be used for any manner other than is permitted in the district in which it is located.
- 3.5.4 A permit for the construction, alteration, enlargement, moving, or demolition or use of a building or structure shall not be issued by the Building Inspector unless it complies with this Ordinance and/or has been granted a variance or special exception by the Board of Adjustment.

- 3.5.5 The uses within the Retirement Planned Community shall be those as defined under the definition of “Retirement Planned Community.” (Adopted 3/99)
- 3.5.6 Privately owned sewage treatment plants, for which the Town does not hold or co-hold the discharge permit, are prohibited. Such plants do not include facilities which discharge to conventional septic tanks and leach field systems as regulated under RSA 149-E. (Rev. 3/89, Rev. 3/99)

FOOTNOTES TO TABLE 3.6:

1. In the Professional/Residential Zoning District, new retail sales on the west side of Route 108 will be limited to existing buildings prior to the adoption of this Section and shall not exceed 500 total square feet. New retail sales on the east side will be limited to 2,000 square feet of designated retail floor area either within an existing or new building. (Rev. 3/13)

The proposed layout and design of the retail use shall be compatible with the established character of the neighborhood and shall mitigate any external impacts of the use on the neighborhood. The location, nature, design, and height of the new or existing structure and its appurtenances, its scale with reference to its surroundings, and the nature and intensity of the use, shall not have an adverse effect on the surrounding environment nor discourage the appropriate and orderly development and use of land and buildings in the neighborhood. Drive-through facilities are not permitted in the Professional / Residential Zoning District. (Rev. 3/13)

2. Retail Sales: May be permitted in the Industrial Zone as a special exception provided the proposed use is carried out on a limited or incidental basis only; the products sold must be manufactured or distributed by the parent company; the space devoted to retail sales shall not exceed 2,000 square feet; the activity will create only a small amount of additional traffic; the activity will be carried on in such a manner as not to create a nuisance to abutting landowners and/or tenants, and; the use must comply with the Town's parking specifications as delineated in Section VI. (Rev. 3/91)
3. In the professional residential district, new office structures on the west side of Route 108 will be limited to a 1600 sq. ft. footprint. Buildings on the east side do not have that limitation. (Rev. 3/96)
4. Special Exceptions for Adult Uses: Adult uses shall satisfy all of the following criteria for a special exception: (Rev. 3/93)
 - a. No adult use shall be located within 1,000 feet of the property line of a church, cemetery, school, day care center, or within 500 feet of a property line of a residence.
 - b. No sexually explicit material or advertising shall be visible from outside the building.
 - c. No private viewing rooms or booths shall be constructed unless one side is always open to a public central area.
 - d. No one under the age of 18 shall be permitted inside such a use and a procedure shall be developed to keep those under 18 from entering.
5. Special Promotional Sales and Displays: Shall be allowed by permit only and shall be limited per business to eight (8) days annually, with each promotional period not to exceed four (4) consecutive days in length. Such a permit shall be issued by the Code Enforcement Officer. The setback requirements shall comply with Section IV: Dimensional_Requirements of this Ordinance. (Adopted 3/96)
6. Self -Storage or Warehousing: Shall only be permitted by Conditional Use Permit and in accordance with the following performance based standards: (Adopted 3/99)
 - a. Any and all structures shall be setback a distance of 150 feet from existing rights-of-ways and 250 feet from any portion of the right-of-way for Portsmouth Avenue or State Route 101.
 - b. Any and all access ways, parking and other infra-structure of any kind related to the use in any way shall be set back 100 feet from existing rights-of-ways and 125 feet from Portsmouth Avenue and State Route 101 except at the point where access is granted.
 - c. Self Storage or Warehousing shall have opaque buffers in all directions that shall provide visual and otherwise protective vegetative buffer utilizing existing vegetation and landscaping to the maximum extent feasible, and where appropriate, fabricated materials and fences. Such buffers shall be at a minimum depth of 50', and provide, in all seasons, an opaque screening. However, the Planning Board may require additional buffering relative to distance or opacity.

- d. No outdoor storage of any kind shall be permitted in association with these uses.
 - e. Structures used for self-storage or warehousing shall not occupy more than 10% of the lot.
7. Not permitted within 800 feet of Portsmouth Avenue. (Adopted 3/98).

ADDITIONAL NOTES:

All permitted uses are subject to all of the other provisions of this Ordinance. All special exceptions are subject to the provisions of Section XVI, the Board of Adjustment. Conditional use permits shall be granted in accordance with the following: (Rev. 3/98, 3/13)

1. **Conditional Use Permits:** All developments designated as "C" in Table 3.6, Table of Uses shall obtain a conditional use permit from the Planning Board. The conditional use permit shall clearly set forth all conditions of approval and shall clearly list all plans, drawings, and other submittals that are part of the approved use. Everything shown or otherwise indicated on a plan or submittal that is listed on the conditional use permit shall be considered to be a condition of approval. (Rev. 3/99)
2. These provisions shall not be construed as establishing any legal right to a given use.
3. **Approval and Granting of Permit:**
 - a. Planning Board Decision Based on Findings. Every decision of the Planning Board pertaining to the granting, denial or amendment of a request for a Conditional Use Permit shall be based upon the findings of fact and conditions of approval. The findings of fact and conditions of approval shall be supported in the records of its proceedings. All standards below must be met or impacts mitigated to the satisfaction of the Planning Board prior to the granting of a Conditional Use Permit. A mere finding or recitation of the enumerated conditions unaccompanied by findings of specific fact shall be deemed not to be in compliance with these regulations.
 - b. Criteria Required for Consideration of a Conditional Use Permit. A conditional use permit shall be granted only if the Planning Board determines that the proposal conforms to all of the following conditional use permit criteria:
 - i. Spirit and Intent of the Ordinance: The proposed development will be constructed in a manner compatible with the spirit and intent of the Stratham Master Plan and Zoning Ordinance.
 - ii. Conformity to Zoning Ordinance: That there are no existing violations of the Stratham Zoning Ordinance on the subject property.
 - iii. Site suitability: The site is suitable for the proposed use which includes the following:
 1. Adequate vehicular and pedestrian access for the intended use.
 2. The availability of adequate public services to serve the intended use including emergency services, pedestrian facilities, schools, and other municipal services.
 3. The absence of environmental constraints (floodplain, steep slope, etc.).
 4. The availability of appropriate utilities to serve the intended use including water, sewage disposal, stormwater disposal, electricity, and similar utilities.
 - iv. External impacts: The external impacts of the proposed use on abutting properties and the neighborhood shall be no greater than the impacts of adjacent existing uses or other uses permitted in the zone. This shall include, but not be limited to, traffic, noise, odors, vibrations, dust, fumes, hours of operation, and exterior lighting and glare. In addition, the location, nature, design, and height of the structure and its appurtenances, its scale with reference to its surroundings, and the nature and intensity of the use,

shall not have an adverse effect on the surrounding environment nor discourage the appropriate and orderly development and use of land and buildings in the neighborhood.

- v. Character of the site development: The proposed layout and design of the site shall not be incompatible with the established character of the neighborhood and shall mitigate any external impacts of the use on the neighborhood. This shall include, but not be limited to, the relationship of the building to the street, the amount, location, and screening of off-street parking, the treatment of yards and setbacks, the buffering of adjacent properties, and provisions for vehicular and pedestrian access to and within the site.
 - vi. Character of the buildings and structures: The design of any new buildings or structures and the modification of existing buildings or structures on the site shall not be incompatible with the established character of the neighborhood. This shall include, but not be limited to, the scale, height, and massing of the building or structure, the roof line, the architectural treatment of the front or street elevation, the location of the principal entrance, and the material and colors proposed to be used.
 - vii. Preservation of natural, cultural, historic, and scenic resources: The proposed use of the site, including all related development activities, shall preserve identified natural, cultural, historic, and scenic resources on the site and shall not degrade such identified resources on abutting properties. This shall include, but not be limited to, identified wetlands, floodplains, shoreland buffers, significant wildlife habitat, stone walls, mature tree lines, cemeteries, graveyards, designated historic buildings or sites/landscapes, scenic views, viewsheds, and the establishment, protection, and promotion of agricultural uses of the site.
 - viii. Impact on property values: There will be no greater diminution of neighboring property values than would be created under any other use or development permitted in the underlying zone;
 - ix. Availability of Public Services & Facilities: Adequate and lawful facilities or arrangements for sewage disposal, solid waste disposal, water supply, utilities, drainage, and other necessary public or private services, are approved or assured, to the end that the use will be capable of proper operation. In addition, it must be determined that these services will not cause excessive demand on municipal services, including, but not limited to, water, sewer, waste disposal, police protection, fire protection, and schools.
 - x. Fiscal impacts: The proposed use will not have a negative fiscal impact on the Town unless the Planning Board determines that there are other positive community impacts that off-set the negative fiscal aspects of the proposed use. The Planning Board's decision shall be based upon an analysis of the fiscal impact of the project on the town. The Planning Board may commission, at the applicant's expense, an independent analysis of the fiscal impact of the project on the town.
 - xi. Public Interest: The permit is in the public interest.
- c. Conditions of Approval:

Conditional Use Permit approvals shall be subject to appropriate conditions where such conditions are shown to be necessary to further the objectives of this ordinance, Town land-use regulations, and the Master Plan, or which would otherwise allow the general conditions of this Section to be satisfied. Conditions of approval shall be stated in writing in the issuance of a permit. The conditions shall, if applicable, include, but are not limited to, the following:

- i. Front, side, and rear setbacks in excess of the minimum requirements of this Ordinance.
- ii. Screening of the premises from the street or adjacent property in excess of any minimum requirements of this Ordinance.

- iii. Landscaping in excess of any minimum requirements of this Ordinance.
- iv. Modification of the exterior features of buildings or other structures.
- v. Limitations on the size of buildings and other structures more stringent than the minimum or maximum requirements of this Ordinance.
- vi. Footprint or lot coverage less than the allowed maximum of this Ordinance.
- vii. Limitations on the number of occupants and methods and times of operation.
- viii. Grading of the premises for proper drainage.
- ix. Regulation of design of access drives, sidewalks, crosswalks, and other traffic features.
- x. Off-street parking and loading spaces in excess of, or less than, the minimum requirements of this Ordinance.
- xi. Other performance standards as appropriate.

3.7 FLEXIBLE/MIXED USE DEVELOPMENT DISTRICT (03/07)**3.7.1 Purpose.**

This section provides for the redevelopment of the NH Community Technical College site, which is a very unique property in Stratham. If no opportunity for change were provided for within this ordinance, proposed reuses could be limited to state, federal or other governmental institutional uses.

The purpose and goals of this section are to provide for the possible redevelopment of the site within the following guidelines:

- a. To encourage a mixed-use environment, which would allow opportunities to develop or provide for the adaptive reuse of existing structures where flexible performance standards would provide for the protection of abutting neighborhoods, surrounding properties and uses.
- b. To provide for limited commercial, office, and light industrial uses which are similar in nature, and which improve employment opportunities and strengthen the economic base of the town. Such activities should be sensitive to the natural environment, "Dark Sky" lighting standards, adjacent residential areas and other community facilities.
- c. To utilize compact village development guidelines, which would encourage the creation of human-scale development with "Town Center" pedestrian friendly spaces, centralized park areas and recreational opportunities.
- d. To encourage any new development to meet energy efficiency standards and sustainability practices.

In order to maintain protections for surrounding properties, development under this ordinance may require more stringent buffer requirements for neighboring residential zones and uses. Due to the sensitivity of the environment and potential proximity to residential areas only specific alternative uses will be permitted.

3.7.2 Zone Defined.

The Flex/Mixed Use Development Zone District shall include: Map 22, Lot 16.

3.7.3 Allowed Uses.

The following uses are allowed primary uses within the zone:

- a. Retirement Planned Community as defined in section 5.6.
- b. Senior multi-family housing, congregate care facilities, retirement home or other supported or independent living arrangement for active adults.
- c. Adult, family, or child-care facilities.
- d. Educational facilities.
- e. Medical offices, laboratory, clinic, medical support service, or short and long-term care facilities.
- f. Research and development, corporate and business offices.
- g. Professional services.

- h. Hotel/Conference Center and related Facilities.
- i. Indoor recreation/entertainment center/health club.
- j. Those uses currently allowed within the RA and PRE zones unless otherwise prohibited or limited within this section.

The following uses shall require a Conditional Use Permit issued by the Planning Board and shall only be allowed as subordinate or complimentary use to any of the above primary uses:

- a. Multi-family housing, limited to 2-bed room units.
- b. General commercial and/or retail, limited to a maximum of 20,000 sq. ft. per unit.
- c. Outdoor recreation/entertainment facilities.
- d. Food service or full service restaurant, limited to a maximum of 10,000 sq. ft. per unit.
- e. Bank (drive-up and/or office) or financial service.
- f. Light Industry.
- g. Cultural uses.
- h. Social service or church/religious use.
- i. Veterinary Hospital or clinic.
- j. Any other use, which may be determined by the Planning Board to be subordinate and/or accessory to a primary allowed use.

3.7.4 Development Standards.

Any re-use of existing structures where no major external changes are made, parking requirements do not exceed current available spaces, no increase in current septic discharge occurs and traffic impacts are not increased from previous community college use shall be treated as a minor site review by the Planning Board with expedited review and approval.

Any proposed new development shall require full site plan review by the Planning Board and comply with the following standards:

- a. All drainage shall be entirely controlled and reintegrated on-site.
- b. Site layout should attempt to reflect a compact village style.
- c. All new construction shall follow environmentally sustainable practices and BMP's, which would qualify for Leadership in Energy and Environmental Design (LEED) credits.
- d. All new site work shall implement Low Impact Development (LID) BMP's.
- e. All signage shall follow the standards within section 7.3 of these ordinances as allowed within the Town Center zone except for setbacks, which shall only apply to an external lot line. The Planning Board through the Site Plan Review process shall approve all internal lot line setbacks for signage.

- f. Any new development shall meet the requirements of Sections 5.2 Landscape Design Standards and Section 5.15 Architectural Plans of the Stratham Site Plan Review Regulations.

In addition the Planning Board through it Site Plan Review and Subdivision application process, may require any additional standards, which shall mitigate adverse impacts from any proposed uses. The Board may require additional buffers or performance standards, which will reduce or eliminate any objectionable activities or impacts.

3.7.5 Setbacks and Streetscape:

- a. Setbacks to any existing exterior lot line shall be 100'.
- b. Setbacks for any new construction on any new interior street shall be measured as a build-to line of no less than 20'.
- c. All new street construction shall provide for a sidewalk with curbing where appropriate and also where appropriate a 4' green buffer strip between the paved portion of the street and the sidewalk.
- d. Any new lots within the parcel shall require no more than 50' of frontage and shall allow for zero lot-line setbacks to allow attached structures or for a 10' minimum separation between structures.

3.7.6 Prohibited Uses.

The following restrictions shall exist and uses not allowed within the Flex/Mixed Use district:

- a. Adult Oriented Uses.
- b. Recycling Facilities.
- c. Automotive Sales.
- d. Gas/Service Stations.
- e. Junk Yards.
- f. Hazardous Waste Storage.

3.8 **GATEWAY COMMERCIAL BUSINESS DISTRICT** (REV. 3/11, 3/13)

3.8.1 Authority:

- a. The action of the Town of Stratham, New Hampshire in the adoption of this Ordinance is authorized under RSA 674:21.II Innovative Land Use Controls and RSA 674:16 Grant of Power.
- b. This Ordinance was adopted to promote the health, safety, and general welfare of the Town of Stratham and its citizens, including protection of the environment, conservation of land, energy and natural resources, reduction in vehicular traffic congestion, more efficient use of public funds, health benefits of a pedestrian environment, preservation of community character, education and recreation, reduction in sprawl development, and improvement of the built environment.

- c. This Section was adopted as one of the instruments of implementation of the public purposes and objectives of the Town's Master Plan. This Ordinance is declared to be in accord with the Master Plan, as required by RSA 674:2.

3.8.2 Applicability:

- a. This Ordinance shall establish the Gateway Commercial Business District (the "District" or "GCBD"). The boundaries of the District are shown on the plan entitled "Gateway Commercial Business District, Town of Stratham, New Hampshire" and dated December 22, 2009 (as amended). (Rev. 3/13)
- b. The provisions of the GCBD shall be mandatory for development projects within the Gateway Commercial Business District. Development projects submitted for approval under this zoning district shall be subject to applicable requirements of the Subdivision and Site Plan Review Regulations of Stratham. (Rev. 3/13)
- c. When in conflict, the provisions of the GCBD shall take precedence over those of other ordinances, regulations, and standards except the Local Health and Safety Ordinances and Building Codes. (Rev. 3/13)
- d. Section 3.8.10 Definitions of Terms contains regulatory language that is integral to the GCBD. Those terms not defined in Section 3.8.6 or in Section II of the Zoning Ordinance shall be accorded their commonly accepted meanings. In the event of conflicts between definitions in the Zoning Ordinance and the GCBD, those of the GCBD shall take precedence.
- e. The requirements of Section 3.8.8 Development Standards and Tables are an integral part of the GCBD and are legally binding. Unless otherwise noted, other diagrams and illustrations that accompany this ordinance are provided for guidance purposes and as recommended examples.
- f. If in conflict, numerical requirements shall take precedence over graphic illustrations.

3.8.3 Purpose and Intent:

- a. The purpose of the Gateway Commercial Business District is to enhance the economic vitality, business diversity, accessibility, and visual appeal of Stratham's Gateway Commercial Business District, in a manner that is consistent with the landscape and architecture of the Town's agricultural tradition.
- b. The intent of the GCBD is to foster development of a vibrant mixed-use district with a cohesive street layout and architectural character that includes commercial, residential, and civic uses and integration of open spaces, transit, bicycle, and pedestrian accommodations. The requirements of the GCBD are based primarily on building form, placement and function, site design, and the overall built environment including streetscapes, landscaping, and outdoor spaces and facilities.
- c. Development in the Gateway Commercial Business District shall incorporate the following:
 - i. Wherever possible, natural infrastructure and visual character derived from topography, woodlands, farmlands, riparian corridors, and other environmental features shall be retained;
 - ii. Infill development and redevelopment shall be encouraged;

- iii. Development contiguous to adjacent zoning districts shall be organized to complement and be compatible with the existing pattern of development and the natural landscape;
- iv. Network of existing and proposed streets shall be designed for access to Portsmouth Avenue and local connector roads, disperse traffic to and from the District, and reduce traffic volumes;
- v. Transportation corridors shall be planned and reserved in coordination with proposed land uses;
- vi. Greenways shall be used to define and connect developed areas and provide public spaces and enhance viewsheds to adjacent conservation lands;
- vii. Development shall integrate a framework of transit, pedestrian, and bicycle systems that provide accessible alternatives to the automobile;
- viii. Use of on-street parking shall be emphasized;
- ix. Architectural and landscape design suited to a traditional New England appearance shall be applied; and
- x. Public gathering and public use spaces shall be established and connections made throughout the District in a manner and location that will encourage use and promote safety and security.

3.8.4 The Regulating Plan:

- a. The purpose of this Ordinance is to enable, encourage, and implement the following plans and general requirements.
- b. For the purposes of the delineation, the Gateway Commercial Business District and the location and boundaries of Special Districts are hereby established as shown on a map entitled “Regulating Plan for the Gateway Commercial Business District of the Town of Stratham, New Hampshire” (the “Regulating Plan”) dated December 22, 2009 and hereby incorporated as part of this ordinance.
- c. The Regulating Plan for the GCBD shall identify the extent of Zones within the District where specific provisions shall apply. Following are general descriptions of these zones (refer to Section 3.8.8 for detailed requirements for each zone):
 - i. Central Zone – for the purpose of providing non-residential uses, mixed uses and multi-family uses in a primarily dense development pattern with wide streets in a grid-like network, and dedicated public spaces;
 - ii. Outer Zone – for the purpose of providing non-residential uses and residential uses in a moderate density and residential development pattern with narrower local streets and dedicated public and open spaces; and
 - iii. Open Space Zone – for the purpose of providing, scenic beauty and viewsheds, natural resource protection, land conservation, and passive recreational opportunities.

3.8.5 District Character:

- a. Development in the Gateway Commercial Business District should incorporate the following concepts to preserve and complement elements of the agricultural and

historic tradition of Stratham and local and regional village character:

- i. Comprised of compact, pedestrian-oriented development;
- ii. Mixed use pattern of development where development specializing in a single use should be the exception;
- iii. Where ordinary activities of daily living should be located within walking distance of residential areas, allowing independence to those who do not drive;
- iv. Within mixed use and residential neighborhoods, a range of housing types and price levels shall be provided to accommodate diverse ages and incomes; Workforce housing is encouraged within the District to promote a variety of housing choices;
- v. A range of Open Space including parks, squares, and playgrounds shall be distributed within neighborhoods and throughout the District;
- vi. Expansion and provision of public transportation facilities that promote use and access is encouraged;
- vii. Provide improved visibility and access to and use of conservation lands, where appropriate; and
- viii. Provide opportunities for agrarian activities such as farmers markets and community gardens.

3.8.6 Review and Permitting Process:

a. Review Process:

- i. The Board of Selectmen will hereby create a GCBD Review Committee (“GRC”) comprised of the Town Planner and four (4) members and two (2) alternates appointed by the Board of Selectmen and recommended by the Planning Board. The GRC shall process applications for development within the District for the purpose of determining compliance with the provisions of the Ordinance. The GRC may consult with other committees, commissions, and professionals for review and comment on applications within the District. Any cost associated with professional review shall be the responsibility of the applicant.
- ii. Projects that do not require a Conditional Use Permit shall be evaluated for compliance with this ordinance by the GRC, administratively approved by the Town Planner, and processed by the Planning Board when required under the Subdivision or Site Plan Review Regulations of Stratham.
- iii. An administrative decision by the Town Planner relating to compliance with the requirements of this ordinance (approval or denial of an application) may be appealed to the Zoning Board of Adjustment.
- iv. Should any construction, site work, or development be commenced without an approved Conditional Use Permit, Subdivision, Site Plan approval or administrative approval, or any should a violation of an approved Development Plan or Conditional Use Permit occur, the Planning Board or the Town Planner has the right to require the property owner to stop, remove, and/or mitigate the violation, or seek the appropriate appeal process to gain compliance.

b. Conditional Use Permit:

- i. Applications for development within the District may include a request for a Conditional Use Permit to deviate from the requirements of this ordinance. All such requests shall be accompanied by a narrative description of the deviation and a site plan showing the deviation from any requirement within this ordinance. Deviation from the requirements of this Ordinance shall be permitted by grant of a Conditional Use Permit issued by the Planning Board.
- ii. A Conditional Use Permit is a decision that would permit deviation from or reduction in a specific provision(s) of this Ordinance but that is otherwise generally consistent with the provisions of Section 3.8.3 Purpose and Intent. The Planning Board shall have the authority to grant or deny a request for a Conditional Use Permit pursuant to the provisions of RSA 674:16 and RSA 674:21.
- iii. The granting or denial of a Conditional Use Permit by the Planning Board may be appealed to the Superior Court, as provided for in RSA 677:15. [A Planning Board decision on the issuance of a Conditional Use Permit cannot be appealed to the Zoning Board of Adjustment (RSA 676:5 III).]
- iv. A Conditional Use Permit, for relief from the requirements of this Ordinance, may be granted by the Planning Board after proper public notice and public hearing provided the Planning Board finds that an application complies with standards 1. and 2 below.
 1. Consistent with the Gateway Business District Master Plan, including but not limited to:
 - a. Both public and private buildings and landscaping shall contribute to the physical definition of streetscapes and public spaces; and
 - b. Development shall adequately accommodate automobiles and emergency vehicles, while respecting the pedestrian and the spatial form of public spaces; and
 - c. Design of streets and buildings shall reinforce safe environments, but not at the expense of accessibility and efficient traffic flow; and
 - d. Architecture and landscape design shall complement climate, topography, community character, and building practice; and
 - e. Open space and public gathering places shall be provided as locations that reinforce the identity and activity of the District and the community; and
 - f. New development and redevelopment shall be otherwise consistent with the intent and purpose of this ordinance; and
 - g. Does not impact adjacent properties and uses in the District.
 2. Improves public safety within the District and/or in adjacent zoning districts; or provides environmental and natural resource protection; or provides a measureable public benefit (such as increased public space, open space or public amenities).

3.8.7 Building and Site Design Standards:

a. Purpose:

In order to provide for harmonious and aesthetically pleasing development in the built environment [RSA 674:44,II(b)], the Gateway Review Committee (refer to Section 3.8.6) and the Planning Board will apply the following Building and Site Design Standards in its review of all applications in the District.

b. Intent:

Maintaining the quality and character of the community is dependent upon the quality and character of the architecture and development that is allowed to occur. Poorly planned and executed development detracts from the character and function of the built environment, while well-planned development enhances community character, quality of life, and value of the surrounding properties and the community overall.

Design standards are a tool to help guide development and redevelopment assuring that community priorities are an integral part of the design process. Design Standards, implemented as part of the application review and approval process, are a set of design principles that offer a positive direction for building and site level design. The guidelines and interpretations are based upon maintaining and enhancing the character of the community. They are not intended to specify any particular architecture or style.

Design Standards address a wide range of design issues including such elements as: pedestrian and traffic circulation, building mass and scale, architectural details, signs, landscaping, lighting, open space, and natural features. When integrated, these elements will create a project that is functional, attractive, and an asset to the community.

c. Building and Site Design Evaluation:

The evaluation of the following factors will inform the GCBD Review Committee and the Planning Board's decisions on whether proposed site and building designs achieve the purpose and intent of these Design Standards and of this Ordinance. The Planning Board shall develop a GCBD guidance document to further illustrate and provide details of the design standards stated below. This document shall be utilized by applicants when designing projects within the District.

- i. Within a development project, site design elements should be compatible with small New England Village character and the town's agricultural history.
- ii. Building architecture should demonstrate the cohesive planning of the development and present a clearly identifiable, attractive design feature and appearance throughout. It is not intended that buildings be totally uniform in appearance or that designers and developers be restricted in their creativity. Rather, cohesion, and identity can be demonstrated in harmonious building style, scale or mass; consistent use of facade materials; similar ground level detailing, color or signage; consistency in functional systems such as roadway or pedestrian way surfaces, signage, or landscaping; public amenities; the framing of outdoor open space and linkages, or a clear conveyance in the importance of various buildings and features on the site.

- iii. Building architecture should be designed to provide an attractive appearance. Franchise or corporate style architecture and/or highly contrasting color schemes are strongly discouraged. If proposed, such building styles should be substantially modified to create a project that complements the small New England Village character. All architectural details should be related to an overall architectural design approach or theme.
 - iv. Diversity of architectural design is encouraged. Buildings that are characteristic of a historic period are encouraged, particularly if a building style or the site is historically appropriate for the community or necessary for architectural harmony.
 - v. Multiple buildings on the same site should be designed to create a cohesive visual relationship, as well as efficient circulation and access for pedestrians and vehicles. Accessory buildings should be designed to complement the primary building and/or use on the site in design and material expression.
 - vi. Building placement should take best advantage of solar orientation, climatic and other environmental conditions, should encourage safety and use of adjacent public spaces and public open spaces, and should minimize the impact of activity and light upon and from the project.
 - vii. Buildings adjacent to public open space should generally be oriented to that space, with access to the building opening onto the public open space.
 - viii. Implementation of Low Impact Development techniques is strongly encouraged, including, but not limited to, stormwater management practices, alternative surfacing materials, building and site design elements, and landscaping features.
 - ix. The practice of creating structures and using processes that are environmentally responsible and resource-efficient throughout a building's life-cycle from siting to design, construction, operation, maintenance, renovation, and deconstruction are strongly encouraged.
 - x. All electrical utilities shall be located underground.
- d. Street and Streetscape Standards:
- i. Thoroughfare intersections and on-street parking shall be setback a minimum of 100 feet from Portsmouth Avenue.
 - ii. In the Central Zone, thoroughfares shall be laid out in a grid-like pattern and may be composed of angular, rectangular, or square configurations that define blocks.
 - iii. Thoroughfares shall provide the following streetscape elements: sidewalks, pedestrian crossings, planting strips, street trees, and lighting. Bike lanes shall be provided on Boulevards, Avenues, and Streets shown on the Regulating Plan and as detailed in Section 3.8.8.b and Section 3.8.8.c for additional standards for required and recommended streetscape elements.
 - iv. Thoroughfares that incorporate commons and squares are encouraged to provide public parks and spaces and add visual form and interest to the development. Roundabouts may also be incorporated when necessary to enhance traffic flow and safety.
 - v. Other new thoroughfares shall be aligned as closely as possible at right angles to the roadway network shown on the Regulating Plan and spaced according to the

needs of the development serviced, traffic demand and safety.

e. Landscaping Standards:

The following landscaping standards shall apply to all development:

- i. Following are requirements for implementation of buffers:
 1. A minimum 30-foot vegetated buffer shall be provided between proposed development and adjacent residential zoning districts outside the GCBD;
 2. Street trees and other plantings shall be placed within the building setback on the lot or right of way of Portsmouth Avenue;
 3. A 30-foot vegetated buffer where a residential use abuts a non-residential use or a mixed-use development in the Outer Zone.
- ii. Buffers shall be established or maintained at a density that attenuates year round the impact of activity and light on adjacent properties.
- iii. Use of native species of trees, shrubs, groundcover, and decorative plants in all landscaping is strongly encouraged.
- iv. A landscaping plan, including a maintenance plan and agreement, shall be approved as part of the review and approval process as stated in the Site Plan Review (Section V.5.2) and Subdivision Regulations.

f. Lighting Standards:

- i. Street, building and site lighting shall not adversely impact surrounding uses and residential projects, and be designed with no light spilling or reflecting into adjacent properties and with protection of the night sky. Such lighting shall not blink, flash, oscillate, or be of unusually high intensity of brightness, except for purposes of providing emergency services or to protect public safety.
- ii. Energy efficient exterior lighting and streetlights shall be provided.
- iii. Lighting of the site shall be adequate at ground level for the protection and safety of the public in regard to pedestrian access and vehicular circulation. This shall include, but not be limited to sidewalks, crossings, parking areas, and other public spaces.
- iv. Refer to additional lighting requirements in Section 3.8.8, Tables b.5 and c.6.
- v. Unless otherwise stated, lighting shall comply with the standards of the Site Plan Review Regulations, Section V.5.8.

g. Parking Standards:

- i. On-street parking shall provide short-term parking for patrons of shops and businesses. On street parking to service residential areas is recommended.
- ii. Parking for mixed use developments shall provide long term and shared parking by multiple uses and users.
- iii. Delivery and other service related areas for mixed use and non-residential uses can be located at the front, rear, or sides of buildings, or within designated portions of parking areas. Loading docks and service areas shall not face a public frontage. Delivery and service vehicles are encouraged to utilize rear alleys for

building access.

- iv. Parking structures shall comply with the dimensional requirements and design standards of principal buildings. Below ground and multi-story parking structures are encouraged.
- v. Refer to additional parking requirements in Section 3.8.8, Tables b.6 and c.7.
- vi. Parking in the District shall comply with the requirements of Section V.5.9 of the Site Plan Regulations.

3.8.8 DEVELOPMENT OF STANDARDS AND TABLES

a. Permitted Uses By Zone

Type of Use	Central Zone	Outer Zone	Open Space Zone
Agriculture and Forestry	<u>By Conditional Use Permit</u> Agriculture (crop productions), forestry, community gardening	<u>Permitted</u> Includes farming (dairying, livestock, raising of animals and poultry, crop production); customary accessory uses; forestry (tree farming, commercial timbering, non-commercial harvesting of forest products); community gardening	See <i>Footnote</i>
Civic/ Institutional	<u>By Conditional Use Permit</u> Includes private schools, nursery through college schools; day care facilities; senior citizen centers; outpatient clinics and treatment facilities; non-profit lodges and fraternal organizations; place of worship including customary ancillary facilities; public utilities; and municipal buildings	<u>Permitted</u> Includes private schools, nursery through college schools; day care facilities; senior citizen centers; outpatient clinics and treatment facilities; non-profit lodges and fraternal organizations; place of worship including customary ancillary facilities; public utilities; and municipal buildings	By Conditional Use Permit; see <i>Footnote</i>
Commercial	<u>Permitted</u> Includes retail sales and service, business and professional services, banking and lending institutions, food service/bar/entertainment, special promotional sales and displays, conference centers, movie and performance theatres, indoor entertainment complex, <u>By Conditional Use Permit</u> Includes self storage facilities, light manufacturing facilities ³ , and veterinary hospitals	<u>Permitted</u> Includes retail sales and service, business and professional services, banking and lending institutions, food service/bar/entertainment, special promotional sales and displays, conference centers, movie and performance theatres, indoor entertainment complex, <u>By Conditional Use Permit</u> Includes self storage facilities, light manufacturing facilities ³ , and veterinary hospitals	Not Permitted
Drive-through Service	Not Permitted	Not Permitted	Not Permitted
Food Service/Bar/ Entertainment¹	Permitted	By Conditional Use Permit	Not Permitted
Mixed Use²	Permitted	Permitted	Not Permitted
Open Space/Conservation	See #4	See #4	Permitted
Residential – single-family, two-family	Not Permitted	<u>Permitted</u> Includes single-family (1 unit), two-family (2 units), workforce housing, manufactured housing, home occupations, accessory apartments	Not Permitted
Residential – multi-family and other residential uses	<u>By Conditional Use Permit</u> Includes multi-family (3-8 units), workforce housing, manufactured housing, home occupations, accessory apartments, bed and breakfast inns, hotels, motels, and hostels	<u>Permitted</u> Includes multi-family (3-8 units), workforce housing, manufactured housing, home occupations, accessory apartments, bed and breakfast inns, hotels, motels, hostels, and open space cluster developments	Not Permitted
Recreational	<u>By Conditional Use Permit</u> Includes public parks and playgrounds; passive, non-motorized recreation; natural resource management and research	<u>Permitted</u> Includes forestry, wildlife, timber preserves, reservoirs; public parks and playgrounds; commercial riding stables and riding trails; recreational camping parks, recreational areas, and residential tent camping; passive, non-motorized recreation; natural resource management and research	Permitted
Other Uses not listed	By Conditional Use Permit	By Conditional Use Permit	By Conditional Use Permit; <i>See #4</i>

¹**Food Service/Bar/Entertainment** includes all food service and entertainment related uses such as restaurants, dinner theatres, bars, pubs, cafes, and coffee shop/diners.

²**Mixed Use** includes Residential and Commercial and/or Professional Business uses in combination in one or several structures; non-residential use shall comprise >50% of the gross floor area.

³**Light Manufacturing Facility*** includes facilities that produce and sell artisanal products derived from materials such as paper, wood, metal and ceramic, food products, and fine art.

⁴ Uses may be permitted according to the terms and restrictions of any open space designated on a specific property.

b. Central Zone Design Standards and Roadways

TABLE 1.

Dimensional Requirements		
Elements	Standard	Description
Block	8,000 sq.ft. minimum 30,000 sq.ft. maximum	Block with thoroughfare frontage on no less than two sides; Minimum area dependent on Soil-Based Lot Sizing*
Building Footprint (non-residential and mixed use)	15,000 sq.ft. maximum	Minimum area dependent on Soil-Based Lot Sizing*
Multi-Family (3-8 units)	8,000 sq.ft. maximum building footprint	Minimum area dependent on Soil-Based Lot Sizing*
Frontage Buildout	60% min / 80% maximum	

* Unless innovative sewage treatment facilities are proposed or public water and wastewater services are available, all developments shall meet the standards set forth in the Stratham Subdivision Regulations Section 4.3 Soil-Based Lot Size Determination (as amended).

TABLE 2.

Building Height		Setbacks – Principal Structures	
Principal Structure ¹ (maximum)	3 stories 40 feet maximum height	Frontage (from street or lot line)	0 minimum 15 maximum
Principal Structure ¹ (minimum)	1.5 stories	Side or Secondary Frontage (from street or lot line)	10 minimum 0 feet if secondary frontage ²

¹ Principal Structures include: (1) uses served by single and multiple structures and (2) parking structures
² The minimum building/structure front setback requirement for properties fronting Portsmouth Avenue shall be ten (10) feet from the State Right-Of-Way or twenty (20) feet from the edge of pavement, whichever is greater. (Rev. 3/13)

First Floor Height	14 feet minimum required for non-residential; 10 feet minimum required for residential	Rear (from street or lot line)	10 feet minimum 0 feet if secondary frontage
		Note: Individual buildings on a lot or block may be connected, with no separation between or setback from one another.	

Principal Structure

Primary Frontage

Building Area or Block Area

Note: Minimum structure setback is 0 feet if secondary frontage

TABLE 3.

Accessory structures shall be limited to the following:	
<i>Type of Use</i>	<i>Dimensional Requirements</i>
Commercial, Businesses and Other Non-Residential Uses	1.5 stories maximum height 8 feet minimum first story height 400 sq.ft. maximum footprint
Civic, Recreational, Public Facilities or Transportation Uses	No restrictions on dimensional requirements.

TABLE 4.

Streetscape Standards		
<i>Roadway Type</i>	<i>Right of Way Width</i>	<i>Description</i>
Boulevard	72 feet minimum 94 feet maximum	Two-way traffic flow is required.
Avenue	72 feet minimum 76 feet maximum	One-way traffic flow is permitted.
Street (per Regulating Plan)	51 feet minimum 55 feet maximum	Two-way traffic flow is required.
Street (proposed local)	51 feet minimum 55 feet maximum	One-way traffic flow is permitted; sidewalks required on one side of street.
Alley	12 feet maximum	One-way traffic flow is required.

TABLE 5.

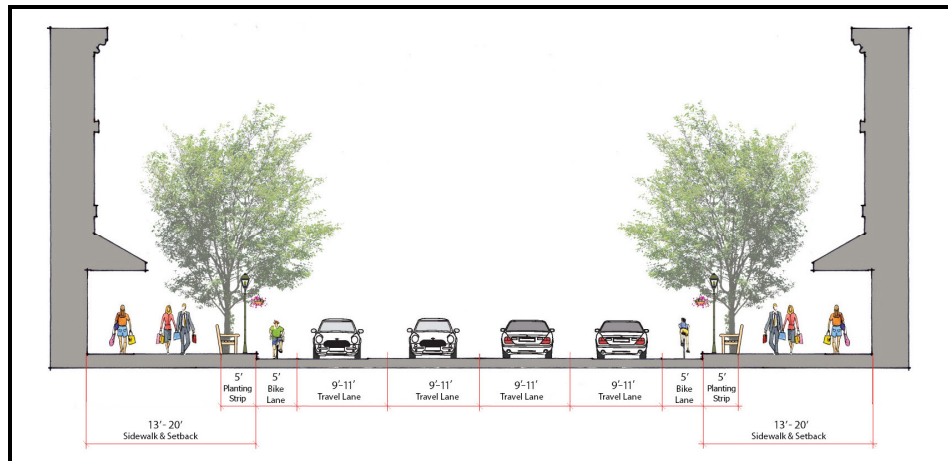

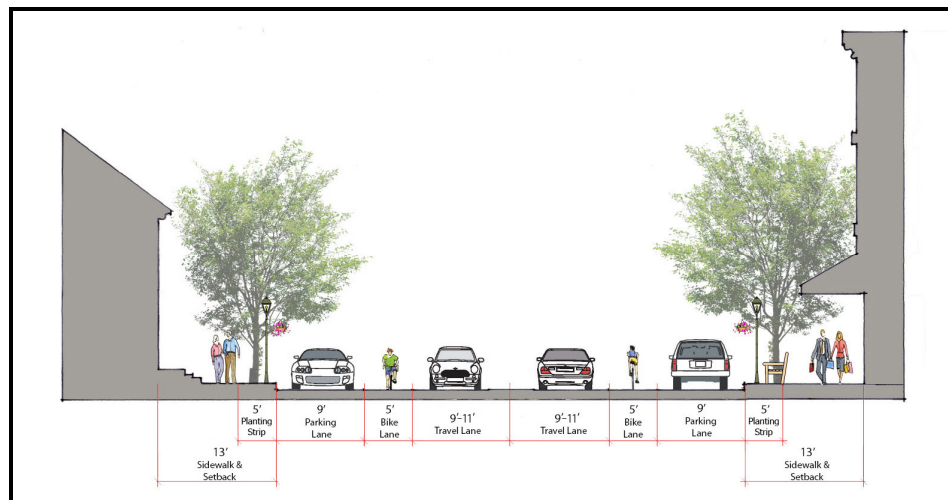

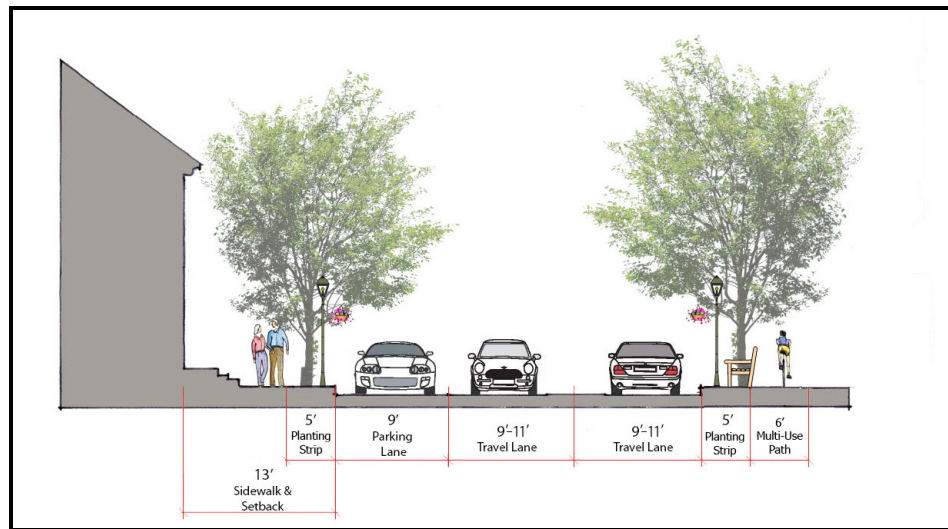

Streetscape Elements		
<i>Element</i>	<i>Standards</i>	<i>Description</i>
Planting Strip	5-foot minimum width (as shown on roadway cross-sections)	Refer to Site Plan Review Regulations Section V.5.2. for landscaping requirements.
Setback	Combined 13 feet minimum/20 feet maximum	Composed of sidewalk and planting or street buffer strip with granite curbing.
Crossings	6 feet minimum width, 10 feet maximum width Required at street intersections and permitted at mid-block	Within an individual block or development, shall be composed consistently of similar materials and may include brick, pavers, stamped concrete, porous pavement; all sidewalks shall have granite curbing against a thoroughfare. Differentiate with use of non- asphalt materials, striping and accent paving or materials.
Street Trees	1 per 25 linear feet of right of way	Located within the Planting Strip or Street Buffer Strip.
Lighting	1 per 25 linear feet of right of way	Along all sidewalks, New England traditional fixtures with downcast illumination; lighting placement shall alternate with street tree placement.
Seating	Encouraged	In public spaces (such as pocket parks and gardens) and at street intersections.
Shelters (transit, school bus stops)	Optional	Painted or coated metal frame or natural materials.
Trash Receptacles	Required	Secured and covered at street intersections or mid-block.
Bicycle Racks	Required	At transit stops/shelters, public spaces, parking areas.

TABLE 6.

Parking Area Design Standards		
<i>Element</i>	<i>Standards</i>	<i>Description</i>
Medians	Located between opposing parking isles and at periphery.	Shall incorporate for use as a stormwater management best management practice, wherever feasible; vegetation shall be appropriate for wet/dry conditions and salt tolerant.
Islands	Located at end of parking isles and at entrance/exit.	Used primarily as screening and landscaping areas comprised mostly of trees, shrubs, and groundcovers that are drought and salt tolerant.
Placement	Located at rear or side of buildings, and interior of blocks.	

TABLE 7.

Public Space and Open Space Standards	
Public Space	<p>Developments shall include a minimum of 15 percent of the total area dedicated to public spaces. Public space calculations shall not include lands within required thoroughfare cross-sections and other proposed streets.</p> <p>Public space shall include facilities and landscapes that promote outdoor activities and enjoyment.</p>
Open Space	<p>Developments of 1 acre or greater shall include a minimum of 15 percent of the total area dedicated to open space. Open space shall not include lands within required thoroughfare cross-sections and other proposed streets. Open space shall be no less than 1 acre of contiguous area or the entire 15 percent area requirement whichever is less; open space requirement can be transferred elsewhere within the Central Zone by designating the minimum open space requirement on another property.</p> <p>Open Space may include septic reserve areas, well protection areas, and LID stormwater management features (i.e. natural areas such as bioretention areas, vegetated buffers and rain gardens).</p> <p>Open space shall consist of natural areas, or created natural areas such as gardens, landscaped areas and parks, where the public may gather, recreate and enjoy scenic views.</p>

Figure 1. Central Zone Roadway Cross-Section Types*Boulevard (minimum width 72 feet; maximum width 94 feet)**Avenue (minimum width 72 feet; maximum width 76 feet)**Street (required per Regulating Plan; Minimum width 51 feet; maximum width 55 feet)*

c. Outer Zone Design Standards and Roadways

TABLE 1.

Dimensional Requirements		
Footprint, Block or Lot	Area	Description
Multi-Family (3-8 units)	8,000 sq.ft. maximum building footprint 40,000 sq.ft. maximum block	Block with frontage on no less than two sides; Minimum area dependent on Soil-Based Lot Sizing*
Single Family (1 unit)	6,000 sq.ft. minimum lot	Minimum area dependent on Soil-Based Lot Sizing*
Two-Family (2 units)	15,000 sq.ft. minimum lot	Minimum area dependent on Soil-Based Lot Sizing*
Building Footprint (non-residential and mixed use)	10,000 sq.ft. maximum footprint	Minimum area dependent on Soil-Based Lot Sizing*
* Unless innovative sewage treatment facilities are proposed or public water and wastewater services are available, all developments shall meet the standards set forth in the Stratham Subdivision Regulations Section 4.3 Soil-Based Lot Size Determination (as amended).		
Frontage Buildout	70% maximum	Includes Principal and Accessory Structures

TABLE 2.

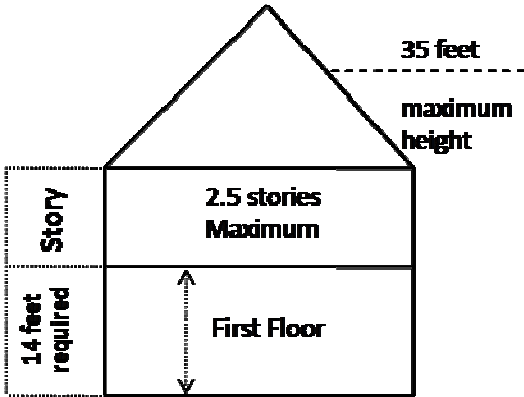

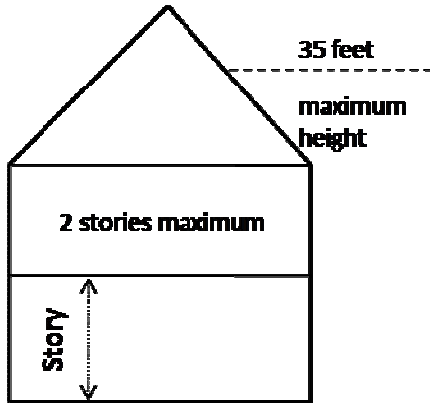

Building Height			
Principal Structure (non-residential, mixed use, and multi-family)	2.5 stories maximum 35 feet maximum height 14 feet minimum required for non-residential	Principal Structure (single-family and two-family)	2.0 stories maximum;
 <p>Principal Structure (non-residential and mixed use)</p>		 <p>Principal Structure (Residential)</p>	

TABLE 3.

Setbacks – Principal Structures			
Principal Structure (non-residential, mixed use)		Principal Structure (single-family, two-family, multi-family)	
Frontage	0 feet minimum/25 feet maximum	Frontage	8 feet minimum/25 feet maximum
Side	25 feet minimum 0 feet if secondary frontage	Side	10 feet minimum
Rear	10 feet minimum 0 feet if secondary frontage	Rear	10 feet minimum
		Note: individual buildings on a lot or block may be connected, with no separation between or setback from one another.	

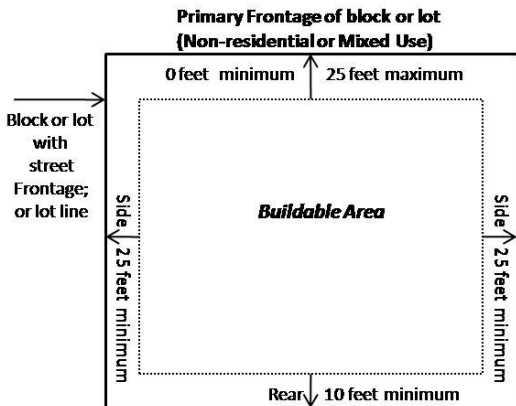

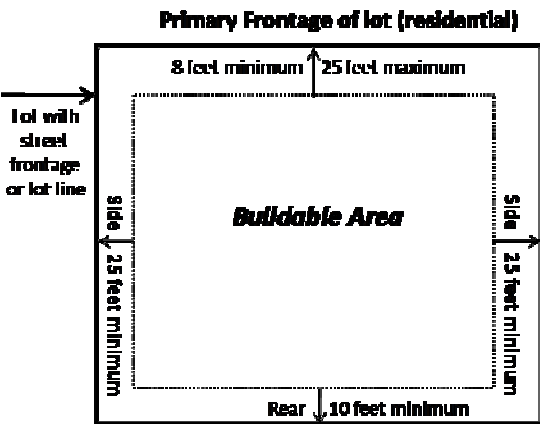

<p>Primary Frontage of block or lot (Non-residential or Mixed Use)</p>  <p>Block or lot with street frontage; or lot line</p>		<p>Primary Frontage of lot (residential)</p>  <p>Lot with street frontage; or lot line</p>	
<p>Note: Minimum structure setback is 0 feet if secondary frontage</p>			

TABLE 4.

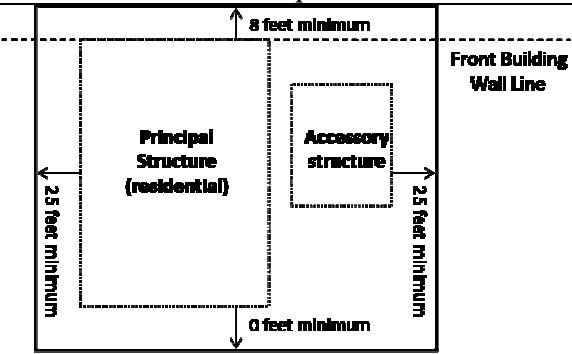

Setbacks – Accessory Structures	
Type of Use	Dimensional Requirements
Commercial, Businesses and Other Non-Residential Uses	1.5 stories maximum height 8 feet minimum first story height 400 sq.ft. maximum footprint
Residential Uses	1.5 stories maximum height 8 feet minimum first story height 400 sq.ft. maximum footprint Shall be setback behind the front building wall of principal structure (see diagram below).
Civic, Recreational, Public Facilities or Transportation Uses	No restrictions on dimensional requirements.
<p>Description</p> 	

TABLE 5.

Outer Zone Streetscape Standards		
<i>Roadway Type</i>	<i>Right of Way Width</i>	<i>Description</i>
Street (per Regulating Plan)	51 feet minimum 55 feet maximum	Two-way traffic flow is required.
Street (proposed local)	51 feet minimum 55 feet maximum	Two-way traffic flow is required; sidewalks required on one side of street.
Alley	12 feet maximum	One-way traffic flow is required.

TABLE 6.

Streetscape Elements		
<i>Element</i>	<i>Standards</i>	<i>Description</i>
Planting Strip	5-foot minimum width (as shown on roadway cross-sections)	Refer to Site Plan Review Regulations Section V.5.2.) for landscaping requirements.
Setback	Combined 14 foot min, 20 foot max	Composed of sidewalk and planting strip or street buffer strip with granite curbing.
Crossings	6 foot minimum width, 10 foot maximum width Required at street intersections and permitted at mid-block	Within an individual block or development, shall be composed consistently of similar materials and may include brick, pavers, stamped concrete, porous pavement; all sidewalks shall have granite curbing against a thoroughfare; sidewalks recommended on both sides of street (except when serving only residential development). Differentiate with use of non-asphalt materials, striping and accent paving or materials.
Street Trees	1 per 25 linear feet	Refer to Site Plan Review Regulations Section V.5.2.; street tree placement shall alternate with lighting placement.
Lighting	1 per 25 linear feet of right of way	Along all sidewalks, New England traditional fixtures with downcast illumination; lighting placement shall alternate with street tree placement
Seating	Encouraged	At public spaces (such as pocket parks and gardens) and at street intersections.
Shelters	1,000 linear feet of right of way	Painted or coated metal frame or natural materials.
Trash Receptacles	Optional	Secured and covered at street intersections or mid-block.
Bicycle Racks	Required	At transit stops/shelters, public spaces, public parking areas.

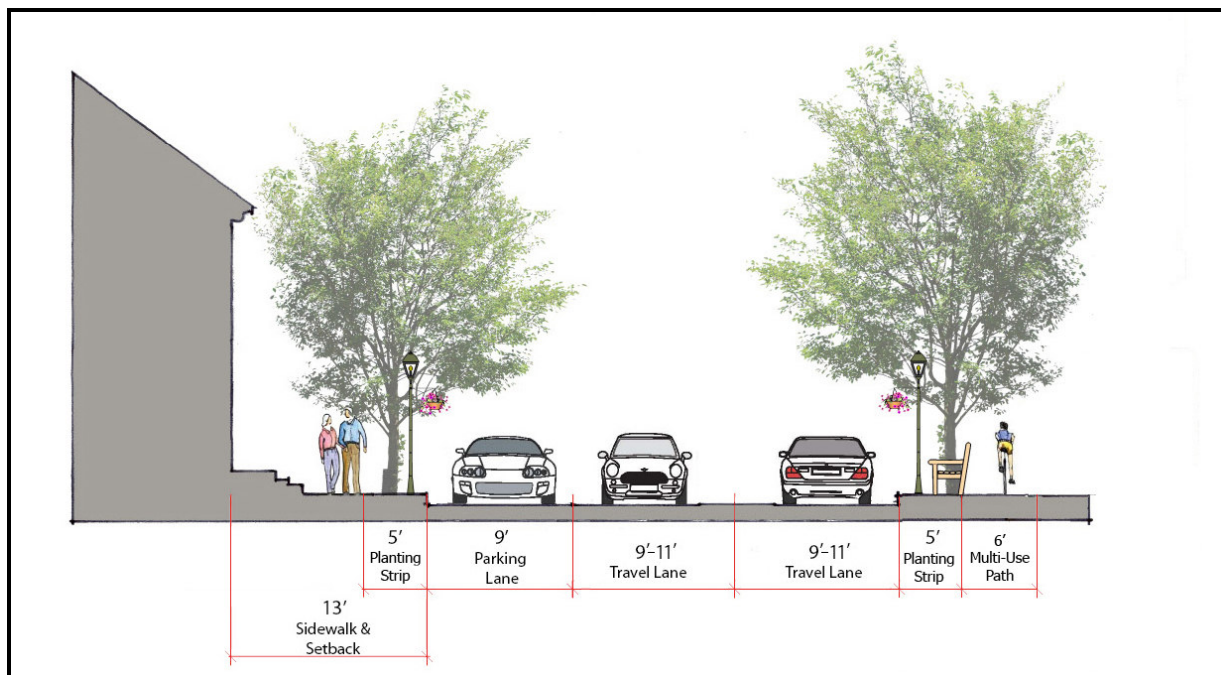

TABLE 7.

Parking Area Design Standards		
<i>Element</i>	<i>Standards</i>	<i>Description</i>
Medians	Located between opposing parking isles and at periphery	Shall incorporate for use as a stormwater management best management practice, wherever feasible; vegetation shall be appropriate for wet/dry conditions and salt tolerant.
Islands	Located at end of parking isles and at entrance/exit	Used primarily as screening and landscaping areas comprised mostly of trees, shrubs and groundcovers that are drought and salt tolerant.
Placement	Located at rear or side of buildings, and interior of blocks	

TABLE 8.

Public and Open Space Standards	
Public Space	Developments shall include a minimum of 15 percent of the total area dedicated to public spaces. Public space calculations shall not include lands within required thoroughfare cross-sections and other proposed streets. Public space shall include facilities and landscapes that promote outdoor activities and enjoyment.
Open Space	<p>Developments of 1 acre or greater shall include a minimum of 15 percent of the total area dedicated to open space. Open space shall not include lands within required thoroughfare cross-sections and other proposed streets. Open space shall be no less than 1 acre of contiguous area or the entire 15 percent area requirement whichever is less.</p> <p>Open Space may include septic reserve areas, well protection areas, and LID stormwater management features (i.e. natural areas such as bioretention areas, vegetated buffers and rain gardens). Open space shall consist of natural areas, or created natural areas such as gardens, landscaped areas and parks, where the public may gather, recreate and enjoy scenic views.</p>
Greenway Trail (optional)	Developments may provide a Greenway Trail through the property with connections provided to trails on adjacent properties or open space areas. Greenway Trails shall be a minimum of 8 feet in width and surfaced to provide universal access.

FIGURE 1. Outer Zone Roadway Cross-Section Type

Street (required per Regulating Plan; Minimum width 51 feet; maximum width 55 feet)

Note: Multi-Use Paths may abut the street frontage or meander through a property providing the path enters and exits the property via the street frontage *OR* connects to a multi-use path on an adjacent property.

d. Open Space Zone

TABLE 1.

<i>Standard</i>	<i>Description</i>
<i>District Boundary</i>	Comprises all conservation lands and open space lands designated as part of development within the District (as amended) including both publicly accessible and privately owned lands.
<i>Permitted Uses</i>	Uses may be permitted according to the terms and restrictions of any open space designated by any easement implemented on a specific property; where permitted uses may include passive, non-motorized recreation; natural resource management and research; and commercial agriculture and forestry.
<i>Access</i>	All development shall provide public access to designated open space within the District.
<i>Location and Connectivity</i>	Lands designated as open space shall be connected preferably by being contiguous from one lot to another lot or within a development, or secondarily by walking paths, designated public spaces or sidewalks. The goal of locating open space is to create a contiguous greenway that provides pedestrians and bicyclists opportunity to move throughout the District. The open space greenway will provide an alternative to vehicle travel for both residents and visitors.
<i>Character and Features</i>	Existing natural areas may be preserved and maintained as open space. Open space may also be newly established through the creation of parks, gardens, ponds and other natural areas and/or features. Open space shall be maintained or established to provide opportunity for the public – both residents and visitors - to gather, recreate outdoors, and enjoy scenic views and landscapes.

3.8.9 Architectural And Site Design Standards

a. Building Exterior Features:

- i. Building facades shall be compatible in scale, mass, and form with adjacent structures and the development pattern of the surrounding area (assuming the adjacent structures are generally in compliance with these design standards).
- ii. Exterior building design and detail on all elevations shall be coordinated with regard to color, types of materials, number of materials, architectural form, and detailing to achieve harmony and continuity of design.
- iii. Paint colors, excluding signage and awnings, shall be limited to a reasonable number and range of palette to achieve consistency of style and character with adjacent development.
- iv. Where appropriate, architectural details and richly detailed designs are encouraged to provide variation and creative designs. All features and details should be of a style consistent with the overall design scheme and in proportion with the building and adjacent structures.
- v. Rear and side building walls, if visible from public streets and spaces or neighboring properties, shall be designed with similar detailing and materials and be compatible with the principal façade(s) of the building. All elevations and cross-sections of a building shall be shown on a site plan.

- vi. To avoid long unbroken or unadorned wall planes, building facades and walls should not extend beyond 50 – 75 feet without including changes of wall plane that provide strong shadow or visual interest.
- vii. Exterior materials shall be durable and of high quality. Excessively vibrant colors, sharply contrasting colors, and highly reflective materials are not compatible with the traditional New England character. Architectural elements visible to the public but not detailed on the plans shall be finished in a material compatible with other exterior colors and materials.
- viii. Pedestrian level storefronts shall employ non-reflective glass or light gray tinted glass to enhance the visibility of the displayed merchandise from the outside.
- ix. Window and door openings on the front façade shall occupy a total of no less than 20% and no more than 70% of the gross square footage of that façade. The size and placement of windows should be commensurate with architectural style of the buildings and landscape elements in the development.
- x. All windows and doorways shall be encased with wood or simulated wood trim; decorative trim is preferred. Aluminum windows shall be finished to match the proposed trim color of the building.
- xi. True divided light windows and shutters are encouraged. Shutters shall be sized such that when closed they cover the window.
- xii. All vents, gutters, downspouts, flashing, electrical conduits, etc., shall be painted to match the color of the adjacent building surface, unless being used expressly as trim or accent element.
- xiii. Material or color changes generally should occur at a change of plane. Piecemeal embellishment and frequent changes in color or material should be avoided.
- xiv. The visibility of rooftop equipment shall be minimized by grouping all plumbing vents, ducts, and rooftop mechanical equipment away and screened from public view at ground level. Wall or ground mounted equipment shall be screened fully from public view with walls, fences or vegetation. No air conditioning, ventilating, or other mechanical or electrical equipment, except for lighting fixtures, may project more than four (4) inches beyond the face of a wall facing a public street or space.
- xv. Awning covers designed for shade and for entryways shall be made of fabric or simulated fabric-like material that match or complement paint colors used on the building. Brightly illuminated and franchise type awnings are not acceptable.
- xvi. Franchise or corporate style architecture and/or highly contrasting color schemes are strongly discouraged. If used, such buildings shall be designed to create a project that is consistent with traditional New England village character.
- xvii. Fences in the traditional historic New England style and materials (i.e. picket, split rail, wrought iron, brick, stone) shall be used. Chain link security fences may be allowed only where necessary for safety or security, but their use is generally discouraged.
- xviii. The following building materials shall be used and combined to create a consistent, attractive, and cohesive building design:

1. Natural Brick (painted brick is not recommended, as it tends to require frequent maintenance);
 2. Natural Stone (such as, but not limited to, fieldstone, granite, limestone and marble);
 3. Terra cotta and/or cast stone which simulate natural stone);
 4. Split-face Block/Concrete Masonry Unit (CMU) and painted concrete block or panels as appropriate for side and rear elevations;
 5. Natural wood and/or cement-based artificial wood siding;
 6. Glass; and
 7. Non-decorative cinder block (limited to walls not visible from a public street).
- b. Roof Lines, Styles and Materials:
- i. Sloped roofs are highly preferred. Gabled and hipped roofs should have a slope of greater than 4/12 (18°), but less than 14/12 (49°).
 - ii. Gambrel and Mansard roofs are acceptable for appropriately sized structures.
 - iii. Standing seam, copper roofing, asphalt, and slate shingles are preferred. Photovoltaic (PV) panel roof materials, which “simulate” traditional roofing materials, are acceptable. Metal roofs that face the street are discouraged, unless architecturally blended with the facade.
 - iv. Flat roofs are strongly discouraged unless to allow the creation of a “green roof” as a Low Impact Development (LID) technique. Where used, they should have a parapet wall at the façade with cornice elements and facing all thoroughfares.
- c. Site Design:
- i. Traditional New England Village planning principles (“Traditional Neighborhood Design”) are used to create a village center consisting of dense mixed use and commercial areas organized around public spaces and bordering residential neighborhoods.
 - ii. All roadways shall provide a pedestrian and bicycle friendly layout and incorporate landscaping and lighting elements.
- d. Land Use and Housing:
- i. Mixed Uses in the Central Zone and Outer Zone shall provide commercial retail stores and shops, food service/bar/entertainment establishments, and professional offices and businesses on the first floor of buildings, with professional office and businesses, light commercial (such as artisanal manufacturing) and residential uses optionally on the upper floors.
 - ii. Residential neighborhoods should include a mix of housing types, sizes and styles, and provide public gathering and/or recreational spaces or areas for use by residents, businesses, visitors and the community.
 - iii. Developments shall provide a viable mix of residential and non-residential uses to promote living and employment opportunities in the style of a Traditional New England Village.

- e. Landscaping:
 - i. Landscaping shall be an integral component of site design to provide visual interest, scenic and aesthetic beauty, maintain natural vegetation and landscape features, and maintain or create greenways throughout the District.
 - ii. Traditional New England Village landscaping shall include street trees, large shade trees, groups of plantings, box planters along streets, and pocket gardens and parks. Low shrubs and flowering plants soften lines of buildings and help screen parking lots and utilities.
 - iii. Landscaping shall be integrated with LID practices, general stormwater management, and parking lot and roadway designs.
 - iv. Landscaping should consider use of native species of trees, shrubs, ground cover and flowering plants.
 - 1. For all development within the Central and Outer Zones of the District, a Landscaping Plan shall be prepared and submitted following the requirements of this ordinance and Section V-5.2.N of the Site Plan Regulations.
- f. Transportation Network and Access:
 - i. The Central Zone shall incorporate a grid-pattern of Boulevards, Avenues, and Streets as well as squares or loop roads around central open spaces or public spaces.
 - ii. The Outer Zone shall incorporate grids of local and neighborhood streets, loop roads, access roads and alleys.
 - iii. New roads and streets shall connect to the existing transportation network within the District and adjacent zoning districts to provide efficient traffic patterns and site access, and provide for public safety. Development shall provide potential future connections to adjacent properties and not prevent or preclude these connections.
- g. Open Space and Recreation:
 - i. All development in the District is required to provide a percentage of open space. These open spaces shall be located to provide connections between existing open spaces (both within the outside the District), visual interest, scenic vistas and viewsheds, diversity in the developed landscape, preserve natural resources and features, provide gathering spaces for community uses, civic uses and outdoor activities.
 - ii. Existing conservation lands within the District and beyond its periphery provide natural areas for passive recreation by residents, visitors and the public, and provide extensions of the required open space areas within the District.

3.8.10 Definitions of Terms

This Subsection provides definitions for terms in this Ordinance that are technical in nature or that otherwise may not reflect a common usage of the term.

- a. Accessory Structure: An Outbuilding or with an Accessory Use to the Principal Structure.

- b. Bicycle Lane: A dedicated lane for cycling within a moderate-speed vehicular Thoroughfare, demarcated by striping.
- c. Block: The aggregate of private Lots, Passages, Rear Alleys and Rear Lanes, circumscribed by Thoroughfares or Streets.
- d. Boulevard: A Thoroughfare designed for high vehicular capacity and moderate speed, traversing an urbanized area.
- e. Civic: The term defining not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit, and municipal parking.
- f. Civic Building: A building operated by not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit, and municipal parking, or for use approved by the legislative body.
- g. Civic Space: An outdoor area dedicated for public use. Civic Space types are defined by the combination of certain physical constants including the relationships among their intended use, their size, their landscaping and adjacent buildings.
- h. Curb: The edge of the vehicular pavement or edge of a sidewalk or setback that may be raised or flush, and often incorporates a drainage system.
- i. Density: The number of dwelling units within a standard measure of land area.
- j. Disposition: The placement of a building on its Lot.
- k. Driveway: A vehicular lane within a Lot for the purpose of providing access from a thoroughfare.
- l. Elevation: An exterior wall of a building not along a Frontage Line. See: Facade.
- m. Facade: The exterior wall of a building that is set along a Frontage Line. See Elevation.
- n. Frontage: The area between a building Facade and the vehicular lanes, inclusive of its built and planted components. Frontage is divided into Private Frontage and Public Frontage.
- o. Frontage Line: A lot line bordering a Public Frontage.
- p. Greenway: An Open Space Corridor in largely natural conditions or re-established vegetated and/or forested conditions, which may include trails for bicycles and pedestrians.
- q. Infill: Noun - New development on land that had been previously developed, including most Greyfield and Brownfield sites and cleared land within Urbanized areas. (Verb- to develop such areas.)
- r. Lot Width: The length of the Principal Frontage Line of a Lot.
- s. Low Impact Development: Low Impact Development (LID) incorporates sustainable land development approaches that begin with a site planning process that first identifies critical natural drainage systems and other landscape hydrologic functions. LID techniques include: maintaining natural drainage flow paths, minimizing land clearance, clustering buildings, and reducing impervious surfaces. A series of small stormwater best management practices (BMP's) that preserve the natural features and hydrology of the land are used instead of the conventional methods of collecting, conveying, and discharging runoff off the site.

- t. Mixed Use: Multiple functions within the same building or in multiple buildings on a lot.
- u. Office: Premises available for the transaction of general business but excluding Retail, artisanal and Manufacturing uses.
- v. Open Space: Land intended to remain undeveloped.
- w. Park: A Civic Space type that is a natural preserve available for unstructured recreation.
- x. Parking Structure: A building containing one or more Stories of parking above grade.
- y. Path: A pedestrian way traversing a Park or rural area, with landscape matching the contiguous Open Space, ideally connecting directly with the Sidewalk network.
- z. Principal Building: The main building on a Lot, usually located toward the Frontage.
- aa. Principal Entrance: The main point of access for pedestrians into a building.
- bb. Principal Frontage: The Frontage designated to bear the address and Principal Entrance to the building, and the measure of minimum Lot width. See Frontage.
- cc. Private Frontage: The privately held Layer between the Frontage Line and the Principal Building Facade.
- dd. Public Frontage: The area between the Curb of the vehicular lanes and the Frontage Line.
- ee. Public Space: Lands that are dedicated for public use but that are privately owned and maintained which may include squares, plazas, greens, civic spaces, paths, trails, allée, park,
- ff. Rear Alley: A vehicular way located to the rear of Lots or Blocks providing access to service areas, parking, and Outbuildings and that may contain utility easements. Rear Alleys should be paved from building face to building face, with drainage by inverted crown at the center or with roll Curbs at the edges.
- gg. Rear Lane: A vehicular way located to the rear of Lots providing access to service areas, parking, and Outbuildings and containing utility easements. Rear Lanes may be paved lightly to Driveway standards. The streetscape consists of gravel or landscaped edges, has no raised Curb, and is drained by percolation.
- hh. Regulating Plan: A Zoning Map that shows the boundaries of the Gateway Commercial Business District and Zones within it, and other areas subject to or potentially subject to regulation.
- ii. Secondary Frontage: On corner Lots, the Private Frontage that is not the Principal Frontage.
- jj. Sidewalk: The section of the Public Frontage dedicated exclusively to pedestrian activity.
- kk. Square: A Civic Space type designed for unstructured recreation and Civic purposes, spatially defined by building Frontages and consisting of Paths, lawns and trees, formally disposed.
- ll. Story: A habitable level within a building, excluding an attic or raised basement.

- mm. Street: A local urban Thoroughfare of low speed and capacity.
- nn. Thoroughfare: A way for use by vehicular and pedestrian traffic and to provide access to Lots and Open Spaces, consisting of Vehicular Lanes and the Public Frontage.
- oo. Traditional New England Village: Development patterns that are civic-oriented, pedestrian-friendly, economically vibrant and diverse, environmentally sustainable, and evoke a unique sense of place that emulates the agricultural tradition of Stratham.

SECTION IV: DIMENSIONAL REQUIREMENTS**4.1 GENERAL REQUIREMENTS**

The following general requirements shall be met:

- 4.1.1 No building or structure shall be erected, enlarged or moved nor shall any use be authorized or extended nor shall any existing lot be changed as to size except in accordance with the Table of Dimensional Requirements, Table 4.2.
- 4.1.2 A lot having frontage or an area less than required by Table 4.2 may be considered to be in compliance therewith provided that:
 - a. The lot had received final subdivision approval prior to the enactment of this Ordinance or was shown on a recorded plan or deed filed before the Planning Board that was granted jurisdiction to control the subdivision of land, and provided that,
 - b. Contiguous lots in common ownership shall be combined to create a lot or lots most nearly consistent with Section 4.2, and provided that,
 - c. Contiguous lots in common ownership shall not have been separated or transferred in ownership so as not to comply with the provisions of this Ordinance.
- 4.1.3 More than one building may be allowed on a lot in the Town Center, Industrial, Commercial/Light Industrial/Office and Professional Residential districts provided that there is a minimum distance of sixty (60) feet separating each of the buildings in the Commercial/Light Industrial/Office and Industrial zones and thirty (30) feet of separation between buildings in the Town Center and Professional Residential zones. (Adopted 3/96, Rev. 3/98, Rev. 3/00, Rev. 3/13)

4.2 TABLE OF DIMENSIONAL REQUIREMENTS

The Table of Dimensional Requirements shall apply for all lots, uses of land, and developments within the various districts, unless modified by other sections of this ordinance.

4.2 TABLE OF DIMENSIONAL REQUIREMENTS: (REV 3/00, 3/13)

(See explanatory footnotes on next page)

	DIMENSIONAL REQUIREMENT:	Residential/ Agricultural: (b)(h)	Manufactured Housing/Mobile Home: (i)	Professional/ Residential: (c)	Town Center: (c)	Special Commercial: without Utilities / with Utilities (public water and sewer services) (Adopted 3/09)		Commercial /Light Industrial Office:	Industrial: (c)	Retirement Planned Community: (k)

	SIDE/REAR OPEN SPACE SETBACK:	N/A	N/A	20' minimum 30' average	25' min. 40' avg.	25' min. 40' avg.	NA	See: 4.3(j) explanatory notes	25' min.	40' min.

4.3 **EXPLANATORY NOTES**

The following explanatory notes shall provide further definitions for the footnoted items in Table 4.2.

- (a) All measurements are in feet unless otherwise noted. The minimum lot size shall be increased depending on the soil classification as defined by the Natural Resources Conservation Service. (Rev. 3/98)
- (b) These dimensions shall not apply to Cluster Developments. See Section VIII for applicable dimensional requirements.
- (c) When the footnoted professional/residential, commercial, office, or industrial uses abut residential uses or a residential district, the minimum front and rear setbacks shall be 100 feet and the side setback shall be 50 feet.
- (d) For a duplex house on a single lot, the minimum lot size shall be 1.5 acres and have 175 feet of continuous frontage. In the R/A District a duplex house on a single lot shall have a minimum lot area of 3 acres and a minimum continuous frontage of 200 feet. (Rev. 3/00)
- (e) For lots that abut Route 33 or Route 108, the minimum front setback shall be 10 feet from the State Right-of-Way or 20 feet from edge of pavement, whichever is greater. The above setbacks shall not apply to septic tanks and/or leaching fields. Septic tanks and/or leaching fields must be located at least 30 feet from the edge of a right-of-way, or comply to the standards set forth in Section 20.1.1 & 2 of this Ordinance; the more restrictive provision shall apply. In addition, for land that lies south and west of Route 101 that is also served by municipal sewer and water, the minimum rear and side open space setback shall be the same as the yard dimensions, the minimum open space shall be 15%, and the height of the buildings may also be increased in accordance with footnote f, below. (Rev. 3/91, 3/96, 3/99, 3/13)
- (f) For the footnoted districts, an applicant may apply to the Board of Adjustment to exceed the height limit provided it is determined by the Board that the extra height will not create a safety hazard.
- (g) (1) West side of Route 108. (Rev. 3/96)
(2) East side of Route 108. Existing structures could be converted but not expanded unless they meet setback requirements. New or replacement structures would have to meet setbacks on page 54 and 55 (Section 4.2). (Rev. 3/96)
- (h) Porkchop lots are allowed under certain conditions. See Subdivision Regulations.
- (i) Except as modified by Section 9.5. (Rev. 3/89)
- (j) The Planning Board shall adopt regulations to administer the open space and buffer requirements for the CLIO zone where the zone abuts residential zones and uses. These buffers shall provide visual and otherwise protective vegetative buffer utilizing existing vegetation and landscaping to the maximum extent feasible, and where appropriate, fabricated materials and fences. Such buffers shall be at a minimum depth of 100', and may provide in all seasons an opaque screening at the discretion of the Planning Board. However, the Planning Board may require a greater distance.

The buffer may exist outside the CLIO district through ownership or easement and may contain appurtenant structures that are compatible with the maintenance of a vegetative cover (e.g. leach fields, drainage areas, etc.). (Adopted 3/98)

- (k) For a Retirement Planned Community, the minimum lot shall be 5 acres and height shall be measured with a maximum of three (3) stories above grade. Density, setbacks between structures, setbacks to interior lot lines, minimum lot size per unit, setbacks to wetlands, and parking shall be controlled by Section V: 5.6, Retirement Planned Community. (Adopted 3/99)

SECTION V: SUPPLEMENTARY REGULATIONS**5.1 NON-CONFORMING STRUCTURES AND USES:** (REV. 00)**5.1.1 Reconstruction Of:**

Any non-conforming structure which is completely or substantially destroyed by casualty loss may be replaced with a similar structure which has the same building footprint dimensions and meets the setbacks of the previously existing structure. The structure may be rebuilt provided such construction is started within one year of the casualty loss and completed within two years of the casualty loss. The provisions of the Town of Stratham Building Code, as amended, shall apply to any reconstruction.

5.1.2 Expansion of Non-Conforming Uses:

Except as noted below, an expansion of a non-conforming use is prohibited except by variance by the Zoning Board of Adjustment.

A variance is not required if the expansion is a natural expansion which does not change the nature of the use, does not make the property proportionately less adequate, and does not have a substantially different impact on the neighborhood.

5.1.3 Expansion of Non-Conforming Structures:

Non-conforming structures may be expanded in accordance with the terms of a special exception issued by the Zoning Board of Adjustment, which must find the following factors to exist before issuing such a special exception:

- a. The proposed expansion must intrude no further into any setback area than does the existing structure;
- b. The expansion must have no further adverse impact on the view, light, and air of any abutter;
- c. The expansion must not cause property values to deteriorate;
- d. The expansion must not impede existing rights of access or egress;
- e. That portion of the proposed expansion, which will intrude into the setback must, in no event, exceed the footprint square footage of that portion of the structure which presently intrudes into the setback, regardless of the number of applications made over time under this subsection;
- f. In the event the non-conforming structure contains a commercial use, there must be no adverse impact on access, traffic, parking, lighting, or other safety or visibility features of the existing structure;
- g. A special exception under this subsection may be granted only as to expansions into the side, front, and rear setbacks, and is not available for expansions which violate height restrictions of this ordinance.

5.1.4 Discontinuance Of:

In the event that a non-conforming use is voluntarily discontinued for a period of one year, such non-conforming use shall be deemed abandoned and shall not be able to resume without compliance with the Zoning Ordinance or, alternately, without a variance

from the Zoning Board of Adjustment. Voluntary abandonment shall be evidenced by either of the following:

- a. Discontinuance of the occupancy or nonconforming use for twelve consecutive months with no ongoing attempts to sell or lease the property for its non-conforming use; or:
- b. Failure to resume the nonconforming use within eighteen months, even though there may be ongoing efforts to sell or lease the property for its non-conforming use.

5.1.5 Continuance Of:

All non-conforming structures and uses which predate the adoption or amendment of this Ordinance may continue in their present use. These uses shall run with the land and may be transferred by sale or lease by present owner to future owners or lessees, subject to the other terms of this Ordinance, which limit such non-conforming uses.

All new uses, changes of uses, expansion of uses or resumption of uses previously discontinued shall not be permitted until the property owner or authorized lessee has first made application to the Town of Stratham Code Enforcement Officer for an administrative decision seeking a determination whether a permit is required for such new, change, expansion or resumption of the non-conforming use or non-conforming structure under the terms of this Ordinance. If a permit or other application is required, such use may not proceed until such application has been made and processed as required by Town Regulations and Ordinances.

5.2 CERTAIN PROHIBITIONS

The following prohibitions shall be observed in the Town of Stratham:

- 5.2.1 Fire Ruins: No owner or occupant of land in any district shall permit fire or other ruins to be left on a site, but within six months shall remove such ruins and fill any excavation with solid fill to ground level, or shall repair, replace, or rebuild the structure within one year of the fire.
- 5.2.2 Nuisances: Any use that may be obnoxious or injurious by reason of production or emission of odor, dust, smoke, refuse matter, fumes, noise, vibration, or similar conditions, or that is dangerous to the comfort, peace, enjoyment or health or safety of the community, or tending to its disturbance or annoyance, is prohibited.
- 5.2.3 **(Repealed 3/99)** See Section XX.
- 5.2.4 Dumping or Disposal of Garbage and Other Refuse: No land in any district shall be used for a dumping place for garbage and refuse from either private or commercial or industrial sources except the public dump as provided by the Town and except with the approval in writing of the Public Health Officer.
- 5.2.5 Timber Cutting: No person shall cut timber, except as provided for in New Hampshire Statutes.
- 5.2.6 Junk Vehicles: Two or more junk, un-inspected, or inoperable automobiles or other vehicles originally designed for public or private transportation purposes or the parts to

said vehicles shall not remain within any residential or open space/forestry districts unless such vehicle and/or its parts are enclosed within a conforming building. (Rev. 3/98)

- 5.2.7 **Boats**: A boat with a beam of greater than eight feet shall conform to the setbacks of the zone in which it is located.
- 5.2.8 **Tractor-Trailers**: No tractor-trailers used for storage purposes shall be permitted on-site for more than thirty (30) days during any calendar year. Tractor-trailers within the Industrial District shall be permitted on-site for no more than six (6) months. Sites under construction shall be exempt from this provision. All tractor-trailers shall comply with the setbacks as specified in Table 4.2. (Rev. 3/89)

5.3 **JUNK YARDS**

Any junk yard or place for storage of unregistered vehicles or other scrap material shall be maintained in accordance with standards set and enforced by the New Hampshire Revised Statutes.

- 5.3.1 **Screening**: Any junk permitted to be maintained on any lot shall be effectively screened from view from any highway and from abutting premises by a solid wall or fence at least six (6) feet in height.
- 5.3.2 **Period for Compliance**: A period of six (6) months from the date of adoption of this Section shall be provided for junk existing on said date either to be removed or to be brought into compliance with the provisions hereof.

5.4 **ACCESSORY APARTMENTS** (REV. 3/90, 3/05 & 3/09)

- 5.4.1 **Purpose**: The purpose of the accessory apartment provision is to provide an accessory housing alternative, while maintaining neighborhood aesthetics and quality.
- 5.4.2 **Objectives**: The objectives of this Section are to:
- Provide a housing unit in a single-family neighborhood for individuals seeking affordable housing alternatives;
 - Protect the single-family residential character of a neighborhood by ensuring that the accessory apartment is permitted only in an owner-occupied house and under such conditions as to protect the health, property values, safety, and welfare of the public.
- 5.4.3 **Special Exception**:
- One (1) accessory apartment within a detached single-family dwelling or garage which may be separate from or attached to the main dwelling and is clearly a subordinate part thereof will be permitted by special exception. The Zoning Board of Adjustment will grant a special exception provided that all of the following conditions are met:
- The dwelling to which an accessory apartment is to be added must be owner-occupied;
 - The property and proposed use must conform to the dimensional requirements of Table 4.2 (including the requirements for lot coverage, building footprint and open space requirements);

- c. The single-family dwelling shall not be a mobile home, condominium, or located within a cluster development;
- d. The accessory apartment shall be designed so that the appearance of the building remains that of a one family dwelling. Any new entrance that may be required shall be located on the side or in the rear of the building. Units within a garage should be constructed to maintain the look of a residential garage, such that entry doors should remain and any decks are constructed to the rear of the structure;
- e. The size of the accessory apartment shall be between 400 square feet and 1000 square feet, and shall not exceed 1/3 of the living area of the existing dwelling;
- f. In no case shall there be more than Three (3) people residing within an accessory apartment;
- g. Adequate off-street paved or gravel parking shall be provided and shown on the sketch plan. The appearance of the parking design shall be that of a single-family dwelling;
- h. The structure and lot shall not be converted to a condominium or any other form of legal ownership distinct from the ownership of the existing single-family dwelling;
- i. Prior to granting a special exception by the ZBA, the owner shall provide, as part of the ZBA case file, the following:
 - i. Evidence to the Building Inspector or their agent that septic facilities are adequate for both units according to the standards of Stratham and the N.H. Water Supply and Pollution Control Division. If deemed necessary by said Inspector, such evidence shall be in the form of certification by a State of NH licensed septic system designer. Also the owner shall provide evidence that there is adequate potable water according to the standards of the State of New Hampshire. The Building Inspector then shall indicate his approval in writing to the ZBA.
 - ii. A floor plan of one quarter inch (1/4") to the foot scale showing the proposed changes to the building.
 - iii. A sketch plan (drawn to scale) of the lot, with existing and proposed structures and parking.
- j. The accessory apartment shall be subject to the standards and conditions for a special exception as set forth in Article 17.8.2 of this Ordinance.

5.4.4 Regulations:

- a. The Building Inspector may require construction plans of any improvements and foundations to determine safety of any structure to be used as an accessory apartment. Safety may be determined by review and inspection of the structure to be used.
- b. Once any renovation or construction is complete, or the owner is ready to have a unit occupied, a request shall be made to the Building Inspector for an occupancy permit. With the request for the occupancy permit, the owner shall provide the Building Inspector with a copy of a recorded deed addendum listing the conditions set forth in Section 5.4.3 of these ordinances and any other conditions which may have been placed on the property by the Stratham Zoning Board of Adjustment in the granting

of the Special Exception. There shall be no occupancy of the accessory unit until the Building Inspector has issued said occupancy permit.

- c. Any accessory apartment shall be allowed to continue to be used as such as long as all the requirements of Section 5.4.3 are maintained. If any of the conditions set forth in Section 5.4.3 are not maintained such apartment shall cease to exist. To reestablish use of such apartment the home owner must reapply for a permit.

5.5 OUTSIDE STORAGE (REV. 3/96)

Storage of materials used in conjunction with a permitted use within any district shall be permitted. However, all goods and materials must be stored in accordance with the minimum yard dimensions specified in Table 4.2, Table of Dimensional Requirements.

5.6 RETIREMENT PLANNED COMMUNITY (ADOPTED 3/99)

Retirement Planned Community uses shall adhere to all provisions of the Stratham Zoning Ordinance unless preempted by the provisions below.

5.6.1 Density: No minimum lot size shall be required per individual unit.

- a. For a Retirement Planned Community that is served by on-site subsurface disposal systems, the number of elderly housing units per acre shall be based on the number of bedrooms allowed under NH Department of Environmental Services Septic System Design Rules as shall be applicable on the date of subdivision or site plan application to the Planning Board, divided by the number of bedrooms per unit.
- b. For a Retirement Planned Community that is served by public sewer and public water the number of elderly housing units shall be a maximum of 8 per acre.
- c. The maximum number of units per building in the Retirement Planned Community shall be 24.

5.6.2 Setback to Wetlands: Within a Retirement Planned Community, the setback to wetlands shall be 50 feet.

5.6.3 Parking: Two (2) parking spaces per unit shall be provided on-site.

5.6.4 Setbacks: To interior subdivision lot lines for structures shall be 30 feet.

5.6.5 Setbacks: Between on-site structures shall be 25 feet.

5.6.6 Regulations: The Planning Board as part of site plan review may modify setbacks to lot lines, interior on-site structures, and parking requirements upon appropriate findings by the Planning Board.

5.7 AFFORDABLE SENIOR HOUSING (REV. 3/96)

The Affordable Senior Housing uses shall adhere to all provisions of the Stratham Zoning Ordinance unless preempted by the provisions below.

- 5.7.1 Location: Affordable Senior Housing may be allowed within the Residential/Agricultural (R/A) zone by Conditional Use Permit issued by the Stratham Planning Board, and shall be limited to lots greater than five (5) acres in size.
- 5.7.2 Conditional Use Permits: Affordable Senior Housing developments shall obtain a conditional use permit from the Planning Board. The conditional use permit shall clearly set forth all conditions of approval and shall clearly list all plans, drawings, and other submittals that are part of the approved use. Everything shown or otherwise indicated on a plan or submittal that is listed on the conditional use permit shall be considered to be a condition of approval. Construction shall not deviate from the stated conditions without approval of the modification by the Planning Board.
- 5.7.3 Requirements: The Board shall adopt appropriate Subdivision and/or Site Plan Review Regulation to ensure the affordability of any senior housing developments created under these ordinances. Such regulations shall require that any development comply with standard definitions of affordability set forth by federal Housing and Urban Development or New Hampshire Housing Finance Authority regulations/guidelines for affordable housing in NH. Such housing may be publicly or privately financed. Additionally, Any elderly housing developed under this section must be established and maintained in compliance with the Fair Housing Act, as amended, 42 U.S.C. Sec. 3601 et seq. and NH Human Rights Commission Regulations Hum 302.02 62 or Over Housing, 302.03 55 or Over Housing as may be amended.
- 5.7.4 Density: No minimum lot size shall be required per individual unit.
- For any Affordable Senior Housing development that is served by on-site subsurface disposal systems, the number of senior housing units per acre shall be based on the number of bedrooms allowed under NH Department of Environmental Services Septic System Design Rules as shall be applicable on the date of subdivision or site plan application to the Planning Board, divided by the number of bedrooms per unit.
 - For any Affordable Senior Housing development that is served by public sewer and public water the number of elderly housing units shall be a maximum of 8 per acre.
 - Residential units shall be limited to no more than 2 bedrooms per unit.
 - The maximum number of units per building in an Affordable Senior Housing development shall be 6.
- 5.7.5 Setback to Wetlands: Within any Affordable Senior Housing development, the setback to wetlands shall be 50 feet.
- 5.7.6 Parking: Two (2) parking spaces per unit shall be provided on-site.
- 5.7.7 Setbacks: To interior subdivision lot lines for structures shall be 30 feet.
- 5.7.8 Setbacks: Between on-site structures shall be 25 feet.
- 5.7.9 Accessory Uses: Accessory Uses shall be allowed within limits, to provide services and support for the population of the development. Such uses shall not impact the abutting properties and shall be constructed in a fashion as to blend in with the senior housing development.

- 5.7.10 Regulations: The Planning Board as part of any subdivision and/or site plan review may modify setbacks to lot lines, interior on-site structures, and parking requirements upon appropriate findings by the Board.
- 5.7.11 Affordability Continuation Provisions: Every development seeking approval under this section shall provide the planning board with easements, covenants, or deed restrictions, which shall provide for the perpetual continuation of the affordability of all units. Said easements, covenants, or deed restrictions shall be reviewed by qualified legal counsel on behalf of the town (at the developer's expense) and approved by the planning board prior to the issuance of any permit.

5.8 MULTI-FAMILY, WORKFORCE HOUSING, AND ELDERLY AFFORDABLE HOUSING (REV. 3/10, 3/13)

5.8.1 Purpose:

The purpose of this section is to provide reasonable and realistic opportunities for the development of multi-family and workforce housing within Stratham. It is intended to promote the continued availability of a diverse supply of home ownership and rental opportunities. This Section was established in order to meet the goals related to workforce housing provisions set forth in the Stratham Master Plan and to meet the State of New Hampshire requirement that all communities provide realistic opportunities for the development of needed workforce housing. At the same time, the Town enacts this Section to assure that any such housing meets reasonable standards and conditions for approval related to environmental protection, water supply, sanitary disposal, traffic safety, and fire and life safety protection.

5.8.2 Authority:

This Section is created in accordance with the provisions of RSA 674:58-674:61. In addition, this innovative land use Ordinance is adopted under the authority of NH RSA 674:21 and is intended as an "Inclusionary Zoning" provision, as defined in NH RSA 674:21 (I)(k) and 674:21 (IV)(a).

5.8.3 Definitions:

- a. "Affordable": Housing with combined rental and utility costs or combined mortgage loan debt services, property taxes, and required insurance that do not exceed thirty (30%) percent of a household's gross annual income.
- b. "Multi-Family Housing": Any structure containing three (3) or more residential units, each designed for occupancy by an individual household;
- c. "Workforce Multi-Family Housing": For the purpose of workforce housing developments, means a building or structure containing five (5) or more dwelling units, each designed for occupancy by an individual household.
- d. "Elderly Affordable Housing":
 - i. Housing which is intended for sale and which is affordable to households whose head or spouse or sole member is 62 years or older with an income no more than ninety (90%) percent of the median income, applicable to Stratham, as published

annually by the United States Department of Housing and Urban Development (HUD).

- ii. Rental Housing which is affordable to households whose head or spouse or sole member is 62 or older with an income no more than fifty (50%) percent of the median income, applicable to Stratham, as published annually by the HUD.
- e. “Workforce Housing”: Workforce housing developments may consist of:
 - i. Housing which is intended for sale and which is affordable to a household with an income of no more than one hundred (100%) percent of the median income for a 4-person household for counties and metropolitan areas of the State of New Hampshire, applicable to Stratham, as published annually by the HUD.
 - ii. Rental housing which is affordable to a household with an income of no more than sixty (60%) percent of the median income for a 3-person household for counties and metropolitan areas of the State of New Hampshire, applicable to Stratham, as published annually by the HUD. Housing developments that exclude minor children from more than twenty (20%) percent of the units, or in which more than fifty (50%) percent of the dwelling units have fewer than two (2) bedrooms, shall not constitute workforce housing for the purposes of this section.
- f. The terms “workforce housing” and “affordable housing” are used interchangeably throughout this Ordinance.

5.8.4 Applicability: (Rev. 3/12, Rev. 3/13)

Developments under this Section shall be permitted within the Residential/Agricultural (refer to Section 8. Residential Open Space Cluster Development), Professional Residential, Town Center, Commercial/Light Industrial/Office, Special Commercial District, and the Gateway Commercial Business District zoning districts by Conditional Use Permit issued by the Planning Board.

The Planning Board may grant a Conditional Use Permit for an accessory development of multi-family housing to any approved site plan for an office or commercial development and shall adhere to all provisions of the Stratham Zoning Ordinance unless preempted by the provisions within this Section.

5.8.5 Procedural Requirements:

Any applicant who applies to the Planning Board for approval of a development that is intended to qualify as a workforce housing under this section shall follow the Town’s application procedures for a site plan and/or subdivision approval as defined in the Town’s Site Plan and/or Subdivision Regulations. The applicant shall also provide with the initial application(s), a statement of intent for the development to qualify as workforce housing per R.S.A. 674:60. Failure to file such a statement of intent at the time of submission of the initial application to the Planning Board shall constitute a waiver of the applicant’s appeal rights under N.H. R.S.A. 674:61, but shall not preclude an appeal under other applicable laws.

5.8.6 Development Standards:

Unless otherwise stated herein, housing developments pursuant to Section 5.8 shall meet the requirements of the Town of Stratham Zoning Ordinance, Subdivision Regulations,

and Site Plan Regulations, as applicable.

a. Density:

- i. The maximum allowed density shall not exceed that which may be allowed under NH Department of Environmental Services Septic System Design Rules and shall be applicable on the date of site plan and/or subdivision application to the Planning Board and as may be determined under Section XX (Sanitary Protection & Septic Ordinance) of these regulations;
- ii. In a mixed income development where there are both market-rate and workforce and/or elderly affordable housing units, a minimum of 25% of the dwellings must qualify as workforce housing and/or elderly affordable housing. The housing units should be interspersed throughout the overall development;
- iii. The maximum number of units per building in a housing development pursuant to this section shall be eight (8) units.
- iv. Density Bonus:
 1. A site plan or subdivision plan which guarantees thirty percent (30%) of units proposed with the development (including all units allowed by density bonuses) reserved as workforce housing, may be approved with an increase of fifteen percent (15%) in the density of the site. The Planning Board may allow a reduction of the minimum lot size of the district to accommodate the increased site density.
 2. A site plan or subdivision which guarantees thirty percent (30%) of units proposed with the development reserved as workforce serviced by municipal sewer and water can accumulate a maximum bonus equal to twenty percent (20%).

b. Dwelling Units:

- i. Single-family, duplexes, and multi-family can qualify as workforce and/or elderly affordable housing;
- ii. Dwelling units qualifying as workforce housing and elderly affordable housing shall be compatible in architectural style and exterior appearance with the market rate dwellings of similar type in the proposed development and shall not impact the abutting properties. Said housing units should be interspersed throughout the overall development. The structures must also include energy efficient construction that will ensure affordable annual operation long-term;
- iii. Housing shall be so designed as to provide minimal impact to a site, complement and/or be accessory to any other existing or proposed uses on the site;
- iv. Any housing shall be sufficiently screened and buffered in such a way as to mitigate any impact on abutting single-family residential uses;
- v. Housing may be developed on the same lot as an approved commercial or office use as a stand-alone structure or structures;
- vi. Housing developed as upper story units over an allowed commercial or office use is encouraged;

- vii. The total square footage of the residential units shall not exceed 75% of the total square footage of the existing or proposed commercial or office use;
 - viii. In a mixed income development where there are both market-rate and workforce housing units, the dwellings qualifying as Workforce Housing shall be made available for occupancy on approximately the same schedule as a project's market-rate units. A schedule setting forth the phasing of the total number of units shall be established prior to final approval by the Planning Board. Said schedule shall be filed at the Registry of Deeds, and be properly updated with the Town and Registry as a condition of release of building permits.
- c. Frontage, Setbacks, and Yard Regulations:
- Structures may be located in any manner on the site that meet this Ordinance's requirements and objectives, and provided that the following dimensional standards are met:
- i. Proposed dwelling units that have their frontage on existing public roads shall have frontages and front yard setbacks as required in the underlying zoning district or applicable overlay district.
 - ii. Proposed dwelling units shall have the required building setbacks for the underlying zoning district or applicable overlay district along the abutting property lines.

5.8.7 Administration of Units – Sales or Rentals:

- a. In the event of a unit sale or transfer of an owner-occupied unit, the buyer will be certified for income eligibility under this section by an agency with expertise acceptable to the Town, prior to the sale or transfer. A copy of said certification will be provided to the seller.
- b. In the event of a rental or renewal of an affordable rental unit, the renter will be certified for income eligibility under this section by an agency with expertise acceptable to the Town, prior to the rental or renewal. A copy of said certification shall be provided to the landlord. Rental units cannot be sub-let to a third party by the current renter of record.
- c. In the event rental units are sold, the requirements set forth in Section 5.8.8(a), pertaining to deed restrictions and recorded housing agreements, will apply.
- d. A certification fee will be charged for each sale, transfer, or rental term for a unit. The fee will be paid by the purchaser or renter of the unit, as designated by the Town.
- e. A third party non-profit or for-profit organization or property management entity shall be responsible for income verification and ongoing affordability compliance. The designated organization or company shall provide appropriate reports to the Planning Board on these two issues when necessary. The Planning Board may adopt regulations to aid in the implementation and administration of Section 5.8 pertaining to workforce housing developments.

5.8.8 Affordability:

- a. Units will be sold with deed restrictions and a recorded housing agreement, in a form satisfactory to the Planning Board, that limits, for a period of thirty (30) years renewable upon sale or transfer, the resale value of the unit to not more than the purchase price multiplied by a factor of 1, plus the percentage increase in median income from the year of initial occupancy until the year in which the unit is resold, plus the cost of property improvements, other than normal maintenance, made by the owner.
- b. Units will be rented with deed restrictions and a recorded housing agreement, in a form satisfactory to the Planning Board, that limits, for a period of thirty (30) years, renewable upon each rental, the rental price for each unit to an affordable price as determined by the formula set forth above in Section 5.8.3(d)(ii) updated to the year in which the subsequent tenant assumes occupancy, unless no such tenant is found after a sixty (60) day good faith effort. Total gross rent to be charged to subsequent tenants shall not exceed the gross rent at the time of initial occupancy times a factor equal to 1 plus the percentage increase in the median area income, updated to the year in which the subsequent tenant occupies the unit.

5.8.9 Annual Report:

A third party non-profit or for-profit organization or property management entity shall prepare an annual report certifying that the gross rents of affordable units and the household incomes of tenants of affordable units have been maintained in accordance with the income restrictions set forth in this Section. Such reports shall be submitted to the Planning Board or its designee, and shall list the contract rent and occupant household incomes of all affordable units for the calendar year and the dates of initial occupancy for each household. Failure to file a complete report with sworn certification by the owner shall be considered a violation of the Stratham Zoning Ordinance.

5.9 PRELIMINARY SUBDIVISION REVIEW (3/05)

The Planning Board is authorized to require preliminary subdivision review. The subdivision review regulations regarding subdivision design review and the requirements of such review are to be prepared and adopted by the Planning Board.”

5.10 PRELIMINARY SITE PLAN REVIEW (3/06)

The Planning Board is authorized to require preliminary site plan review. The Site Plan Review regulations regarding site plan design review and the requirements of such review are to be prepared and adopted by the Planning Board.

5.11 DAY-CARE FACILITIES (3/07)

Day-care facilities shall be allowed within all zones by Special Exception except within the CLIO zone where they shall be allowed by Conditional Use Permit.

Within any zone a Day-Care facility shall comply with all state regulations and unless otherwise noted the general requirements of Section 17.8.2 (Special Exceptions).

Where a Day-Care facility is located in any residential zone, any Special Exception granted by the ZBA shall comply with the additional requirements of this subsection.

State septic requirements and other state licensing requirements may provide additional limitations on staffing and care maximums beyond what the Town of Stratham may require in this subsection.

For Childcare facilities the provisions and definitions provided for in NH RSA 170-E shall be followed in addition to the requirements provided for in this section.

- 5.11.1 Family Childcare (Home Occupation): the care of no more than 3 non-family members within the home and meets all the requirements of a home occupation as defined in Section 2.1.27 (Home Occupation). No additional requirements shall be needed for a Special Exception.
- 5.11.2 Family Childcare Home: a state licensed day-care program operated in a home in which the provider resides.
- a. Care provided for a maximum of 6 preschool children plus up to 3 children who are enrolled in a full-day school program (*The 6 children shall include any foster children residing in the home and all children related to the caregiver except children who are 10 years of age or older*).
 - b. Minimum 2 acre lot.
 - c. No more than 3 non-family members may be employed within the home.
 - d. All staff parking and play areas shall be buffered from abutting residential properties in the side and rear by a fence or dense evergreen growth.
- 5.11.3 Family Group Childcare Home: a state licensed day-care program operated in a home in which the provider resides.
- a. Care provided for 7 to 12 preschool children plus up to 5 children enrolled in a full-day school program (*The 7 to 12 children shall include any foster children residing in the home and all children related to the caregiver except children who are 10 years of age or older*).
 - b. Minimum 2 acre lot.
 - c. Drop-off and pick-up areas shall be internal to the site, no stopping, standing, stacking or parking of vehicles off-site shall be allowed.
 - d. All staff parking and play areas shall be buffered from abutting residential properties in the side and rear by a fence or dense evergreen growth.
 - e. The Planning Board through the Site Plan Review process may require additional setbacks and buffering to reduce any impacts on abutting residential properties.
- 5.11.4 Group Childcare Center: a state licensed center-based day-care program that is not necessarily located with a residential activity.
- a. The maximum number of individuals cared for shall be limited by State licensing requirements.

- b. Within the R/A, MAH, PRE and TC zones the minimum lot size shall be 3 acres and the maximum number of children allowed shall not exceed 80, within all other zones only state licensing requirements and limits shall apply.
- c. Drop-off and pick-up areas shall be internal to the site, no stopping, standing, stacking or parking of vehicles off-site shall be allowed.
- d. All structures shall be setback from any lot line at least 75'.
- e. All staff parking and play areas shall be buffered from abutting residential properties in the side and rear by a fence or dense evergreen growth.
- f. The Planning Board through the Site Plan Review process may require additional setbacks and buffering to reduce any impacts on abutting residential properties.

5.12 SMALL WIND ENERGY SYSTEMS

5.12.1 Purpose:

This small wind energy systems ordinance is enacted in accordance with RSA 674:62-66, and the purposes outlined in RSA 672:1-III-a. The purpose of this ordinance is to accommodate small wind energy systems in appropriate locations, while protecting the public's health, safety and welfare. In addition, this ordinance provides a permitting process for small wind energy systems to ensure compliance with the provisions of the requirements and standards established herein.

5.12.2 Definitions:

- a. Meteorological tower (met tower): Includes the tower, base plate, anchors, guy wires and hardware, anemometers (wind speed indicators), wind direction vanes, booms to hold equipment for anemometers and vanes, data loggers, instrument wiring, and any telemetry devices that are used to monitor or transmit wind speed and wind flow characteristics over a period of time for either instantaneous wind information or to characterize the wind resource at a given location. For the purpose of this ordinance, met towers shall refer only to those whose purpose are to analyze the environmental factors needed to assess the potential to install, construct or erect a small wind energy system.
- b. Modification: Any change to the small wind energy system that materially alters the size, type or location of the small wind energy system. Like-kind replacements shall not be construed to be a modification.
- c. Net metering. The difference between the electricity supplied to a customer over the electric distribution system and the electricity generated by the customer's small wind energy system that is fed back into the electric distribution system over a billing period.
- d. Power grid. The transmission system, managed by ISO New England, created to balance the supply and demand of electricity for consumers in New England.
- e. Shadow flicker. The visible flicker effect when rotating blades of the wind generator cast shadows on the ground and nearby structures causing a repeating pattern of light and shadow.

- f. Small wind energy system: A wind energy conversion system consisting of a wind generator, a tower, and associated control or conversion electronics, which has a rated capacity of 100 kilowatts or less and will be used primarily for onsite consumption.
- g. System height: The vertical distance from ground level to the tip of the wind generator blade when it is at its highest point.
- h. Tower: The monopole, guyed monopole or lattice structure that supports a wind generator.
- i. Tower height: The height above grade of the fixed portion of the tower, excluding the wind generator.
- j. Wind generator: The blades and associated mechanical and electrical conversion components mounted on top of the tower whose purpose is to convert kinetic energy of the wind into rotational energy used to generate electricity.

5.12.3 Procedure for Review:

- a. Building Permit: Small wind energy systems and met towers are an accessory use permitted in all zoning districts where structures of any sort are allowed. No small wind energy system shall be erected, constructed, or installed without first receiving a building permit from the building inspector. A building permit shall be required for any physical modification to an existing small wind energy system. Met towers that receive a building permit shall be permitted on a temporary basis not to exceed 3 years from the date the building permit was issued.
- b. Application: Applications submitted to the building inspector shall contain a site plan with the following information:
 - i. Property lines and physical dimensions of the applicant's property.
 - ii. Location, dimensions, and types of existing major structures on the property.
 - iii. Location of the proposed small wind energy system, foundations, guy anchors and associated equipment.
 - iv. Tower foundation blueprints or drawings.
 - v. Tower blueprints or drawings.
 - vi. Setback requirements as outlined in this ordinance.
 - vii. The right-of-way of any public road that is contiguous with the property.
 - viii. Any overhead utility lines.
 - ix. Small wind energy system specifications, including manufacturer, model, rotor diameter, tower height, tower type, nameplate generation capacity.
 - x. Small wind energy systems that will be connected to the power grid shall include a copy of the application for interconnection with their electric utility provider.
 - xi. Sound level analysis prepared by the wind generator manufacturer or qualified engineer.

- xii. Electrical components in sufficient detail to allow for a determination that the manner of installation conforms to the NH State Building Code.
 - xiii. Evidence of compliance or non-applicability with Federal Aviation Administration requirements.
 - xiv. List of abutters to the applicant's property.
- c. Abutter and Regional Notification: In accordance with RSA 674:66, the building inspector shall notify all abutters and the local governing body by certified mail upon application for a building permit to construct a small wind energy system. The public will be afforded 30 days to submit comments to the building inspector prior to the issuance of the building permit. The building inspector shall review the application for regional impacts per RSA 36:55. If the proposal is determined to have potential regional impacts, the building inspector shall follow the procedures set forth in RSA 36:57, IV.

5.12.4 Standards:

- a. The building inspector shall evaluate the application for compliance with the following standards;
 - i. Setbacks: The setback shall be calculated by multiplying the minimum setback requirement number by the system height and measured from the center of the tower base to property line, public roads, or nearest point on the foundation of an occupied building.

Minimum Setback Requirements			
Occupied Buildings on Participating Landowner Property	Occupied Buildings on Abutting Property	Property Lines of Abutting Property and Utility Lines	Public Roads
0	1.5	1.1	1.5

- 1. Small wind energy systems must meet all setbacks for principal structures for the zoning district in which the system is located.
 - 2. Guy wires used to support the tower are exempt from the small wind energy system setback requirements.
- ii. Tower: The maximum tower height shall be restricted to 35 feet above the tree canopy within 300 feet of the small wind energy system. In no situation shall the tower height exceed 150 feet.
 - iii. Sound Level: The small wind energy system shall not exceed 60 decibels using the A scale (dBA), as measured at the site property line, except during short-term events such as severe wind storms and utility outages.
 - iv. Shadow Flicker: Small wind energy systems shall be sited in a manner that does not result in significant shadow flicker impacts. Significant shadow flicker is defined as more than 30 hours per year on abutting occupied buildings. The

applicant has the burden of proving that the shadow flicker will not have significant adverse impact on neighboring or adjacent uses. Potential shadow flicker will be addressed either through siting or mitigation measures.

- v. Signs: All signs including flags streamers and decorative items, both temporary and permanent, are prohibited on the small wind energy system, except for manufacturer identification or appropriate warning signs.
- vi. Code Compliance: The small wind energy system shall comply with all applicable sections of the New Hampshire State Building Code.
- vii. Aviation: The small wind energy system shall be built to comply with all applicable Federal Aviation Administration regulations including but not limited to 14 C.F.R. part 77, subpart B regarding installations close to airports, and the New Hampshire Aviation regulations, including but not limited to RSA 422-b and RSA 424.
- viii. Visual Impacts: It is inherent that small wind energy systems may pose some visual impacts due to the tower height needed to access wind resources. The purpose of this section is to reduce the visual impacts, without restricting the owner's access to the optimal wind resources on the property.
 - 1. The applicant shall demonstrate through project site planning and proposed mitigation that the small wind energy system's visual impacts will be minimized for surrounding neighbors and the community. This may include, but not be limited to information regarding site selection, wind generator design or appearance, buffering, and screening of ground mounted electrical and control equipment. All electrical conduits shall be underground, except when the financial costs are prohibitive.
 - 2. The color of the small wind energy system shall either be the stock color from the manufacturer or painted with a non-reflective, unobtrusive color that blends in with the surrounding environment. Approved colors include but are not limited to white, off-white or gray.
 - 3. A small wind energy system shall not be artificially lit unless such lighting is required by the Federal Aviation Administration (FAA). If lighting is required, the applicant shall provide a copy of the FAA determination to establish the required markings and/or lights for the small wind energy system.
- ix. Approved Wind Generators: The manufacturer and model of the wind generator to be used in the proposed small wind energy system must have been approved by the California Energy Commission or the New York State Energy Research and Development Authority, or a similar list approved by the state of New Hampshire, if available.
- x. Utility Connection: If the proposed small wind energy system is to be connected to the power grid through net metering, it shall adhere to RSA 362-A:9.
- xi. Access: The tower shall be designed and installed so as not to provide step bolts or a ladder readily accessible to the public for a minimum height of 8 feet above

the ground. All ground-mounted electrical and control equipment shall be labeled and secured to prevent unauthorized access.

- xii. Clearing: Clearing of natural vegetation shall be limited to that which is necessary for the construction, operation and maintenance of the small wind energy system and as otherwise prescribed by applicable laws, regulations, and ordinances.

5.12.5 Abandonment:

- a. At such time that a small wind energy system is scheduled to be abandoned or discontinued, the applicant will notify the building inspector by certified U.S. mail of the proposed date of abandonment or discontinuation of operations.
- b. Upon abandonment or discontinuation of use, the owner shall physically remove the small wind energy system within 90 days from the date of abandonment or discontinuation of use. This period may be extended at the request of the owner and at the discretion of the building inspector. "Physically remove" shall include, but not be limited to:
 - i. Removal of the wind generator and tower and related above-grade structures.
 - ii. Restoration of the location of the small wind energy system to its natural condition, except that any landscaping, grading or below-grade foundation may remain in its same condition at initiation of abandonment.
- c. In the event that an applicant fails to give such notice, the system shall be considered abandoned or discontinued if the system is out-of-service for a continuous 12-month period. After the 12 months of inoperability, the building inspector may issue a Notice of Abandonment to the owner of the small wind energy system. The owner shall have the right to respond to the Notice of Abandonment within 30 days from Notice receipt date. After review of the information provided by the owner, the building inspector shall determine if the small wind energy system has been abandoned. If it is determined that the small wind energy system has not been abandoned, the building inspector shall withdraw the Notice of Abandonment and notify the owner of the withdrawal.
- d. If the owner fails to respond to the Notice of Abandonment or if, after review by the building inspector, it is determined that the small wind energy system has been abandoned or discontinued, the owner of the small wind energy system shall remove the wind generator and tower at the owner's sole expense within 3 months of receipt of the Notice of Abandonment. If the owner fails to physically remove the small wind energy system after the Notice of Abandonment procedure, the building inspector may pursue legal action to have the small wind energy system removed at the owner's expense.

5.12.6 Violation:

It is unlawful for any person to construct, install, or operate a small wind energy system that is not in compliance with this ordinance. Small wind energy systems installed prior to the adoption of this ordinance are exempt from this ordinance except when modifications are proposed to the small wind energy system.

5.12.7 Penalties:

Any person who fails to comply with any provision of this ordinance or a building permit issued pursuant to this ordinance shall be subject to enforcement and penalties as allowed by NH Revised Statutes Annotated Chapter 676:17.

5.13 HOME OCCUPATION (AMENDED 3/10)

5.13.1 Business uses clearly secondary to the home/residence may be permitted, by special exception from the Zoning Board of Adjustment in accordance with Section 3.6, in the Residential/Agricultural Zone, Manufactured Housing/Mobile Home Zone, and Professional/Residential Zone to allow a place of work.

5.13.2 Conditions:

A special exception for a home occupation shall be allowed subject to Section 17.8.2 and the following conditions and standards set forth below:

- a. The home occupation shall utilize an area less than twenty five percent (25%) of the total floor area of finished floor space of the dwelling including the basement and does not change the residential character of the premises thereof.
- b. The home occupation and the conduct thereof shall not impair the residential character of the premises and/or reasonable use, enjoyment and value of other residential property in the neighborhood. Further, such business shall not be injurious, noxious, or offensive to the neighborhood by reason of emission of odor, fumes, dust, smoke, vibration, and noise.
- c. Home occupation shall be allowed only for a single-family residence and shall be carried on strictly by the owner of the principal building, who shall reside in said building or tenant (with owner's written permission) residing in the principal building. The residential use is established prior to the business use.
- d. The granting of a special exception use shall be deemed to authorize the identified or particular use. The special exception shall expire if the authorized use ceases for more than twelve (12) months for any reason. The approval of a new application shall be required for reinstatement of the special exception use.
- e. There shall be no more than two (2) persons outside the immediate family employed or otherwise engaged in the conduct of the business therein;
- f. Storage in an accessory building or exterior storage may be permitted as a condition of the special exception granted by the Zoning Board of Adjustment. Exterior storage must be screened from neighboring views by either a solid fence, evergreens of an adequate height and bulk at the time of planting or by an existing combination of natural foliage and longer distances, to be determined sufficient by the Code Enforcement Officer.
- g. Accessory finished goods may be provided for sale in conjunction with the home occupation, sold and stored in allowed home occupation space only.

- h. The home occupation shall not be such that it requires regular or frequent service by heavy commercial trucks greater than 26,000-pound gross vehicle weight since this would adversely impact the character of the neighborhood.
- i. Sufficient off-street parking for the employee and clients is to be provided. Any required deliveries can only be made by vehicles consistent with normal residential activities between the hours of 7:00 a.m. and 7:00 p.m. The outside parking of not more than two business vehicles on the lot are permitted in all residential zoned districts provided the vehicles:
 - 1. Do not exceed 26,000 pounds gross vehicle weight.
 - 2. Are used as a means of transportation to and from the resident's place of business and location of business activity.
 - 3. Are not loaded with flammable, noxious, or dangerous materials.
 - 4. Vehicle must be registered with the Town.
- j. The business shall not be contrary to any covenants of conditions contained on the deed to the property.
- k. Not more than one sign or other advertising device is to be displayed on the property and it shall not exceed a size of four (4) square feet. Signs will not be lighted from within or by exterior spot lighting.

5.13.3 Application for Special Exception & Home Occupation Permit; Inspections:

- a. Special exceptions granted under this section are intended to allow for a specific business use. To apply for a home occupation special exception, a completed application form must be submitted to the Building Department. The applicant is required to provide:
 - i. A brief narrative describing the nature of the home occupation and providing details of the business and its scope of operation.
 - ii. A sketch and/or drawing of the floor plan of the residence, clearly showing the dimensions of the living area and the area to be used for the business and a plot plan of the property showing provisions for off-street parking and proposed outside storage area.
 - iii. A copy of the deed must be submitted as part of the application to the Board when applying for the Special exception.
 - iv. An accurate list of abutters and mailing addresses on labels.
- b. Before special exception is granted, mandatory building inspections shall be made by the Code Enforcement Officer if the public is to be served at the proposed location or if hazardous materials are to be stored there. In addition, a formal site plan review by the Planning Board may be required if deemed necessary by the Zoning Board of Adjustment and/or Code Enforcement Officer.
- c. Upon the granting of the special exception, an application for a home occupation permit shall be made to the Building Department on a form provided by the Building Department. All home occupation permits shall be issued for a period of three (3)

years and may be renewed provided there is no violation of the provisions of Section 5.13. Requests for renewals shall be submitted to the Building Department accompanied by the renewal fee as approved by the Board of Selectmen.

- d. Periodic inspections of the home occupation premises may be required subsequent to the issuance of a home occupation permit in order to confirm compliance with the conditions of the original special exception granted. If, in the opinion of the Code Enforcement Officer and/or the Zoning Board of Adjustment, the conditions of the special exception have been violated, the Code Enforcement Officer may revoke the home occupation permit that was issued. Permit holders may make application to the Zoning Board of Adjustment for a new home occupation permit based on changed circumstances of the home occupation.

5.13.4. Exemptions from Special Exception Application Requirements:

- a. Home occupations in which neither customers nor vehicles come to the location where the business activity takes place and at which no sign is displayed and no outside person is to be employed and there is no outward appearance of business activity.
- b. Agricultural activity, including farming and forestry, in which products are grown on the premises and sold on or off the premises.

SECTION VI: PARKING REQUIREMENTS

The entire text of Section VI, Parking Requirements, was deleted at the March 10th, 2001 Town Meeting (Article 3; see Appendix A). Parking Requirements are addressed in the Town of Stratham Site Plan Regulations.

SECTION VII: SIGNS (Amended 03/07, 3/11, 3/13)**7.1 PURPOSE & INTENT**

The purpose of this Section is to establish uniform regulations for the installation and use of signs in the Town of Stratham and to protect and improve the livability and quality of life in Stratham through sign regulations that:

- a. Encourage the effective use of signs as a means of communication in Stratham;
- b. Protect the health, safety, and welfare of the public, with a specific focus on improving pedestrian and traffic safety;
- c. Maintain and enhance the appearance and aesthetic environment of Stratham;
- d. Maintain and promote the rural, agricultural, and historical character of Stratham;
- e. Control visual clutter and encourage high-quality professional standards in sign design and display.
- f. Promote signs that are harmonious in color, material and lighting with the buildings and surroundings to which they relate, while minimizing the adverse effects of signs on nearby public and private property; and
- g. Retain and enhance the Town's ability to attract and encourage economic development and growth.

7.2 DEFINITIONS

The following words and phrases shall have the meaning described herein for all purposes associated with the construction and interpretation of the Sign Ordinance.

- a. Flag: A piece of cloth or similar material, typically oblong or square, attachable by one edge to a pole or rope and used as the symbol or emblem of a country or institution; a decoration during public festivities; or displayed outside a business and solely containing one word such as “open”, “antiques”, “food”, or “restaurant”.
- b. Lineal Building Frontage: The length of a ground level straight line or lines parallel to and equaling the length of the building front that includes the main public entrance(s) or the side of the building fronting on the principal roadway. In the case of a multi-unit development the frontage of each separate building is additive for the purpose of determining permissible sign area.
- c. Sign: Any name, identification, description, display, illustration or device which is affixed to or represented directly or indirectly upon a building, structure or land in view of the general public, and which directs attention to a product, place, activity, person, institution or business. A sign shall include writing, representation, or other figure of similar character within a building only when illuminated and located in a window.
- d. Sign, Agricultural, Temporary / Seasonal: A temporary sign advertising or providing direction to a Farm Stand or farm/agricultural sales activity. The sign shall be

- seasonal or temporary in nature may be located off-site and within a public right-of-way. (Adopted 03/07)
- e. Sign, Attached: A sign, which is attached to a building wall and which extends eighteen (18) inches or less from the face of such wall.
 - f. Sign, Awning: A sign painted on or attached flat or flush against the surface of the awning, but not extending above, below or beyond the awning or attached to the underside. The copy area on awnings is computed as all or a portion of the allowed wall sign area. (Adopted 03/11)
 - g. Sign, Banner: A temporary sign of lightweight material (paper, plastic or fabric) hung either with or without frame(s). Flags and insignias containing markings of any government, corporation or business are not considered banners, and are defined as Flags. (Adopted 03/11)
 - h. Sign, Canopy or Marquee: Any sign attached to or part of a canopy or marquee. The copy area on such signs is computed as all or a portion of the allowed wall sign area. (Adopted 03/11)
 - i. Sign, Contractor's / Development Sign: A temporary sign advertising the contractor or development firm actively engaged in developing the site or parcel on which the sign is located. (Rev. 3/07)
 - j. Sign, Directional: Signage necessary for on-site public safety and convenience. (Adopted 03/11)
 - k. Sign, Directory: Signs which are necessary to identify and locate occupants of a building, including office buildings, residences, and church directories. (Adopted 03/11)
 - l. Sign, Event Specific: A temporary sign used to announce an event such as a festival, dance, business opening, sale, meeting, fund raiser, parade or other event..
 - m. Sign, Flashing: Any sign or signal light with continuously variable illumination, whether achieved electrically or mechanically.
 - n. Sign, Freestanding / Monument: A sign established on a freestanding frame, mast or pole and not attached to any building. Where such signs are established back to back, the larger face shall be used for the calculation of allowable area. Also known as detached sign, freestanding sign, pole sign, ground sign or pylon sign. (Adopted 03/11)
 - o. Sign, Height: The vertical distance measured from the adjacent undisturbed grade of the sign to the highest point of the sign. (Adopted 03/11)
 - p. Sign, Historic Marker: A marker that identifies an historic place, person event or date and is erected by a historical organization or by a government agency. (Adopted 03/11)
 - q. Sign, Illuminated: Any sign which emanates light either by means of exposed tubing, electrical bulbs, fluorescent lights, neon tubes or lamps on its surface, or by means of illumination transmitted through the sign face(s). Any decorative lighting that is used

- expressly for the purpose of advertisement shall be construed as a sign. (Adopted 03/11)
- r. Sign, Landmark: An older sign of artistic or historic merit, uniqueness, or extraordinary significance, as identified by the local historical organization. The character of landmark signs warrants their preservation in original condition, or their restoration. (Adopted 03/11)
 - s. Sign, Nonconforming: Any sign which was lawfully established prior to the date this Ordinance was adopted, and which fails to conform to the specifications of this Ordinance. (Adopted 03/11)
 - t. Sign, Parking: Signs that identify available spaces or areas for parking of vehicles. Parking signs are deemed “Directional Signs” for the purposes of this Ordinance. (Adopted 03/11)
 - u. Sign, Permanent: A permanent sign is any sign established for a period of greater than six (6) months. (Adopted 03/11)
 - v. Sign, Political: Signs that advertise a candidate, party, position or other political issue. The provisions of RSA Chapter 664 and any other applicable state laws relative to political advertising are incorporated herein by reference.
 - w. Sign, Portable: Any sign not permanently attached to the ground or a building. Also see “Contractor’s/Development Sign,” “Temporary Sign.” (Adopted 03/11)
 - x. Sign, Projecting: A sign attached to a building or other structure and extending in whole or in part more than fourteen (14) inches beyond the building. (Adopted 03/11)
 - y. Sign, Real Estate: A temporary non-electrical ground or wall sign that either:
 - i. Advertises the on-site sale, rental or lease of the premises or a portion thereof; or
 - ii. The off-site advertising (including balloons) of an open house. (Adopted 03/11)
 - z. Sign, Snipe: An informal off-premises sign which is tacked or otherwise attached to a tree, pole, stake, fence, other sign structure, or other structure advertising an organization or activity or displaying a message which is not applicable to the present use of the site upon which the snipe sign is attached. (Adopted 03/07)
 - aa. Sign Structure: Any framework, either freestanding or an integral part of the building, which supports or is capable of supporting any sign, including decorative cover. (Adopted 03/11)
 - bb. Sign, Temporary: Any sign established for any period of less than six (6) months. (Adopted 03/11)
 - cc. Sign, Utility: These signs are noncommercial in nature and identify the location of gas lines, water lines or phone cables, often warning of the potential hazard of digging or excavation in the immediate area.
 - dd. Sign, Vehicle: A sign mounted onto, or otherwise affixed to (a) the body or window of a motor vehicle, or (b) any other device designed for transport on any public roads. (Adopted 03/07)

- ee. Sign, Wall/Building: Any sign attached parallel to the building wall or other surface to which it is mounted that does not extend more than fourteen (14) inches from said surface and has only one (1) sign face that is intended to be read parallel to the wall or other surface to which it is mounted. This sign also includes any sign established on any other part of a building provided that the sign is on a plane parallel to the wall of the building. Wall/Building signs may not project above the top of a parapet, wall or the roof line at the wall, whichever is highest. A wall/building sign is also a sign established on a false wall or false roof that does not vary more than thirty (30) degrees from the plane of the building's parallel wall. (Adopted 03/11)
- ff. Sign, Window: A sign that is applied to or attached to the exterior or interior of a window or located in such a manner within a building that is visible from the exterior of the building through a window, but excludes merchandise in a window display. (Adopted 03/11)

7.3 **ADMINISTRATION**

- a. The Administrator of this sign Ordinance shall be the Code Enforcement Officer. The Code Enforcement Officer shall have the responsibility and authority to administer and enforce all provisions of this Ordinance, other than those provisions with powers specifically reserved to the Board of Selectmen, Planning Board, Gateway Technical Review Committee, or the Zoning Board of Adjustment.
- b. All signs shall be reviewed for compliance with the applicable state and federal building codes.
- c. Relief – Any relief sought from this sign ordinance, having been denied by the Code Enforcement Officer, may be brought before the Zoning Board of Adjustment.

7.4 **PERMIT PROCEDURES**

No sign, except as provided by Section 7.5 and Section 7.6 shall be erected, displayed, altered, relocated, or replaced until the Code Enforcement Officer issues a sign permit.

- a. **Permit Application**: The Code Enforcement Officer may adopt from time to time such application procedures as the Code Enforcement Officer may find efficient, provided that the procedures are consistent with the Sign Ordinance and other applicable law. Applications for sign permits shall be submitted on forms provided by the Town, completed as required; at a minimum, they shall have attached the following information, in either written or graphic form.
 - i. A completed sign permit application form.
 - ii. A certification from a registered engineer and/or licensed architect licensed to practice in New Hampshire upon request by the Code Enforcement Officer.
 - iii. A non-refundable application review fee in an amount to be set by the Board of Selectmen.
 - iv. An illustration of the proposed sign(s), drawn to scale, that includes the following information:

1. The total area of the proposed sign(s) in square feet.
2. The proposed support structure for the proposed sign(s).
3. The proposed sign structure height.
4. The setback(s) of the proposed sign(s).
5. The location(s) of the proposed sign(s).
6. The relationship of the proposed sign(s) to the property on which the proposed sign(s) is to be located and/or the buildings thereon.
7. A photograph of existing signage, including dimensions drawn onto the photograph; provided, however, for multi-unit properties, condominiums and the like, the applicant need only submit a photograph detailing existing signage for the Applicant's particular unit.
8. The material from which the proposed sign(s) is to be constructed.
9. Design information such as illumination, function, and other essential characteristics of the proposed sign(s).

b. Permit Review and Action:

- i. Completeness Review: The Code Enforcement Officer shall determine whether the sign permit application is complete within ten (10) calendar days after the application is filed.
- ii. All new signage, related to any new development, which may require Site Plan Review and/or Conditional Use Permit and not exempted in Section 7.5 shall receive Planning Board approval prior to the issuance of any permit.
- iii. Decision:
 1. The Code Enforcement Officer shall either approve or deny the sign permit application within the time periods specified below after the Code Enforcement Officer determines that the application is complete. Applications found to be incomplete shall be denied.
 2. Upon a finding by the Code Enforcement Officer that the sign permit application complies with the provisions of this Ordinance, the Code Enforcement Officer shall cause to be issued a sign permit for installation by the applicant. The sign permit shall be issued within ten (10) calendar days of the date on which the application was deemed complete.
 3. If the sign permit application is denied, the applicant shall be notified within ten (10) calendar days of the date on which the application was deemed complete. The notice of denial shall specifically explain any deficiencies in writing in the application and how the applicant may proceed under this Section.
 4. The Code Enforcement Officer shall not consider any sign permit application until the Code Enforcement Officer has determined that the application is complete.

5. No sign permit shall be issued in any case of an incomplete sign permit application.
6. No sign permit may be issued until all fees have been paid and other requirements of the Sign Ordinance have been satisfied.
- iv. Approval Criteria: The Code Enforcement Officer shall issue the requested sign permit if the sign permit application complies with this Ordinance. Otherwise, the Code Enforcement Officer shall deny the sign permit application.
- v. Photograph. When the sign has been completed, the Applicant shall photograph the completed sign and forward the photograph to the Code Enforcement Officer. The Code Enforcement Officer shall then inspect the sign.
- vi. Inspection for Compliance. The Code Enforcement Officer, or a designee, shall perform a final inspection after installation of any approved sign.
- vii. Discrepancies. Any discrepancies between any sign as approved and the sign as constructed shall be identified in writing by the Code Enforcement Officer and may result in the halt of construction and correction of the discrepancy.

7.5 EXEMPT SIGNS

The following signs are exempt from the permit requirements of this Article, but are otherwise subject to the standards contained herein. Any failure to comply with these standards and any other provisions of this Article shall be considered a violation of the Zoning Ordinance.

- a. Nameplate signs giving property identification names or numbers, or names of occupants.
- b. Signs on mailboxes or newspaper tubes.
- c. Signs posted on private property warning the public against trespassing, danger from animals, or restricting specific recreational activities which signs shall each be no greater than two (2) square feet in area.
- d. Signs erected by or on behalf of or pursuant to the authorization of a governmental body, including legal notices, identification and informational signs, and traffic, directional, or regulatory signs.
- e. Signs required by Town Ordinance.
- f. Historic marker signs, provided that said signs are no more than two (2) square feet.
- g. Utility Signs.
- h. Flags of any governmental organization when not displayed in connection with a commercial promotion or as an advertising device. No flag shall be flown from a pole that is more than fifty (50) feet in height.
- i. Directional Signs that do not exceed four (4) square feet each and that bear no advertising matter.

- j. Real Estate Signs if limited to one (1) per property and four (4) square feet in area in residential zones and thirty-two (32) square feet in all other zones. These signs shall be removed within thirty (30) days of settlement or lease of the property.
- k. Construction site identification signs / Permanent Subdivision Signs shall not exceed thirty-two (32) square feet in area, and shall not be illuminated.
- l. Signs erected in connection with elections or political campaigns shall comply with all provisions of NH RSA 664:14-21. No such sign may exceed the sign area permitted for other signs within the zoning district in which it is located.
- m. Signs indicating that a special event such as a grand opening, fair, carnival, circus, festival, or similar event is to take place on the lot where the sign is located. Such signs may be erected not sooner than fourteen (14) days before the event and must be removed not later than three (3) days after the event. Please see Section 7.10.b.vi. for number and area requirements.
- n. Directory Signs that do not exceed four (4) square feet in area; and,
- o. Landmark Signs or other signs that are located on, or are an integral part of, a property that has been placed on or determined eligible for the National Register of Historic Places, provided that such signs are recognized as contributing to the National Register status of the property.
- p. Flags, of no more than 15 square feet in size and solely containing one word such as “open”, “antiques”, “food”, or “restaurant”. To be exempt from the sign permit requirements, Properties are limited to one of these Flags unless the property is located on a corner and has two (2) sides on a public way in which case the property may use two of these (2) Flags, one on each side.
- q. Temporary/Seasonal Agricultural Signs are exempt from the sign permit requirements of this Article so long as there are no more than two (2) on-site signs, each does not exceed six (6) square feet, and is/are used for listing agricultural or horticultural products grown or produced by the resident seller, in season, for such operations as farm stands or Christmas tree sales.
- r. Signs no greater than two (2) square feet in area and containing messages such as Open, Closed, Vacancy, No Vacancy and credit card, telephone, restroom, gasoline prices, and other similar informational messages.
- s. Temporary Signs not covered in the foregoing categories, provided that such signs meet the following restrictions:
 - i. Not more than one (1) such sign may be located on any lot;
 - ii. No such sign may exceed six (6) square feet in surface area; and,
 - iii. The maximum sign height shall be six (6) feet above grade to the top of the sign and its supporting structure.
 - iv. Such a sign may not be displayed for longer than seven (7) consecutive days or no more than fourteen (14) days out of any one (1) year period.

- v. The Code Enforcement Officer is authorized to mark temporary signs in any reasonable way that does not interfere with the content of the temporary sign so as to ensure compliance with this Article.

7.6 PROHIBITED SIGNS

The following signs are prohibited:

- a. Any sign located within, on, or projecting over a property line which borders a public or private street, highway, alley, lane, parkway, avenue, road, sidewalk, or other right-of-way, except as provided in this Ordinance. The Code Enforcement Officer may cause to be removed any temporary or portable sign erected or displayed upon, or projecting into public property.
- b. Any flashing sign or other sign or lighting device, whether freestanding, on the exterior of the building, or on the inside of a window which is visible beyond the boundaries of the lot or parcel, or from any public right-of-way, with intermittent, animated, flashing, rotating, scintillating, blinking, or strobe light illumination, including a variable electronic message device, or the regulations applicable to a particular sign structure.
- c. Any sign which emits audible sound, odor, smoke, steam, laser or hologram lights, or other visible matter, including any sign that employs any stereopticon or motion picture projection.
- d. Signs, which by reason of location, size, color, or design interfere with public traffic or can be confused with or obstruct the view or effectiveness of any official traffic signal or traffic marking.
- e. Any sign with unshielded incandescent, metal halide, or fluorescent light bulbs.
- f. Any off-premises sign or signs which are located off of the property that they are advertising, except as provided for herein.
- g. Signs located on the roof of any structure.
- h. Any rotating sign.
- i. Any banners, pennants or temporary signs, except as provided for herein.
- j. Any sign attached to any public utility pole or structure, streetlight, tree, fence, fire hydrant, bridge, curb, sidewalk, park bench, or other location on public property, also known as “snipe signs,” except as provided herein.
- k. Strings of light bulbs whether in conjunction with a sign or not except as conventionally used as part of a holiday celebration.
- l. Any sign which causes glare onto a public road or any neighboring property.
- m. Any inflatable sign and other similar permanent objects.
- n. Any sign including a mirror device.

- o. Internally illuminated signs may be permitted only in the Gateway Commercial Business District, Commercial/Light Industry/Office, and Industrial Zoning districts (Rev. 3/96; Rev. 3/98, Rev. 3/11)
- p. Any sign which is placed so as to prevent or inhibit free ingress to or egress from any door, window, or exit way required by the Building Code or the Fire Code; and,
- q. Any sign mounted, attached or painted on a trailer, boat, or motor vehicle when parked, stored, or displayed conspicuously on the public right-of-way or private premises in a manner intended to attract attention of the public for business advertising purposes are considered portable signs within the context of this Ordinance and are prohibited. This provision expressly excludes business signs that are permanently painted on, or magnetically attached to motor vehicles or rolling stock that are regularly and consistently used to conduct normal business activities. However, this section does not prohibit an individual, not engaged in business, to display a sign, mounted, attached or painted on a trailer, boat or motor vehicle, when it is parked for the purpose of a one-time sale of said trailer, boat or motor vehicle.

7.7 ENFORCEMENT AND VIOLATIONS

- a. Any person, including, without limitation, an owner of real property, who violates, suffers a violation to occur or refuses to comply with any provision of this Ordinance may be subject to the penalty provisions as described in Section XXII of the Zoning Ordinance.
- b. In addition to the remedies provided in Section XXII, the Code Enforcement Officer may remove or cause to be removed any sign that does not comply with the provision of this Ordinance, at the expense of the owner of the property wherein the sign is located after written notification of the violation to the property owner.
- c. The Code Enforcement Officer may remove or cause to be removed any sign without notice that the Code Enforcement Officer reasonably concludes is impermissibly established in the public right-of-way or that otherwise constitutes a danger to public safety.
- d. The Code Enforcement Officer may remove or cause to be removed any sign not maintained in good repair for reasons of safety or aesthetics.

7.8 GENERAL STANDARDS AND CRITERIA FOR SIGNS

The regulations in this section specify the area and heights of signs that are allowed within the Town and which require a permit.

- a. Measurement and Calculation of Area:
 - i. Area of Freestanding Signs:
 - 1. Sign face area is calculated as the total area within the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display together with any material or color forming an integral part of the background of the display

or used to differentiate the sign from the backdrop, background or structure against which it is placed. Areas of supporting framework shall be excluded from this calculation up to the amount of 35% of the total area as calculated above. All supporting framework, bracing, or decoration in excess of the 35% limit shall be deemed part of computation of the maximum aggregate area.

2. The area of one side of a double-faced sign shall be regarded as the total area of the sign provided that such sign faces are either parallel or at an angle of thirty (30) degrees or less to each other. If the sides are of unequal area, the larger shall determine the area.

ii. Area of Wall/Building Signs:

1. The sign face area of signs attached or affixed to buildings or other structures shall include all lettering, designs, or symbols, together with the background, whether open or enclosed, upon which they are displayed. When signs are incorporated into canopies or awnings, the entire panel containing the sign copy is counted as the sign face area.
2. Where a sign consists of individual letters or symbols attached, painted or applied to a building, wall or window, without any distinguishing border, panel or background, the area shall be considered to be the smallest rectangle, triangle, or circle encompassing all the letters and symbols.
3. In no case can the additional surrounding background area exceed the area of the copy. For the purpose of this section, the permitted background area is the total area between the lintel bar and the parapet on a one (1) story building or between the lintel bar and the floor level of the floor above on a multi-story building

iii. Sign Height for Freestanding Signs:

The height of a freestanding sign shall be computed as the distance from the elevation of the nearest travel lane edge of pavement to the highest attached component of the sign.

b. Signage Standards.

Design, color, materials, size, and placement are all important in creating signs that are architecturally attractive and integrated into the overall site design. Signs that are compatible with the surroundings and effectively communicate a message will promote a quality visual environment. The following design standards will be used as a basis for review of sign permits and the management of signs:

i. General Standards.

1. Design signs in harmony with the style and character of the development and as an integral design component of the building architecture, building materials, landscaping, and overall site development.
2. Signs should be clear, informative to the public and should weather well.
3. All signs shall be maintained in good repair, including the display surface, which shall be kept neatly painted or posted.

4. Sign letters and materials should be professionally designed and fabricated.
5. Exposed conduit and tubing is prohibited. All power supplies and other equipment shall be concealed.
6. The exposed back of all signs visible to the public shall be suitably finished and maintained.

ii. Placement:

1. Signs should be generally free of obstructions when viewed from different angles. However, trees or other landscaping that grows to a point that it obstructs the view of a sign or makes it illegible shall not be grounds for removal or trimming of the plant(s).
2. The physical placement of signs on a building shall be as important as the sign composition itself. To maximize the effectiveness of signs and a building's architecture, every sign located on a building shall be required to be an integral part of the building.
3. Signs shall be located with respect to the basic architectural framework of the building, so as not to obscure the primary elements (door and window openings and decorative facade treatments) of a building's framework.

iii. Sign composition.

The visual style of a sign is determined by the relationship of its lettering, colors, lighting, and material used. The design standards set forth herein constitute general design criteria to be followed when determining conformity with the Ordinance.

iv. Lettering:

1. No more than two (2) lettering styles shall be permitted per sign.
2. Letters may be attached to the building facade.
3. Light-colored letters on a dark background are preferred. Dark letters on a light background shall only be permitted if it complements the building's color composition.
4. Lettering and signboards shall be located so as not to obstruct architectural detailing on the building face.
5. Product trademarks are discouraged; however, trade signs (e.g., a shoe for a cobbler, a mortar and pestle for a druggist) are preferred.
6. Letter styles shall be limited to the classic genre, i.e., Copper plate Gothic, Times, Franklin Gothic, Benton, Clarendon, Haas Helvetica, Folio Caravelle Medium, Windsor, and Times Roman.
7. The size of the lettering shall be in proportion to both the sign configuration and the building.

v. Color:

1. No more than three (3) colors are preferred, including black/white. Lettering shall preferably be one (1) color.
2. Colors used in signage should relate to the color composition of the building material and be compatible with them.
3. The determination of sign color must relate to the degree of contrast between the sign lettering and sign background.

vi. Material:

1. Traditional materials, such as wood, glass, brass, bronze, aluminum, or iron are preferred for the framework of a sign. The use of plastic, aluminum and vinyl will only be permitted if styled and composed to imitate wood or iron.
2. Wooden signs shall be constructed of dense, clear or finely grained wood that adapts to engraving/carving and paint or stain. Ordinary plywood will not withstand exposure; therefore, only overlay, exterior or marine plywood shall be permitted.

vii. Sign Illumination:

1. The light from an illuminated sign shall not be of an intensity or brightness that will create glare or other negative impact on residential properties in direct line of sight to the sign.
2. Whenever indirect lighting fixtures are used (fluorescent or incandescent), care shall be taken to properly shield the light source to prevent glare from spilling over into residential areas and any public right-of-way.
3. Internally illuminated plastic box “canned” signs are discouraged. Individually illuminated channel letters are preferred.
4. Signs shall not have blinking, flashing, or fluttering lights, or other illumination devices that have a changing light intensity, brightness, or color.
5. Light sources shall utilize energy efficient fixtures to the greatest extent possible.

7.9 GENERAL REGULATIONS (Rev. 3/11)

Any sign not specifically listed shall not be permitted unless otherwise exempted herein.

a. Signs Permitted in the Residential/Agricultural District, Manufactured Housing/Mobile Home District, Retirement Planned Community District:

i. Agricultural Sign, Temporary / Seasonal:

1. Shall require a permit and may be placed off-site and within a Town right-of-way only with the permission of the Board of Selectmen, and a letter granting approval for the location from the owner of the property of which the sign is located in front of.

2. Placement shall not exceed six (6) months continuously for a season with an additional 30 contiguous or non-contiguous days for the sale of agricultural products.
 3. If located within a Town right-of-way shall not exceed six (6) square feet.
 4. If located on private property any sign shall be limited to twelve (12) square feet.
 5. Sign shall not exceed a maximum height of ten (10) feet.
- ii. Contractor's Sign: Shall be required to obtain a permit and comply with the conditions listed below.
1. Contractor signs may not be placed on the property prior to fourteen (14) days before the expected start of construction or upon issuance of a building permit (whichever is later) nor maintained on the property beyond fourteen (14) days after completion of work or upon issuance of a Certificate of Occupancy (whichever is earlier).
 2. No more than one sign per contractor may be placed on the site and the total area of all contractors' signage shall not exceed thirty-two (32) sq. ft.
 3. Contractor signs shall be located outside of the public right-of-way.
 4. Contractor signs shall not exceed a maximum height of ten (10) feet.
 5. Contractor signs shall not be illuminated.
 6. Signs, which advertise for a contractor who does continual maintenance or service of a site, shall not be allowed.
- iii. Development signs:
1. Development signs shall require a permit and may not be placed on the property prior to fourteen (14) days before the expected start of development activity nor maintained on the property beyond fourteen (14) days after issuance of the final certificate of occupancy or four (4) years from the original date of issue. The Code Enforcement Officer may issue additional sign permits on an annual basis only beyond the original permit, if he finds that significant sales activity is taking place on the site. Significant sales activity may be determined to be a staffed sales office, regular on-site sales staff hours for lots or new units or continued new-unit construction activities.
 2. Development signs shall be located outside of the public right-of-way.
 3. Development signs shall not exceed a maximum height of ten (10) feet.
 4. Development signs shall not be illuminated.
- iv. Directional Signs:
- In any zone, signs not exceeding two (2) square feet per sign in area to point direction to residences, businesses, other allowed uses or meeting places or for directing traffic into or out of a site are permitted.

v. Governmental Signs:

Signs erected by the municipal, State, or federal governments, which are required for the public safety and welfare shall be allowed.

vi. Home Occupation Signs:

1. Not more than one free standing sign or other advertising device is to be displayed on the property and it shall not exceed a size of four (4) square feet.
2. Home Occupation signs shall be located outside of the public right-of-way.
3. The height of Home Occupation signs shall be a minimum of eight (8) feet in height and a maximum height of ten (10) feet.
4. Signs will not be lighted from within or by exterior spot lighting.

vii. Institutional Signs:

1. Signs setting forth the name of any simple announcement for any public, charitable, educational or religious institution located entirely within the premise of that institution, up to an area of 24 square feet. Such signs may be illuminated in accordance with the regulations contained herein. If building mounted, these signs shall be flat wall signs and shall not project above the roofline. If ground mounted, the top shall be no more than eight (8) feet above ground level.
2. Signs erected by community, social, religious, and fraternal organizations, shall not be displayed for longer than seven (7) consecutive days or no more than fourteen (14) days out of any one (1) year period for a fund raising or community event. The sign shall not be larger than six (6) square feet and be a maximum height of six (6) feet above grade to the top of the sign and its supporting structure.) Such sign shall be placed only on the premises where the event is to be held or conducted.
3. Signs shall be located outside of the public right-of-way.

viii. Real Estate Signs: Signs four (4) sq. ft. or smaller in size do not need to obtain a permit as long as they comply with the conditions listed below. Any sign in excess of four (4) sq. ft. shall require a permit.

1. Real estate signs may only advertise the property on which they are situated.
2. Real estate signs may not be illuminated.
3. There may be no more than one sign per street frontage.
4. The signs must be removed within thirty (30) days of consummation of the sale or lease.
5. A portable real estate open house sign not to exceed two (2) square feet may be placed off-site only on the day of the open house and no longer than one (1) hour before and thirty (30) minutes after the open house is taking place.

ix. Service/Civic Association Signs:

Service and civic associations, defined as organizations established by local citizens and which have non-profit tax status, may apply to the Board of Adjustment for a special exception to erect signs in the municipality providing that the following conditions are met:

1. An individual sign is no larger than six (6) square feet;
2. The organization has written permission for placement of the sign from the landowner; and
3. The sign will not cause a safety hazard or have a visual effect on the surroundings.

x. Yard Sale Signs:

Do not need to obtain a permit as long as they comply with the conditions listed below.

1. Yard sale signs may not be placed prior to three (3) days before the sale and must be removed within 1 day after the sale.
2. They may not exceed six (6) square feet and may not be illuminated.
3. The signs may be placed off premises for noncommercial sales related to a single residential dwelling unit (or informal joint sales among neighbors) only provided they are not placed on utility poles and are not a distraction to traffic.

b. Signs Permitted in commercial and/or industrial uses:

- i. All signs permitted in the Residential / Agricultural District and Manufactured Housing / Mobile Home District, Retirement Planned Community District pursuant to Section 7.9.a.

ii. Awning/Canopies:

1. One sign with lettering per business shall be permitted on an awning or canopy, and logos shall be permitted on all awnings and canopies, provided that:
 - a. The letter and logo height does not exceed 50% of the diagonal portion of the awning or canopy.
 - b. The letter and logo height is located on the vertical flap and does not exceed eight inches.
 - c. The letter and logo area does not exceed 15% of the area of the diagonal portion of the awning or canopy.
 - d. The signage shall only be on first-floor awnings and canopies.
2. Awnings and canopies shall be aesthetically compatible with the building and consistent with each other.
3. Awnings and canopies shall be kept in good order and repair.
4. All awning and canopies shall be made of cloth or canvas.

5. A business cannot have a wall sign and awning/canopy with lettering.
- iii. Directory Signage.
 1. Permitted only for upper story non-residential uses.
 2. Area shall be a maximum of twelve (12) square feet located by the main entrance to the upper floors.
 3. Letter height shall not exceed four (4) inches.
 - iv. Free Standing Signage.
 1. Flexible Mixed-Use District, Professional/Residential District, and Town Center District.
 - a. If there are one to two distinct operations under different ownership/proprietorship, the area the face shall not exceed 32 square feet and the top of such sign is no higher than twelve (12) feet above sidewalk or finish grade; or
 - b. If there are three to four distinct operations under different ownership/proprietorship, the area of the face shall not exceed 48 square feet and the top of such sign is no higher than twelve (12) feet above sidewalk or finish grade; or
 - c. If there are five or more such distinct operations under different proprietorship on the lot, the area of the face shall not exceed sixty-five (65) square feet and the top of such sign does not exceed fifteen (15) feet above grade.
 2. Gateway Commercial Business District, Special Commercial District, Commercial/Light Industrial District, and Industrial District.
 - a. If there are one to two distinct operations under different proprietorship, the area of the face shall not exceed 48 square feet and the top of such sign is no higher than twenty (20) feet above sidewalk or finish grade; or
 - b. If there are three to four distinct operations under different proprietorship, the area of the face shall not exceed seventy-five (75) square feet and the top of such sign is no higher than thirty (30) feet above sidewalk or finish grade; or
 - c. If there are five or more such distinct operations under different proprietorship on the lot, the area of the face shall not exceed one hundred thirty (130) square feet and the top of such sign does not exceed thirty (30) feet above grade.
 3. A lot with front lot line of 300 feet or more may have two freestanding signs. However, said signs shall be separated by a minimum of 200 feet.
 4. One (1) freestanding sign shall be permitted for each street or limited access highway, which abuts a lot. The area of the sign located on the primary lot frontage (determined by the applicant) shall be the maximum permitted in the district. The area of sign located on the secondary lot frontage shall be 50%

of maximum permitted in the district.

5. When a lot abuts more than one street or limited access highway and qualifies for an additional freestanding sign, the minimum separation between freestanding signs on the lot, regardless of the orientation of the freestanding signs, shall be one hundred (100) feet.
6. Minimum front yard setback, side yard setback and rear yard setback. Unless otherwise stated in the Ordinance, there shall be no minimum required front, side, or rear setback for freestanding signs, provided, however, such signs shall not encroach into any public right-of-way or any clear sight area.

v. Projecting Signs.

Projecting signs and displays attached to individual buildings or units shall be allowed in addition to the permitted freestanding signs and displays, subject to the following:

1. There is no more than one such sign for each entrance door to a business establishment.
2. The permitted area of projecting signs shall be one (1) square foot for each five (5) linear feet of building or unit front facade to which it is attached, not to exceed thirty-two (32) square feet.
3. The base of all projecting signs shall be no less than eight (8) feet above the ground or sidewalk.
4. Projecting signs shall not be located or erected on the roof area of any building, shall be located only on the building walls, and may not project above the building roof line or roof ridge.
5. Projecting signs shall not project from the exterior wall of a building more than five (5) feet.
6. Projecting signs shall not project into any public or private street travel way.
7. There are no exposed guy wires or turnbuckles.
8. In the case of a building located on a corner lot, a projecting building sign may be located at the corner of the building oriented toward the intersection of two or more streets, provided, however, that no other projecting building identification signs shall be located on the same building within one-hundred (100) feet of a corner projecting building identification sign, regardless of orientation

vi. Promotional Event Signs.

The requirements for these signs are as follows:

1. Keep promotional and grand opening signs out of the public right-of-way (including sidewalks, planter strips, tree wells, sound walls, fences, and street medians), on public property, or in any location which interferes with vehicular, bicycle, or pedestrian circulation or safety.

2. Pennants, flags, streamers, searchlights, and banners (maximum 60 square feet each) may be displayed for three (3) 14-day periods per calendar year and an additional four weekends or federally recognized 3-day holiday weekends. The weekend or federally recognized 3-day holiday weekend display is limited to 1 per every 3 months. A weekend display is permitted Friday evening to Sunday evening (or Monday if a federally recognized 3-day holiday.) Upon the approval of the Board of Selectmen, a permit shall be secured from the Building Inspector for the signs that exceed said specified time limits.
3. For grand openings pennants, flags, streamers, searchlights, and one banner not to exceed 60 square feet in area may be displayed one time for a maximum of 30 days. All signs must be removed within 5 days after the grand opening ceases.
4. Temporary Mobile and/or Portable Signs: New businesses may use a temporary mobile sign (or trailer mounted sign) while awaiting the arrival of a permanent sign. Such signs shall be allowed only until the permanent sign(s) is installed or for thirty (30) days, whichever is shorter. A permit shall be secured from the Building Inspector for the placement of such signs.

vii. Street Address Signage:

1. Street address signage is encouraged on each building or individual tenant.
2. Numbers shall be a maximum of eight (8) inches in height.

viii. Wall/Building Signage:

1. One of the three below for each street frontage of each business:
 - a. Internally-lit raised letters with concealed power supply.
 - b. Back-lit raised letters with concealed power supply.
 - c. Signage board with gooseneck lighting.
2. Wall signage is also permitted for walls facing rear parking areas with the same area as permitted on the front façade.
3. Wall signage must be located below the second story floor line.
4. The building frontage is used to calculate the total maximum wall/building sign area. One square foot of wall/building sign area is allowed for each linear foot of lot frontage. The area of all wall/building signs must be equal or less than this total, including existing and new signs. The building sign total maximum area formula shall be calculated using the following formula:

Building Linear Frontage x Multiplier (see chart below) = Total maximum sign area for all building signs.

_____ x _____ = square feet

5. Total Maximum Area Multiplier

The total aggregate area in square feet of all permanent building signs, except for signs freestanding signs and directional signs, shall not exceed the following:

Average Distance of Sign From Centerline of Abutting Street	Building Frontage Multiplied By
0-99	1
100-249	1.5
250 and over	2

6. For lots with frontage on more than two streets or a limited access highway, the total maximum area for wall/buildings signs shall be determined using the maximum area permitted for the primary and secondary lot frontages (as determined by the applicant).
7. A use with less than 50 feet of sign frontage may have a maximum of 50 square feet of permanent wall/building signs.

xiii. Window Lettering/Sign:

1. All window lettering/signs for businesses shall be inside the window and shall be permitted only on the first and second floor windows.
2. Window lettering/signs shall not exceed 15% of the window area.
3. Window lettering or signs shall pertain only to the establishment occupying premise where window is located.

7.10 MAINTENANCE AND OBSOLESCENCE

All signs and sign structures shall be properly maintained and kept in a neat and proper state of maintenance and appearance. All signs of any type and located within any district which are found by the Building Inspector to be in a state of disrepair or are considered dangerous, shall be repaired or removed on order of the Building Inspector and upon failure to comply with this order within the time specified within the order, the Building Inspector is hereby authorized to cause removal of this sign and any expense resultant thereto shall be borne by the owner/lessee.

7.11 NONCONFORMING SIGNS

a. Continuance.

Any sign lawfully existing or under construction before the date of enactment of these sign regulations or upon any date on which these regulations are amended, and any sign which is accessory to a nonconforming use, shall be deemed a nonconforming sign. Portable signs (including trucks and trailers) are exempt from treatment under this section for continuance and shall, therefore, require sign permits and compliance with the provisions of Section VII.

b. Maintenance.

A nonconforming sign must be maintained in good repair for reasons of public safety and aesthetics. Ordinary maintenance and minor repairs shall not include replacement of the structural framing and supports, enlargement of the area of a sign face, or relocation of the sign.

c. Alteration, Relocation and Replacement:

Alterations, relocation, and/or replacement of a legal nonconforming sign structure is permitted when damage or deterioration does not exceed fifty percent (50%) of the area of the sign and structure. A non-conforming sign that is damaged by any casualty or force majeure may be replaced by an identical sign in the same location that is identical to the damaged sign. The replacement sign retains its status as a permitted, non-conforming use.

d. Removal.

A nonconforming sign shall be removed within three hundred and sixty-five (365) days if any one of the following conditions exist:

1. If the damage or deterioration of the sign structure exceeds fifty percent (50%) of the area; or,
 2. If the building to which the sign structure is accessory is damaged or demolished to an extent exceeding fifty percent (50%) of the building's appraised value and no plans have been submitted for the building's reconstruction or restoration pursuant to applicable codes and Ordinances; or,
 3. If the sign has been abandoned for at least three hundred sixty-five (365) days.
- e. Any sign that has been removed due to any of the conditions listed in 7.11.d above shall not be replaced and any succeeding sign shall conform to the provisions of this Ordinance. If any portion of the sign structure is removed, then all parts and components of the sign shall also be removed.

7.12 SEVERABILITY

If any section, clause, provision or phrase of this section is held to be invalid or unconstitutional by any court of competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of the Ordinance.

**SECTION VIII: RESIDENTIAL OPEN SPACE CLUSTER DEVELOPMENT
(REV. 3/04, Rev. 3/10, 3/13)****BY CONDITIONAL-USE PERMIT****8.1 AUTHORITY**

Pursuant to RSA 674:21, the Planning Board is hereby authorized to grant a Conditional Use Permit to allow for a Residential Open Space Cluster Development in accordance with the restrictions and requirements of this section. The Planning Board is further authorized to adopt amendments to the Subdivision Regulations in order to administer the requirements of this ordinance.

8.2 PURPOSE

The Residential Open Space Cluster development provisions provides applicants with an alternative development approach intended to promote flexibility and innovation in land planning that are not specifically permitted in the current zoning ordinance. The provisions are intended to encourage environmentally sound planning, conserve open space, retain and protect important natural and cultural features, and provide for efficient use of land and community services to advance the goals stated in the master plan.

Within this context, these regulations established are intended to be a minimum consideration of allowable impacts. Each tract of land possesses different, unique development characteristics and limitations, and the Residential Open Space Cluster Development uses allowed on any particular tract will be a function of innovative land planning and subdivision design interacting with the special characteristics and limitations of the site.

8.3 OBJECTIVES

The Planning Board shall consider the following objectives and balance them accordingly during the review of individual applications.

- a. Maintain and preserve the rural character of the Town of Stratham by allowing an alternative residential development option which preserves large areas of open space, provides for visual buffers from existing roads and residential development, and permits farming opportunities on parcels of open space.
- b. To create a contiguous network of open spaces or “greenways” throughout the Town by linking the common open spaces within the subdivision, to open space on adjoining lands wherever possible, and as particularly found in the Stratham Master Plan designated and referred to as the Stratham ‘S’ on Map FLU-2.
- c. To provide for connected corridors of open land throughout Town for preservation of habitat, environmental resources, and public enjoyment.
- d. To preserve those areas of the site that have the highest ecological value, including, for example, wildlife habitat, e.g., large unfragmented blocks of undeveloped land, areas of highest condition identified based on NH Fish and Game’s Wildlife Action

- Plan, and water resources, e.g., drinking water supply areas and watersheds, wetlands, streams and rivers.
- e. Provide for a diversity of housing types, opportunities, and styles.
 - f. To locate buildings and structures on those portions of the site that are the most appropriate for development and avoiding developing in areas ill-suited for development, including, for example, areas with poor soil conditions, a high water table, that are subject to frequent flooding or that have excessively steep slopes.
 - g. Encourage flexible road design that will contribute to and enhance a rural atmosphere and maintain minimal safety design.
 - h. As part of an alternative for residential development, to require the clustering of homes in a manner that includes proximity in physical location while minimizing confusion over issues of property ownership.

8.4 **DEFINITIONS**

The following definitions specifically apply to this Section of the Zoning Ordinance:

- a. **Buffer**: Land area within which adequate vegetation is maintained or provided to visibly separate or screen one use from another and/or to minimize potentially negative impacts on surrounding areas, e.g., shield or block noise, light or other nuisances, reduce water pollution. Also known as a “vegetated buffer.”
- b. **Buildable Area**. Land area of a parcel excluding non-buildable area.
- c. **Buildable Lot**. The smallest lot area established by the zoning ordinance on which a use or structure may be located in a particular district.
- d. **Common Area**. Any parcel or area of land and/or area of water set aside as a result of a residential open space cluster plan. The common area is designed for the benefit and enjoyment of the residents of a residential open space cluster development. These areas may contain accessory structures and improvements necessary and appropriate for the educational, recreational, cultural, social or other noncommercial/nonresidential / non-industrial uses, plus any utility services utilized by the owners of the common area.
- e. **Conservation Land**. Land given to a public body dedicated to conservation of forests, park land, etc., or to a private conservation trust, with the intent of preserving in its original ecological condition, safeguarding water supplies, or diminishing flood danger.
- f. **Mandatory Home Association**. A private non-profit corporation, association, or other nonprofit legal entity established by the developer for the benefit and enjoyment of the residents of the Cluster Development. Membership in said association shall be mandatory for property owners and made a required covenant in any deed issued or passed. It shall provide voting and use rights in the common area when applicable and may charge dues to cover expenses, which may include tax liabilities of the common area, recreational or utility facilities. Articles of Association or Incorporation must be acceptable to the Planning Board and by the Town Counsel and any other municipal, county, state agency, body, commission or department required by law to approve of the same.

- g. Non-buildable Area. Land area that cannot be counted toward the minimum lot size under a conventional subdivision, including areas with the following characteristics: wetlands or wetland soils as defined by RSA 482-A: 2, X; slopes greater than 25 percent; submerged areas; utility rights-of way; land area within the 100-year floodplain; or land that is restricted from development by covenant, easement or other restriction.
- h. Open Space Cluster Subdivision. An alternative form of residential development where, instead of subdividing an entire tract into lots of conventional size, a similar number of housing units are arranged on lots of reduced dimensions, with the remaining area of the parcel permanently protected as designated open space. Also referred to as “conservation subdivision.”
- i. Open Space Easement. Land whose development rights have been legally restricted, either by deed or by public purchase of those rights. The easement may be so worded as to permit or restrict public access, to allow or disallow recreational development, and similar provisions. Easements are tied to the title of the land, regardless of its subsequent ownership.
- j. Public Open Land. Land purchased by or given to the Town of Stratham for parks, playgrounds, or an undeveloped open space, generally with the intention of making it accessible for public use.

8.5 STRICT ADHERANCE

To these provisions shall not be construed as establishing a legal right to a conditional use permit for a cluster development. Those who wish to pursue their “development rights” to a certain use or development of land should consider developing their land with the permitted, conventional subdivision approaches, or through the variance procedure as provided for by New Hampshire law.

8.6 CONDITIONAL USE PERMIT

All Residential Open Space Cluster Developments shall obtain a Conditional Use Permit from the Planning Board subject to Section 3.6 Additional Notes. The Conditional Use Permit is meant to provide flexibility, minimize adverse impacts, and allow the Board to participate jointly with the applicant to prepare a development that is consistent with this ordinance, regulations, and the Master Plan for the Town of Stratham

The Conditional Use Permit shall clearly set forth all conditions of approval and shall clearly list all plans, drawings, and other submittals that are part of the approved use. Everything shown or otherwise indicated on a plan or submittal that is listed on the Conditional Use Permit shall be considered to be a condition of approval. Construction shall not deviate from the stated conditions without approval of the modification by the Planning Board.

8.7 APPLICATION AND REVIEW PROCEDURE

- a. A Residential Open Space Cluster Development shall be initiated by filing with the Planning Board for an application for a Conditional Use Permit.

- b. The completed application and fee as set by the Board or Selectmen shall be submitted to the Planning Department. Said fee is nonrefundable.
- c. The Planning Board shall consider the application at its next regular meeting following the public notice process.
- d. Where development approval for the Conditional Use Permit includes subdivision or site plan approval by the Planning Board, the application and review procedure for the Conditional Use Permit shall be made concurrently and in accordance with the procedures specified in the Subdivision Regulations or Site Plan Regulations as applicable to the particular development.

8.8 USES

- a. Only residential uses shall be permitted in the Residential Open Space Cluster Developments.
- b. Single-family detached homes are permitted.
- c. Multi-family Units: Shall be permitted up to a unit count of four (4) per building or structure. For the purpose of elderly affordable and workforce housing developments, multi-family means a building or structure containing five (5) or more dwelling units, each designed for occupancy by an individual household. These are units that are structural joined and share walls with no yard between units. (Rev. 3/10)
- d. Joined-Array Units: Single-family units that are attached by and share a common yard and/or fence as part of a tightly-constructed joined-array, not to exceed four joined units, shall be considered single family units for setbacks to other arrays or detached units but shall not require setbacks from each other provided that yard space at least twenty (20) feet wide is available for individual use between units. In no case shall structures be less than ten (10) feet apart (example below).

- e. Home occupations or accessory apartments are not permitted in Residential Open Space Cluster Developments.

8.9 DIMENSIONAL REQUIREMENTS & SETBACKS

- a. Residential Open Space Cluster Development:
 - i. Lot Size Requirement. Unless specifically stated herein, the minimum lot size for a Residential Open Space Cluster Development is 20 acres.

ii. Frontage Requirements.

1. The minimum frontage for the development shall be a contiguous 100 feet and of sufficient length to provide safe access for a right-of-way of at least 60 feet.
2. At least one access shall be within the minimum frontage.
3. The minimum frontage and access shall be within the Town of Stratham. If, however, the subject parcel has only 50 feet of frontage and was legally created prior to the date of adoption of this ordinance under ordinances and regulations that required at least a 50 feet minimum right-of-way, 50 feet shall be the minimum required frontage for such pre-existing lots.
4. Frontage lands on roads existing at the time of application shall be preserved as buffers to the maximum extent possible in addition to all required setbacks.
5. After the passage of this ordinance, any parcel that subdivides more than 50% of the frontage away from the parent parcel shall not be eligible for a Residential Open Space Cluster Development for a period of 4 years from the date of the subdivision approval.
6. Merging the required parcels with the parent parcel to achieve the 50% original required frontage shall nullify this restriction.

iii. Buffer Area: (Rev. 3/13)

1. A vegetated buffer strip of at least fifty (50) feet shall be maintained along the external perimeter or property line of the Residential Open Space Cluster Development to minimize potential impacts on abutting properties. The natural vegetation shall be retained or, if required, vegetation of a type and amount as deemed appropriate by the Planning Board shall be planted and maintained. No dwelling, accessory structure, street or parking area shall be permitted within the designated buffer area. Streets that serve as access to the development, walls, underground utilities, and drainage structures may be located within this buffer. Said buffer strip shall not be included in the calculation of open space for the development.
2. If the subdivision abuts a water body or wetland, the width and treatment of the buffer shall be consistent with the requirements of the Wetland Conservation Overlay District and/or Shoreland Protection Overlay District.
3. Appropriate legal mechanisms shall be established by the subdivider, subject to the approval of the Planning Board, to assure that the buffer area will be permanently protected and maintained.

b. Residential Open Space Cluster Lot or Unit:

i. Frontage Requirement:

1. Each single-family lot or unit shall have a minimum of fifty (50) feet of frontage on interior roadways.
2. Joined-Array single family units, as described in Section 8.8 shall have one hundred twenty-five (125) feet of frontage.
3. Duplex and Multi-family units, sharing a common wall shall have seventy-five (75) feet of frontage.

- ii. All developments shall contain some form of lot delineation or lines that designate a reasonable amount of land attributable to each particular structure.
- iii. The following setbacks shall apply to all residential structures within the development:
 1. Setbacks from exterior property lines of the entire parcel shall be fifty (50) feet for single-family detached units, with an additional fifteen (15) feet per unit for multi-unit structures (e.g. 4 unit attached = 130').
 2. Thirty (30) foot setback from the edge of pavement for roadways within, and part of, the development.
 3. Forty (40) foot structural separation for all single-family unit structures within the development.
 4. Fifty (50) foot structural setback for multi-family units from all other structures.
 5. Ten (10) foot structural setback from all lot lines.

8.10 MINIMUM OPEN SPACE REQUIREMENTS (REV. 3/13)

In addition to the requirements of this section, the Planning Board shall adopt regulations that prescribe additional criteria for open space parcels.

- a. The parcel must contain a minimum of 35% of the total land in the parcel dedicated as open space. The fifty foot (50') vegetated buffer as described in Section 8.9.a.iii, shall not be used in the calculation of said minimum.
- b. For purpose of this Section, the minimum open space requirements shall be established in accordance with Section 4.6.6 of the Subdivision Regulations.
- c. 75% of the dedicated usable open space shall be contiguous.
- d. Such land shall be preserved in perpetuity through deed restriction or conservation easement, and designated on the approved and recorded plat. Such restriction shall be approved by the Planning Board and Town Counsel.
- e. The minimum required open space is land unbuilt upon, which must be permanently kept in that condition, and cannot be subjected to current use taxation or discretionary easements. However, actively operated farmland, classified as "prime" or "unique" by the Rockingham County Conservation District will be entitled to current use taxation or discretionary easements.
- f. The open space and/or common area within a cluster development shall be owned by and bound by one or more of the following:
 - i. Mandatory Homeowners Association: Which may use it for common recreational facilities or may designate it as Open Space, or may grant a public body an Open Space Easement.
 - ii. A Public Body: Which shall use it as Conservation Land or Public Open Land.
 - iii. Such Designation must be made prior to approval of the subdivision application by the Planning Board; such lands shall be held in such type of legal entity as the Planning Board deems appropriate.

8.11 MAXIMUM DEVELOPMENT DENSITY (REV. 3/13)a. Density.

The maximum density for a Residential Open Space Cluster Development shall be determined by use of a yield plan. The purpose of a yield plan is to show the density that is reasonably achievable under a conventional subdivision in accordance with the requirements of the zoning ordinance and subdivision regulation. The Planning Board shall adopt regulations that provide for the generation of a yield plan in accordance with this section.

b. Density Bonus:

The Planning Board may award a development an additional number of lots or units as a density bonus, if the required criteria as performance standards are met. Additional density allowances are based on the number of lots or units achievable under the yield plan baseline. The allowances are cumulative and may be allowed based on the performance standards stated below. In no instance shall the density bonuses awarded exceed 50% of the maximum number of lots or units achievable under the yield plan.

- i. The minimum density bonus, regardless of other frontage or innovative protection bonuses achieved, shall be one lot.
- ii. A density bonus of up to 2 lots may be awarded for the preservation of each potential frontage lot as open space.
- iii. If required criteria as set forth in the Stratham Subdivision Regulations for preservation of unique land and environmental features and/or facilities are met, the Stratham Planning Board may award the development an additional density bonus of up to 10%.
- iv. Innovative layout and design of the project to encourage a village or community type environment with such amenities as village greens and parks, community viewsheds and/or integration into existing protected farm activities or existing recreational opportunities, the Stratham Planning Board may award the development additional density bonus of up to 10%.
- v. For the development of new recreational facilities such as parks, playgrounds, trails, and/or community centers, the board may grant an additional density bonus of up to 5%. If the improvements are made available to the general public, this bonus may be increased to a maximum of 10%.
- vi. Elderly Affordable and Workforce Housing.

To encourage the development of diverse and affordable housing, the following bonuses for elderly housing, may be granted as follows:

1. If the project is developed as an Elderly Housing Development and no less than 20% of the units are provided as elderly affordable, a density bonus of 10% shall be awarded. If 50% or more of the units are offered as affordable, a 25% density bonus shall be granted.
 - a. Any elderly housing developed under this section must be established and maintained in compliance with the Fair Housing Act, as amended, 42 U.S.C. Sec. 3601 et seq. and NH Human Rights Commission Regulations

Hum 302.02 62 or Over Housing, 302.03 55 or Over Housing as may be amended.

- b. Any applicant seeking approval of a development that is intended to qualify as elderly affordable housing under this section shall adhere to requirements stated in Section 5.8.
 - c. Housing for adults aged 55 and older shall at a minimum shall provide that at least 80% of the units shall be occupied by at least one person 55 years of age or older per unit.
 - d. Within a residential open space cluster development, elderly affordable multi-family units, as defined under section 8.8.c, may be permitted to be increased up to a unit count of 6 per building or structure.
2. To encourage the development of diverse workforce housing opportunities, the Planning Board may allow a density bonus and/or reduction to the minimum required acreage if certain conditions are met.
- a. For developments consisting of twenty (20) acres are greater, the Planning Board shall grant a density bonus of 15% if the project designate at least 20% of the units as workforce affordable.
 - b. The Planning Board may allow a reduction of the minimum open-space cluster development acreage to ten (10) acres for a plan which guarantees a designated percentage of units reserved for workforce housing as set forth below:

Percentage of Workforce Units in the Development	Density Bonus Units
40%	30%
25%	25%
20%	15%

- c. Within a residential open space cluster development, workforce multi-family units, as defined under section 8.8.c, may be permitted to be increased up to a unit count of 6 per building or structure.
 - d. Any applicant seeking approval of a development that is intended to qualify as workforce housing under this section shall adhere to the requirements, standards, and administration of workforce housing as stated in Section 5.8. Where conflict arises in other sections of the Ordinance, Section VIII. shall supersede.
- vii. Every development seeking such bonuses shall provide the Planning Board with easements, covenants, or deed restrictions, which shall provide for the perpetual continuation of the performance standards, which are used in the granting of any bonus. Said easements, covenants, or deed restrictions shall be reviewed by qualified legal counsel on behalf of the town (at the developer's expense) and approved by the planning board prior to the issuance of any final approval.
- viii. Where a final number is greater than .5, the density number may be rounded up to the next whole number.

- ix. Performance standards and/or subdivision design elements shall not be used to satisfy more than one density bonus.
- x. In no event shall the total density bonus awarded exceed the soil-based carrying capacity for the entire parcel. The Planning Board may adopt additional regulations that provide for density bonuses in accordance with this section.

8.12 APPROVAL AND GRANTING OF PERMITS

a. Planning Board Decision Based on Findings.

Every decision of the Planning Board pertaining to the granting, denial or amendment of a request for a Conditional Use Permit shall be based upon the findings of fact and conditions of approval. The findings of fact and conditions of approval shall be supported in the records of its proceedings. The criteria enumerated in Subsection b. below are required to be met in any matter upon which the Planning Board is required to pass under these regulations. A mere finding or recitation of the enumerated conditions unaccompanied by findings of specific fact shall be deemed not to be in compliance with these regulations.

b. Criteria Required for Consideration of a Conditional Use Permit.

A conditional use permit shall be granted only if the Planning Board determines that the proposal conforms to all of the conditional use permit criteria as described and detailed in Section 3.6 Table of Uses, Additional Notes.

8.13 UTILITIES

All utilities serving the development shall be underground. The Planning Board may waive the requirement for underground utilities along lengthy entrance roads that are visually separated from the clustered housing units. The Planning Board may not waive this requirement within the network of the development.

8.14 OTHER REGULATIONS APPLICABLE

The Planning Board shall adopt sections of the Subdivision Regulations not pre-empted by this ordinance, which shall apply to the Residential Open Space Cluster Development, including the right to waive such regulations. Where not specifically pre-empted by the provisions of this ordinance the requirement that is more restrictive shall apply. The Planning Board shall determine if pre-emption is intended by the provisions of this Ordinance, and/or what requirement that is to apply, is more restrictive.

8.15 EXPIRATION

The Conditional Use Permit shall expire upon the expiration or revocation of the subdivision or site plan approval.

SECTION IX: MOBILE HOMES**9.1 AUTHORITY**

This Section is enacted in accordance with the provisions of RSA 674:32.

9.2 PURPOSES

The purposes of this Section are to allow for the placement of mobile homes within specific areas of the community and to provide for standards therefore.

9.3 LOCATIONS

Manufactured housing as defined in Section 2.1.44 is allowed in all residential districts of Stratham. Mobile homes as defined in Section 2.1.45 are allowed in the Manufactured Housing/Mobile Home district only.

9.4 LIMITATIONS

A mobile home lawfully existing on the effective date of this Section on land outside of the Manufactured Housing/Mobile Home district, or a replacement thereof if such mobile home is destroyed by fire or casualty and its replacement is located on the land within 180 days after such fire or casualty, may be maintained as a non-conforming use, provided that when such use shall have been discontinued by the removal of such mobile home or its replacement from the land, the use of such land shall thereafter conform to the provisions of this Ordinance. An unoccupied travel trailer registered for use on the highways of this State may be parked on land owned by the owner of the travel trailer, provided that the location or condition of such travel trailer conforms to legal setbacks of the zone.

9.5 MOBILE HOME PARKS

Mobile home parks will be allowed providing the following requirements are met:

- 9.5.1 Approval: No mobile home park shall be established or operated without approval from the Planning Board of a plan which clearly defines the area of the proposed park, as well as all mobile home sites, all utilities, and such other requirements as shall be required by the Subdivision Regulations of the Town of Stratham as may be adopted from time to time.
- 9.5.2 Size: Mobile home parks shall consist of a minimum of ten (10) acres and two (2) lots and are permitted in the Manufactured Housing/Mobile Home District provided that all requirements in this Section are met.
- 9.5.3 Lot Size: Each lot must contain not less than 30,000 square feet and shall have a depth of at least 150 feet and a frontage of at least 100 feet on a public or private street, if an approved community water or sewer system is installed as part of the park development.

- 9.5.4 Placement: No lot shall contain more than one mobile home. No mobile home shall be placed closer than 100 feet to an existing residence or state or town road or within thirty (30) feet of any other boundaries of the park.
- 9.5.5 Marking: Each lot shall be clearly marked.
- 9.5.6 Setbacks: Front yard setbacks shall be at least 30 feet. Rear yard setbacks shall be at least 20 feet. Side yard setbacks shall be at least 20 feet. The setback areas shall not be used for parking areas for any types of vehicles.
- 9.5.7 Other Uses: No principal building shall be located in a manufactured housing park except manufactured housing and laundry, recreation, or other buildings maintained in connection with the operation of the manufactured housing or subdivision.
- 9.5.8 Screening: The proposed manufactured housing park will be effectively screened by the use of the existing natural features of the landscape and/or added landscaping at least six (6) feet in height which must be approved by the Planning Board.

9.6 MOBILE HOME SUBDIVISIONS:

Mobile home subdivisions will be allowed providing the following requirements are met:

- 9.6.1 Where Allowed: Mobile home subdivisions, consisting of a minimum of ten (10) acres, are permitted in the manufactured housing and mobile home district provided that all requirements which pertain to single-family houses are met. (Rev. 3/88)
- 9.6.2 Labeling: If a plat is submitted with a request for approval for a mobile home subdivision and such plat is approved, the plat shall bear the legend that it is "approved for mobile homes."
- 9.6.3 Screening: The mobile home subdivision will be effectively screened by the use of the existing natural features of the landscape and/or added landscaping at least six (6) feet in height, which must be approved by the Planning Board.

9.7 UNIT LAYOUT: (Repealed 3/00)

SECTION X: LOCAL REGULATION OF EXCAVATION**10.1 AUTHORITY**

This Ordinance is enacted pursuant to the authority granted the Town of Stratham to regulate earth moving activities within its boundaries under the provisions of Chapter 155-E: Sections 1-11 inclusive, of the NH Revised Statutes Annotated.

10.2 PURPOSES

The purposes of this Section are to provide for the control of excavation of sand, clay, sod, loam, gravel or rock products and to provide an orderly procedure for such removal to take place while protecting the health, safety, and general welfare of the community. In addition, the purposes are to provide a method for restoration of the excavated area.

10.3 REGULATOR

The Planning Board of the Town of Stratham is designated the Regulator as provided in RSA 155-E:1-11, inclusive.

10.4 REGULATIONS

Pursuant to its responsibility as the Regulator, and in accordance with the provisions of RSA 155-E:11, the Planning Board is hereby authorized to adopt and from time to time amend regulations governing earth moving activities within the Town of Stratham to ensure that said activities are conducted in a safe manner in accordance with sound environmental practice, to protect against erosion, and to further provide proper assurances that suitable restoration of affected areas are obtained.

10.5 ADMINISTRATION

No person, firm or corporation shall within the Town of Stratham undertake any clearing, grading, removal, excavation or other disturbance of land without first obtaining a permit from the Planning Board therefore, except the following:

- a. Excavation that is incidental to the lawful construction or alteration of a building or structure or the lawful construction or alteration of a parking lot or way including a driveway on a portion of the premises where removal occurs;
- b. Excavation that is incidental to agricultural or silvacultural activities, normal landscaping or minor topographical adjustment;
- c. Excavation from an area contiguous to or from contiguous land in common ownership with, stationary manufacturing and processing plants in operation as of the effective date of this Ordinance which use earth obtained from such areas;
- d. Excavation performed exclusively for the lawful construction, reconstruction or maintenance of a class I, II, III, IV or V highway by a unit of government having jurisdiction for the highway or an agent of the unit of government which has a contract for the construction, reconstruction or maintenance of the highway, provided

that a copy of the pit agreement executed by the owner, the agent and the governmental unit shall be filed with and accepted by the Regulator prior to start of excavation but such excavation shall not be exempt from the provisions of RSA 155-E:4 and 155-E:10;

- e. A person owning land abutting a site which was taken by eminent domain or by any other governmental taking upon which construction is taking place may stockpile earth taken from the construction site and may remove the earth at a later date after written notification to the appropriate local official.

10.5.1 Public Hearing: Prior to the granting or denying the permit, the Planning Board shall hold a public hearing on the application. All abutters shall be given notice of the proposed action.

10.5.2 Exhibits Required: The applicant shall be required to submit the following exhibits prior to the scheduling of the public hearing:

- a. A plan of the land involved which shall be prepared by a registered land surveyor or professional engineer which will show all man-made features, vegetative cover, property lines, and topography at four (4) foot contour intervals including land within 100 feet of where the proposed excavation is to take place.
- b. A plan of the land involved showing the breadth, depth, and slope of the proposed excavation, and the estimated duration of the project.
- c. A description of the types of materials to be excavated and the quantities of each material.
- d. A plan and description of the access and visual barriers to public highways to be utilized in the proposed excavation.
- e. The elevation of the highest annual average ground water table within or next to the proposed excavation.
- f. A plan for the restoration of the area affected by the excavation in compliance with RSA 155-E:5, including a timetable therefore as to fully depleted sites within the excavation area during said project.
- g. Other information that the Regulator may reasonably require.

10.5.3 Conditions: The Regulator may impose conditions pertaining to:

- a. The finished level and grading, the finished slope shall not exceed a grade level of one (1) foot vertical distance for each three (3) feet of horizontal distance unless a petitioner agrees to approved methods of sodding, grassing, rip-rapping, or the use of retaining walls. (Rev. 3/88)
- b. The placing of topsoil upon completion of excavation, to the depth of not less than four (4) inches, seeding, and planting with approved materials to restore the area to a usable condition.
- c. Control of temporary and permanent drainage.
- d. Disposition of boulders, vegetation, stumps and other debris including unused material and any structures used in connection with the operations.
- e. The construction of necessary fencing to protect against hazards.

- f. Vegetation to remain as a visual barrier.
- g. Hours of operation.
- h. Routes for transportation of material.

10.5.4 Prohibited Projects:

The Regulator shall not grant a permit:

- a. Where an excavation is proposed below road level within 50 feet of any highway right-of-way unless such excavation is for the purpose of said highway.
- b. For excavation within 50 feet of the boundary of a disapproving abutter or within 10 feet of the boundary of an approving abutter unless approval is requested by said abutter.
- c. When the excavation is not permitted by zoning or other applicable ordinance.
- d. When the issuance of the permit would be unduly hazardous or injurious to the public welfare.
- e. Where existing visual barriers in the areas specified in 10.5.2:b would be removed, except to provide access to the excavation.
- f. Where the excavation would substantially damage a known aquifer, so designated by the United States Geological Survey.
- g. When excavation is planned beneath or adjacent to inland surface waters in such manner that a permit is required from the Water Supply and Pollution Control Commission, the Water Resources Board, the Special Board on Dredge and Fill or other state or federal agencies with jurisdiction over the premises; but the Regulator may approve the application when all necessary permits have been obtained; or
- h. Where the project cannot comply with the restoration provisions of RSA 155-E:5.

10.5.5 Fees and Expenses:

The Regulator shall charge a fee of \$50.00 for processing the excavation permit requests. The applicant shall also pay the expenses to cover the cost of notice, administrative expenses, review of documents, and other matters required by particular applications including but not limited to, engineering review, circuit rider review, etc. (Rev. 3/97)

- a. Notice: shall be paid at the rate of \$5.00 per abutter, and \$45.00 for costs and administrative expenses for public notice in one newspaper and three public places.
- b. Circuit Rider Review: The applicant shall pay expenses for Circuit Rider Review at the current billing rate of the Rockingham Planning Commission for any Circuit Rider review of a submitted application.
- c. Special Investigative Costs: The Board may require the applicant to pay reasonable costs of special investigative studies which may be necessary for the Planning Board to evaluate the impact of a proposed development.

10.5.6 Bond or Other Surety: The Regulator may require the posting of a performance bond or other security in amount sufficient to insure restoration of the site.

10.5.7 Expiration of the Permit: No permit shall be issued for a period of more than two (2) years providing that all conditions of the first permit have been met.

10.6 ENFORCEMENT

The Planning Board may appoint an Enforcement Officer to enforce the provisions of any permit issued hereunder. Said Enforcement Officer shall have the powers and duties prescribed in RSA 155-E:10.

- 10.6.1 Existing Operations: Any owner of an existing earth excavation operation lawfully in existence prior to the effective date of this Ordinance and which is subject to the provisions thereof may continue such existing operation with permit as previously granted by the Board of Selectmen provided such operation is not substantially altered or enlarged except in conformance with this Ordinance or any regulations adopted pursuant thereto and further provided that the owner shall suitably restore said area of operation within one year following the intended cessation of the excavation or any completed section thereof so as to secure the area against any unsafe or hazardous conditions which may endanger the health and safety of the general public.
- 10.6.2 The Regulator or any person directly affected by violation of RSA 155-E may seek an order from the superior court requiring the violator to cease and desist from violating any provision of a permit or RSA 155-E and to take such action as may be necessary to comply with the permit and RSA 155-E. Attorney's fees may also be available. (Adopted 3/97)

SECTION XI: WETLANDS CONSERVATION DISTRICT (OVERLAY)**(Rev. 3/05, Rev. 3/11)****11.1 PURPOSES**

In the interest of public health, convenience, safety, and welfare, the regulations of this District are intended to provide guidance for the use of areas of the land with standing water or extended periods of high water tables:

- 11.1.1 To control the development of structures and land uses on naturally occurring wetlands, which would contribute to the pollution of surface and ground water by sewage.
- 11.1.2 To prevent the destruction of natural wetlands which provide flood protection, recharge the ground water supply and the augmentation of stream flow during dry periods.
- 11.1.3 To prevent unnecessary or excessive expenses to the Town to provide and maintain essential service and utilities which arise because of unwise use of wetlands,
- 11.1.4 To encourage those uses that can be appropriately and safely located in wetlands.
- 11.1.5 To preserve wetlands for other ecological reasons such as those cited in RSA 482-A:1. (Rev. 3/91)
- 11.1.6 To preserve and enhance those aesthetic values associated with wetlands of this Town.

11.2 AREA

- 11.2.1 The Stratham Wetlands Conservation District: Is defined as those areas of the Town that contain marshes, ponds, bogs, lakes, and wetlands as defined in Env-Wt 301.01(a).

The location of a wetland boundary in any particular case must be determined by an onsite field delineation. Wetlands shall be delineated on the basis of hydrophytic vegetation, hydric soils, and wetlands hydrology in accordance with the techniques outlined in the Corp of Engineers Wetland Delineation Manual, Technical Report Y-87-1, January 1987 as amended. Poorly and very poorly drained soil types shall be determined in accordance with Site-Specific Soil Mapping Standards for New Hampshire and Vermont (SSSNE Special Publication No. 3) as amended and updated. These data shall be prepared and stamped by a wetland scientist as certified by the New Hampshire Board of Natural Scientist.

The Stratham Wetlands Conservation District shall also include the borders of tidal marshes of the Squamscott River and Great Bay. Said borders are hereby defined as those areas adjacent to the Squamscott River and Great Bay with elevations of eight (8) feet or less above mean sea level (National Geodetic Vertical Datum of 1929).

- 11.2.2 The District as herein approximately depicted on a map designated as the "Town of Stratham Wetlands Conservation District Map" and is a part of the official Zoning Map. A field delineation prepared by a certified wetland scientist shall be required to determine the actual location of wetlands.

For a detailed explanation of soil types, refer to "Soils and Their Interpretation for Various Land Uses, Town of Stratham, Rockingham County, New Hampshire" on file with the Planning Board and the Soil Conservation Service in Exeter, N.H.

- 11.2.3 In all cases where the Wetland Conservation District is superimposed over another zoning district in the Town of Stratham, that district whose regulations are the most restrictive shall apply.
- 11.2.4 In case the Building Inspector questions the validity of the boundaries of a wetland depicted by a wetland scientist on any particular piece of property, the Planning Board may call upon the services of its wetland scientist to examine said area and report his findings to the Planning Board for confirmation of the boundary.

11.3 PERMITTED USES:

- 11.3.1 Permitted uses in areas containing wetlands and within the tidal marsh borders of the Squamscott River and Great Bay as herein defined are as follows:
- a. Any Use Otherwise Permitted: By the Zoning Ordinance and State and federal laws that does not involve the erection of a structure or that does not alter the surface configuration of the land by the addition of fill or by dredging except as a common treatment associated with a permitted use;
 - b. Agriculture: Including grazing, hay production, truck gardening and silage production provided that such use is shown not to cause significant increases in surface or groundwater contamination by pesticides or other toxic or hazardous substances and that such use will not cause or contribute to soil erosion;
 - e. Forestry and Tree Farming: To include the construction of access roads for said purpose. In areas herein defined as tidal marsh borders, the cutting of trees shall be limited to fifty percent (50%) of live trees in a 20-year period;
 - d. Wildlife Habitat: Development and management;
 - e. Recreational Uses: Consistent with the purpose and intent of this Section;
 - f. Conservation Areas: And nature trails;
 - g. Water Impoundment: And the construction of well water supplies;
 - h. Drainage ways: To include streams, creeks, or other paths of normal runoff water and common agricultural land drainage.
- 11.3.2 Permitted uses in areas containing very poorly drained soils, marshes, bogs, open water, and major streams are as follows:
- a. Uses specified: Under Section 11.3.1, (a-h) shall be permitted except that no alteration of the surface configuration of the land by filling or dredging and no use which results in the erection of a structure, except as provided for in Section 11.3.2 (b) below, shall be permitted.
 - b. The Construction of Fences, Footbridges, Catwalks and Wharves Only: provided: 1) said structures are constructed on posts or pilings so as to permit the unobstructed flow of water; 2) structures do not obstruct navigation on tidal creeks; 3) the natural contour of the wetland is preserved; and 4) the Planning Board has reviewed and approved the proposed construction.

11.4 CONDITIONAL USES

- 11.4.1 A Conditional Use Permit may be granted by the Planning Board (RSA 674:21 II) for the construction of roads and other access ways, and for pipelines, powerlines, and other transmission lines provided that all of the following conditions are found to exist:
- a. The proposed construction is essential to the productive use of land not within the Wetlands Conservation District;
 - b. Design and construction methods will be such as to minimize detrimental impact upon the wetland;
 - c. The proposed construction design of powerlines, pipelines, or other transmission lines includes provisions for restoration of the site as nearly as possible to its original grade and condition;
 - d. No alternative route, which does not cross a wetland or has less detrimental impact on the wetland is feasible;
 - e. Economic advantage alone is not reason for proposed construction.
- 11.4.2 Prior to the granting of a Conditional Use Permit under this Section, the applicant shall agree to submit a performance security to the Board of Selectmen. The Security shall be submitted in a form and amount, with surety and conditions satisfactory to the Selectmen and approved by Town Counsel to ensure that the construction has been carried out in accordance with the approved design. The Security shall be submitted and approved prior to issuance of any permit authorizing construction.
- 11.4.3 The Planning Board may require the applicant to submit an environmental impact assessment when necessary to evaluate an application made under this Section. The cost of this assessment shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other special investigative studies and for the review of documents required by particular applications.

11.5 SPECIAL PROVISIONS

- 11.5.1 Areas designated as poorly drained soils may be utilized to fulfill the minimum lot size required by Town ordinances, and subdivision regulations provided that a contiguous non-wetland area of 30,000 square feet is provided for each lot. This contiguous non-wetland area must be sufficient in size and configuration to adequately accommodate all housing and required utilities such as sewage disposal, water supply, and all applicable setbacks.
- 11.5.2 No very poorly drained soils or bodies of water may be used to satisfy minimum lot size.
- 11.5.3 The following buffer provisions shall apply: (Rev. 3/88)
- a. No subsurface wastewater disposal system shall be constructed within 75 feet of any very poorly drained soil or 50 feet of any poorly drained soils.
 - b. All construction, forestry, and agriculture activities within 100 feet of any wetland shall be undertaken with special care to avoid erosion and siltation into the wetlands. The Planning Board may require an erosion control plan approved by the Rockingham County Conservation District for any project undertaken up-grade of a wetland. No building activity (building does not include septic systems) shall be

- permitted within 100 feet of any very poorly drained soil and within 50 feet of any wetland except as provided in subsection c of this section. Where required, permits from the New Hampshire Department of Environmental Services shall be obtained.
- c. Where an existing building within the buffer zone is destroyed or in need of extensive repair, it may be rebuilt provided that such rebuilding is completed within two years of the event causing destruction. The new or rebuilt structure shall not extend further into the wetland or buffer area than the original foundation.
 - d. There shall be a “no-disturbance” buffer zone within twenty-five (25) feet of any wetland and fifty (50) feet of very poorly drained soils. This area will remain in its natural state and will not be subject to grading, excavation, filling or any other activity associated with the development of land.

SECTION XII: SHORELAND PROTECTION DISTRICT: (OVERLAY)**12.1 AUTHORITY**

This Section is enacted in accordance with the provisions of RSA 674:16-17 and RSA 674:20-21.

12.2 PURPOSE

The purpose of these shoreland protection provisions is to protect and promote environmental quality, public health, resource conservation, and the general welfare of the public, with particular attention to the special cultural and ecological significance of the Great Bay estuarine system.

12.3 OBJECTIVES

The objectives of this Section are to:

- a. Promote the preservation and maintenance of surface water quality in Stratham;
- b. Conserve and protect aquatic and terrestrial habitat associated with intertidal and riparian areas;
- c. Preserve and enhance those aesthetic values associated with the natural shoreline;
- d. Encourage those uses that can be appropriately located adjacent to shorelines.

12.4 DEFINITIONS

The following definitions specifically apply to this Section of the Zoning Ordinance:

12.4.1 Shoreland: The land areas included within the Shoreland Protection District.

12.4.2 Shoreline: The water's edge at mean high water.

12.4.3 Tidal Marsh: As defined in the Administrative Rules of the New Hampshire Department of Environmental Services. (Rev. 3/11)

12.4.4 Mean High Water: As determined according to the published tables and standards of the National Ocean Survey, adjusted to the locality from such tables.

12.5 DISTRICT BOUNDARIES

The Stratham Shoreland Protection District is defined to include all of the following:

- a. The areas of land within 150 feet horizontal distance of the shoreline of the Squamscott River and Great Bay Estuary.
- b. The areas of land within 150 feet horizontal distance of the upland extent of any tidal marsh adjacent to the Squamscott River and Great Bay Estuary.
- c. The areas of land within 100 feet horizontal distance of the seasonal high water level of all brooks and streams within the Town which appear on U.S.G.S. 7.5" (scale 1:24000) quadrangle maps for the Town of Stratham, as revised.

12.6 PERMITTED USES

12.6.1 General: The following uses are permitted under this Section:

- a. Any Use Otherwise Permitted: By the Zoning Ordinance and by State and Federal laws that does not involve the erection of a structure, and does not alter the surface configuration of the land by the addition of fill or by dredging, except as a common treatment associated with a permitted use, and provided that a buffer strip of natural vegetation 75 feet in width along the Squamscott River, Great Bay Estuary, and associated tidal marshes, and 50 feet in width elsewhere, be maintained between the area of use and the shoreline or upland extent of the tidal marsh;
- b. Agriculture: Including grazing, hay production, truck gardening, and silage production, provided that such use is shown not to cause significant increases in surface or groundwater contamination by pesticides or other toxic or hazardous substances and that such use will not cause or contribute to soil erosion and stream sedimentation;
- c. Forestry and Tree Farming: To include the construction of access roads for said purpose. Within the Shoreland Protection District the cutting of trees shall be limited to fifty percent (50%) of live trees in a 20-year period;
- d. Wildlife Habitat: Development and management;
- e. Recreational Uses: Consistent with the purpose and intent of this Section as defined in Section 12.2;
- f. Conservation Areas: And nature trails;
- g. Water Impoundment: And the construction of well water supplies;
- h. Drainage Ways: To include streams, creeks, or other paths of normal runoff water and common agricultural land drainage;
- i. The Construction of Fences, Footbridges, Catwalks, and Wharves Only, provided:
 - i. Said structures are constructed on posts or pilings so as to permit the unobstructed flow of water;
 - ii. Structures do not obstruct navigation on tidal creeks;
 - iii. The natural contour of the shoreline is preserved;
 - iv. The Planning Board has reviewed and approved the proposed construction.

12.6.2 Conflicting Provisions: In the event that the provisions of the Shoreland Protection District are found to conflict with other provisions of the Stratham Zoning and Land Use Ordinance, the more restrictive shall apply.

12.6.3 Effect on Lot Size: Areas within the Shoreland Protection District may be considered as part of a minimum lot size normally required by the Zoning Ordinance and Subdivision Regulations of the Town of Stratham.

12.6.4 Special Exception for Lots of Record: Upon application of the Board of Adjustment, a special exception shall be granted to permit the erection of a structure within the Shoreland Protection District provided that all of the following conditions are found to exist:

- a. The lot upon which an exception is sought was an official lot of record, as recorded in the Rockingham County Registry of Deeds, prior to the date on which this amendment was posted and published in the Town;
- b. The use for which the exception is sought cannot feasibly be carried out on a portion or portions of the lot which are outside the Shoreland Protection District;
- c. Due to the provisions of the Shoreland Protection District, no reasonable and economically viable use of the lot can be made without the exception;
- d. The design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Section.

12.7 CONDITIONAL USES (ADOPTED 3/00)

- 12.7.1 A Conditional Use Permit may be granted by the Planning Board (RSA 674:21 II) for the construction of roads and other access ways, and for pipelines, powerlines, and other transmission lines provided that all of the following conditions are found to exist:
- a. The proposed construction is essential to the productive use of land not within the Shoreland Protection District;
 - b. Design and construction methods will be such as to minimize detrimental impact upon the Shoreland Protection District;
 - c. The proposed construction design of powerlines, pipelines, or other transmission lines includes provisions for restoration of the site as nearly as possible to its original grade and condition;
 - d. No alternative route which does not cross a Shoreland Protection District nor has less detrimental impact on the Shoreland Protection District is feasible;
 - e. Economic advantage alone is not reason for proposed construction.
- 12.7.2 Prior to the granting of a Conditional Use Permit under this Section, the applicant shall agree to submit a performance security to the Board of Selectmen. The Security shall be submitted in a form and amount, with surety and conditions satisfactory to the Selectmen and approved by Town Counsel to ensure that the construction has been carried out in accordance with the approved design. The Security shall be submitted and approved prior to issuance of any permit authorizing construction.
- 12.7.3 The Planning Board may require the applicant to submit an environmental impact assessment when necessary to evaluate an application made under this Section. The cost of this assessment shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other special investigative studies and for the review of documents required by particular applications.

SECTION XIII AQUIFER PROTECTION DISTRICT (OVERLAY) (Adopted 3/92)**13.1 AUTHORITY AND PURPOSE**

Pursuant to RSA 674:16-21, the Town of Stratham adopts an Aquifer Protection District and accompanying regulations in order to protect, preserve and maintain potential groundwater supplies and related groundwater recharge areas within the Town.

13.2 DEFINITIONS

- 13.2.1 Animal Feedlot: A commercial agricultural establishment consisting of confined feeding areas and related structures used for the raising of livestock.
- 13.2.2 Aquifer: For the purpose of this Ordinance, aquifer means a geologic formation, group of formations, or part of a formation that is capable of yielding quantities of groundwater usable for municipal or public water supplies.
- 13.2.3 Dwelling Unit: Please review Section 2.1.19.
- 13.2.4 Groundwater: All the water below the land surface in the zone of saturation or in rock fractures capable of yielding water to a well.
- 13.2.5 Groundwater Recharge: The infiltration of precipitation through surface soil materials into the groundwater. Recharge may also occur from surface waters, including lakes, streams, and wetlands.
- 13.2.6 Leachable Wastes: Waste materials, including solid wastes, sludge and agricultural wastes capable of releasing contaminants to the surrounding environment.
- 13.2.7 Non-Conforming Use: Please review Section 2.1.41.
- 13.2.8 Recharge Area: The land surface area from which groundwater recharge occurs.
- 13.2.9 Site Coverage: That portion of the entire parcel or site, which through the development of the parcel, is rendered impervious to groundwater infiltration.
- 13.2.10 Solid Waste: Any discarded or abandoned material including refuse, putrescible material, septage, or sludge, as defined by New Hampshire Solid Waste Rules He P 1901.03. Solid waste includes solid, liquid, semi-solid, or gaseous waste material.
- 13.2.11 Structure: Please review Section 2.1.66.
- 13.2.12 Toxic or Hazardous Materials: Any substance which poses an actual or potential hazard to water supplies or human health if such a substance were discharged to land or waters of the Town. Hazardous materials include: volatile organic chemicals, petroleum products, heavy metals, radioactive or infectious wastes, acids, and alkalies. Also included are pesticides, herbicides, solvents and thinners, and such other substances as defined in the NH Water Supply and Pollution Control Rules, Section Ws 410.04(1), in the NH Solid Waste Rules He-P 1901.3(v), and in the Code of Federal Regulations 40 CFR 261 as amended.

13.3 **DISTRICT BOUNDARIES**

- a. **Location:** The Aquifer Protection District is defined as the area shown on the map entitled, “Aquifer Protection District”, and is hereby adopted as part of the Town’s Official Zoning Map. The Aquifer Protection District includes the area delineated by the groundwater mapping studies entitled, Lamprey/Exeter/Oyster River Study and Lower Merrimack/Coastal Study as prepared by the U.S. Geological Survey in 1990 and 1991 respectively. The Aquifer Protection District is an overlay district which imposes additional requirements and restrictions to those of the underlying district. In all cases, the more restrictive requirement(s) shall apply.
- b. **Appeals:** Where the bounds of an identified aquifer or recharge area, as delineated, are in doubt or in dispute, any landowner aggrieved by such delineation may appeal the boundary location to the Planning Board. Upon receipt of a written appeal, the Planning Board shall suspend further action on development plans related to the area under appeal and shall engage, at the landowner’s expense, a qualified hydrogeologist to prepare a report determining the proper location and extent of the aquifer and recharge area relative to the property in question.

13.4 **USE REGULATIONS**

- a. **Minimum Lot Size:** The minimum lot size within the Aquifer Protection District for each newly created lot shall be the same as allowed in the underlying zoning district. Larger lot sizes may be required depending on the soil-based lot sizing standards found within the Stratham Subdivision Regulations (Section 4.3).
- b. **Maximum Site Coverage:**
 - i. Within the Aquifer Protection District, no more than twenty percent (20%) of a single lot or building site may be rendered impervious to groundwater infiltration. To the extent feasible, all runoff from impervious surfaces shall be recharged to the aquifer on-site. Recharge impoundments shall have vegetative cover for surface treatment and infiltration.
 - ii. Maximum impervious site coverage may exceed twenty percent (20%) provided that the following performance standards are met and the plans are approved by the Planning Board or its designated agent.
- c. The developer shall submit a stormwater drainage plan. Such a plan shall provide for the retention and percolation within the aquifer of all development generated stormwater runoff from a ten (10) year storm event, such that the post-development discharge volume to the aquifer is, at a minimum, equal to the pre-development discharge to the aquifer. Furthermore, the stormwater drainage plan shall provide for the removal of oil and gasoline from parking lot runoff by the use of treatment swales, oil/gas separators, or other devices, prior to retention and percolation of the runoff.
- d. **Prohibited Uses:**

The following uses are prohibited within the Aquifer Protection Zone:

 - i. **On-site Disposal:** Bulk storage, processing or recycling of toxic or hazardous materials or wastes.

- ii. Underground Storage Tanks: Except as regulated by the NH Water Supply and Pollution Control Commission (Ws 411). Storage tanks, if contained within basements, are permitted.
- iii. Dumping of Snow: Carried from off-site.
- iv. Automotive Uses: Including: car washes, service and repair shops, junk and salvage yards.
- v. Laundry: And dry-cleaning establishments.
- vi. Industrial Uses: Which discharge contact type wastes on site.
- e. Conditional Uses: The following uses, if allowed in the underlying zoning district, are permitted only after approval is granted by the Planning Board:
 - i. Industrial and Commercial Land Uses: Not otherwise prohibited under 13.4.d. of this Ordinance.
 - ii. Multi-family: Residential development.
 - iii. Sand and Gravel Excavation: And other mining provided that such excavation or mining is not carried out within six vertical feet of the seasonal high water table.
 - iv. Animal Feedlots: And manure storage facilities provided the applicant consults with the Rockingham County Conservation District (RCCD) before such uses are established.
- f. The Planning Board shall grant approval for those uses listed above (e.i. through e.iv.) only after it is determined that all of the following conditions have been met:
 - i. The use will not detrimentally affect groundwater quality, nor cause a significant long-term reduction in the volume of water contained in the aquifer or in the storage capacity of the aquifer;
 - ii. For the uses described in Sections 13.4.e., item i. and item ii., the Planning Board shall make this determination by applying the performance standard outlined in Section 13.4.c (stormwater management plan).
 - iii. The use will discharge no wastewater on-site other than that typically discharged by domestic wastewater disposal systems;
 - iv. The proposed use complies with all other applicable provisions of this Section.
 - v. All conditional uses shall be subject to inspections by the Building Inspector or other agent designated by the Selectmen. The purpose of these inspections is to ensure continued compliance with the conditions under which approvals were granted.
- g. Permitted Uses:

The following activities may be permitted provided they are conducted in accordance within the intent of this Ordinance:

 - i. Any Use Permitted by the Underlying District of the Zoning Ordinance: Except as prohibited in Section 13.4.d or regulated by Section 13.4.e of this Article.
 - ii. Maintenance, Repair of Any Existing Structure: Provided there is no increase in impermeable surface above the limit established in Section 13.4.b of this Article.

- iii. Agricultural and Forestry Uses: Provided that fertilizers, pesticides, manure and other leachables are used according to best management practices as prescribed by the Rockingham County Conservation District, if applicable. All said leachables must be stored under shelter.
- h. Special Exception for Lots of Record: Upon application to the Board of Adjustment, a special exception shall be granted to permit the erection of a structure within the Aquifer Protection District on a non-conforming lot provided that all of the following conditions are found to exist:
 - i. The lot upon which an exception is sought was an official lot of record, as recorded with the Rockingham County Registry of Deeds, prior to the date on which this Section was posted and published in the Town.
 - ii. The use for which the exception is sought cannot feasibly be carried out on a portion or portions of the lot which are outside of the Aquifer Protection District.
 - iii. No reasonable and economically viable use of the lot can be made without the exception.
 - iv. The design and construction of the proposed use will be consistent with the purpose and intent of this Section.
- i. Non-Conforming Uses: Any non-conforming use within the Aquifer Protection District shall comply to the provisions of Section 5.1 of the Zoning Ordinance (Non-Conforming Uses).

13.5 MISCELLANEOUS PROVISIONS

- a. Location: Where the premises are partially outside of the Aquifer Protection Overlay Zone, potential pollution sources such as, but not limited to, on-site waste disposal systems shall be located outside and down gradient of the Zone to the extent feasible.

13.6 ADMINISTRATION

- a. Application and Interpretation: The provisions of the Aquifer Protection District shall be applied and interpreted by the Planning Board.
- b. Enforcement: The Board of Selectmen (or their duly designated agent) shall be responsible for the enforcement of the provisions and conditions of the Aquifer Protection District.

SECTION XIV: SEWAGE SLUDGE AND RESIDENTIAL SEPTAGE APPLICATION
(Adopted 3/96)**14.1 PURPOSE AND INTENT**

The purpose of this Section is to promote and insure the public health and safety of the citizens of the Town of Stratham by imposing additional requirements for the land application and surface disposal of sewage sludge and residential septage as well as requirements which are more stringent than the requirements set forth in 40 CFR 503.1 et seq. See 40 CFR 503.5(b). Furthermore, it is the intent of this section to promote the continued use and viability of agricultural farm land and protect aquifer areas and their recharge areas while simultaneously promoting the economic and responsible management, handling and disposal of biosolids and residential septage via land applications. If at any time the Federal Government and or the State of New Hampshire, adopts more stringent requirements than the corresponding requirements of this Ordinance, the more stringent requirements shall control.

14.2 DEFINITIONS

The words and terms of this Section shall be defined as set forth in the 1994 edition of 40 CFR 503.1 et seq. The following additional terms shall be incorporated into this ordinance:

- 14.2.1 Class B: refers to a specific classification and level of pathogen reduction in sewage sludge and residential septage.
- 14.2.2 Land Application: means the application of septage or sludge directly to the ground surface, whether or not the material is incorporated into the surface soil.
- 14.2.3 Owner: means the owner of land on which septage and/or sludge is placed.
- 14.2.4 Priority Pollutant Scan: means an analysis performed in accordance with test method 8240 of Test Methods for Evaluating Solid Waste, Volume IB, Laboratory Manual, Physical/Chemical Methods, identified as EPA SW 846, dated November 1986.
- 14.2.5 Stockpiling: means the placement of sludge on land for storage prior to land application.

14.3 USES

- 14.3.1 Prohibited: The use and disposal of sewage sludge and residential septage, including, but not limited to, the stockpiling, treatment, and land application of sewage sludge, biosolids and/or septage is hereby prohibited in Aquifer/Water Supply Districts within the of the Town of Stratham, except as otherwise noted in this ordinance.
- 14.3.2 Exemptions: The following operations or activities shall be exempt from this Section:
 - a. The hauling and/or transportation of sewage sludge and residential septage over municipal roads;
 - b. The use of composted materials for residential lawn and garden applications. For the purposes of this ordinance sewage sludge, residential septage and/or biosolids shall not be used for residential lawn and garden applications.

- c. Municipal septage lagoons, as permitted under RSA 485-A.

14.3.3 Allowed Uses:

Within all other zoned districts except those listed in section 14.3.1 above, Class B sewage sludge and residential septage may be stored, stockpiled, treated, applied, and/or transported to a specific site. This permitted use is subject to site plan review and meeting the requirements which are set forth in this Section, as well as any and all State and Federal standards or requirements, including the applicable requirements of 40 CFR 503.1 et seq.

In order to safeguard against adverse water quality and public health effects, all sludge and residential septage transported into, stockpiled within, or land applied must meet the Class B pathogen requirements of 40 CFR 503.32(a) and the vector control requirements of 40 CFR 503.33(a)(1) before it is transported into the Town of Stratham.

- 14.3.4 Uses by Conditional Permit: Within permitted zoned districts Class B sewage sludge and residential septage may be stored, stockpiled, treated, applied and transported to a specific site, which was formerly used or is presently being operated for the excavation of gravel, as permitted under RSA 155:E. The application shall be completed in accordance with the Best Management Practices, dated June 1995, as written by the University of New Hampshire Cooperative Extension. Said uses shall be subject to a conditional use permit and site plan approval from the Town of Stratham Planning Board.

14.4 APPLICATION, NOTIFICATION, AND REPORTING REQUIREMENTS

In addition to complying with all record keeping and reporting requirements imposed by the State and Federal Government, any person planning to transport to, stockpile on, treat, or land apply sewage sludge or residential septage shall submit all of the following information to the Planning Board for Site Plan Review.

The applicant shall receive Planning Board approval, with any conditions as the Planning Board deems necessary, and shall, at a minimum, wait until the appeal period has lapsed prior to the receipt of the sewage sludge and/or residential septage. The following information shall be supplemental information required in conjunction with the Site Plan Review requirements for Planning Board review of proposed use, transport, stockpiling and/or land application of sewage sludge and/or residential septage:

14.4.1 Site Plan Requirements:

A site plan which illustrates the following with respect to any area in which sludge/septage is to be stockpiled, treated or applied to land:

- a. A plan, prepared at a scale not to exceed the scale of 1"=100', with 2' topographic contours and all relative property boundaries;
- b. A plan, prepared at a scale not to exceed the scale of 1"=100' which includes Order One Soil Survey information for the land application area and for the areas within 100' of the land application area;
- c. The location and size of the stockpiling area(s);
- d. The location, limits, and acreage of the land application area;

- e. The quantities of sewage sludge to be land applied and/or stockpiled and a stormwater management plan for the stockpile area. Stockpiles are not to be located less than 500' from a property boundary/line;
- f. All areas of hydric soils, streams and open bodies of water within 100 feet of the stockpiling, treatment and land application area(s);
- g. All adjacent wells, including the wells of all abutters, within 300 feet of the stockpiling, treatment and land application area(s);
- h. All roads within the Town of Stratham to be used for the transport of septage/sewage sludge, the frequency of use of these roads and the maximum quantities to be hauled on a daily/weekly/monthly basis;
- i. An on-the-ground delineation of the application area.

14.4.2 Written Reports for Site Plan Review Application:

- a. The name, address, telephone number, and NPDES permit number of the Sludge Generating Facility;
- b. The name, address, telephone number, and NPDES permit number of any and all Sewage Sludge Treatment Facilities, if different from the Generating Facility;
- c. The name, address, telephone number, date of birth and license number of the Sewage Sludge and/or Septage Hauler;
- d. The name, address, date of birth and telephone number of the landowner;
- e. The name, address, date of birth, mailing address, business and telephone number of the person stockpiling and applying the sewage sludge and/or residential septage to the land;
- f. The name, address, date of birth and telephone number of the applicant;
- g. Laboratory Reports of all test results in accordance with the Best Management Practices as written by the University of New Hampshire Cooperative Extension;
- h. The planned delivery date, or delivery dates;
- i. The planned stockpiling time period (s), the location of said stockpiles and the management measures proposed to minimize stormwater run-off and odor;
- j. A narrative description of the treatment method used to meet Class B Sewage Sludge and/or Residential Septage requirements;
- k. The total surface area of the planned application;
- l. The total sludge volume to be applied;
- m. Previous land application data, including the cumulative site loading to date, and the site loading from the previous 2 years;
- n. The number of land applications that can be performed without exceeding the cumulative pollutant loading rate set forth in Table Two (2) of 40 CFR 503.13;
- o. A description of the intended capacity and life of the site and whether septage, sludge or both will be applied;

- p. A certification prepared by a licensed soil scientist, that the soil limits shall not exceed standards as stated in the Best Management Practices as written by the University of New Hampshire Cooperative Extension as applicable;
- q. Written permission and/or executed contracts that any owner of land in a residentially zoned district consents to the stockpiling and/or application of sewage sludge and/or residential septage to their land by the applicant;
- r. A list of all local and state permits or approvals which are required and whether the permits/approvals have been obtained or are pending;
- s. A history of the site use covering 20 years immediately prior to submission of the application;
- t. Site or facility design plans and specifications in accordance with Part Env-Ws 806.
- u. Operating plans in accordance with Part-Env-Ws 806;
- v. Whether the applicant or any person participating in the septage/sludge generation or application process has been convicted on a criminal misdemeanor charge under any statute implemented by the State of New Hampshire Department of Environmental Services within five years prior to the date of application or on a criminal felony charge under any statute implemented by the Department of Environmental Services within ten years prior to the date of application; and
- w. If the above information raises questions relative to the adequacy of protection of the environment and public health or safety, such other information as the Planning Board determines necessary to assure compliance with these rules and to protect the public health and safety of the environment;
- x. If the applicant is not the owner, the application shall be accompanied by a written statement signed by the owner that the owner is aware that the application is being filed and has given permission to the applicant to file the application and to enter upon the land for the purposes of site investigation and construction and operation of the septage/sludge disposal site in the event that the Town of Stratham issues the permit.
- y. Each application shall be submitted in quadruplicate and shall be accompanied by a fee, the amount to be set by the Board and included in the Site Plan Review Regulations.

14.4.3 Site Plan Review Approval Conditions:

At a minimum the following conditions shall be imposed under the Planning Board's Site Plan Review process:

- a. Written Approval: No applicant shall take delivery of any sewage sludge and/or residential septage until such time as the Planning Board or their duly authorized representative has provided the applicant with approval in writing. Such approval shall not be automatically given by the Board, but rather shall only be given once the Board has been fully satisfied that the applicant has met and will continue to meet the reporting requirements of this section, and has demonstrated to the Board that the proposed application will not present a threat to the health or public safety risk to the applicant, the property owner, the abutters of the land receiving sewage sludge and/or

- residential septage and any parcels which will be subject to or adjacent to land application.
- b. Stockpiling: The stockpiling of all Class B sewage sludge and/or residential septage shall be done in conformance with all State and Federal requirements, including the requirements of 40 CFR 503.1 et seq and Best Management Practices for Biosolids, except as noted below. In addition, Class B sewage sludge and/or residential septage may only be stockpiled on site if it is properly secured to limit airborne dispersal of sludge and/or residential septage from the pile, storm water transportation of the sludge and/or residential septage and infiltration of leachate from the sewage sludge and/or residential septage into the ground water. Sewage sludge and/or residential septage shall not be stockpiled for more than ninety (90) days from the first date of receipt. Storage of the sewage sludge and/or residential septage shall comply with the Best Management Practices. No stockpiling shall occur within 500 feet from any property line and 300 feet from on-site dwellings and private water supplies.
 - c. Minimum Level of Materials: Any and all sewage sludge and/or residential septage must arrive on site in a Class B condition. No treatment will be permitted on the site, except for that treatment which has been pre-approved by the Planning Board or their duly authorized representative.
 - d. Best Management Practices: The land application of all sewage sludge and/or residential septage shall be done in accordance with the general requirements and management practices set forth in 40 CFR 503.12 and 503.14 respectively and the Best Management Practices for Biosolids. In addition to meeting State and Federal Vector Attraction Reduction Requirements (VARRS), including those set forth in 40 CFR 503.33, (including at least one of the VARRS in Section 503.33(b)(1) through 503.33(b)(8) which must have been conducted at the generation site), all sewage sludge applied to the land must be incorporated into the soil within twenty-four hours of the application, unless a specific exemption has been granted by the Planning Board.
 - e. Testing: All testing shall be conducted in accordance with the Best Management Practices, State requirements 40 CFR 503.1 et seq., and local requirements (Including the total recoverable analysis of the metals listed in Table 3, Section 503.13). These test results shall be completed by a certified laboratory and submitted to the Board of Selectmen with a certification from the applicant that the applications have not exceeded the above noted standards. Test results shall be submitted on a per load basis and before the applicant takes delivery of any sewage sludge in the Town of Stratham. These tests shall be conducted for each and every generation site and any and all testing costs shall be borne by the applicant.

14.4.4 Record Keeping:

- a. Every hauler permit holder shall maintain records of each load of septage hauled, including identification of the date hauled, the name and address of the client, the source of the septage hauled, and the disposal site or wastewater treatment facility at which the load was discharged.
- b. Every septage/sludge disposal site permit holder shall maintain records of each load of septage or sludge received at the site, including identification of:
 - i. The date received;

- ii. The hauler delivering the load;
- iii. The source of the material;
- iv. The volume received; and
- v. The town municipality (ies) from which the material originates.
- vi. Every person who land applies or stockpiles sludge shall maintain records of each load of sludge received at each site, including identification of:
 - vii. The date received;
 - viii. The hauler delivering the load;
 - ix. The source of the material;
 - x. The sludge quality certification number, if applicable;
 - xi. The volume received;
 - xii. The municipality(ies) from which the material originates.
- c. Records shall be maintained by the permit holder or the person undertaking the activity, as applicable, and shall be provided to the local municipality for review on an on-going basis.
- d. Records shall be maintained for a minimum of three years. Prior to disposing of any records, the permit holder or the person undertaking the activity, as applicable, shall submit a written request to the Board of Selectmen for permission to dispose of the records. If the Boards determine that no enforcement actions are pending or contemplated for which the records are or would be necessary, the Board of Selectmen and the Planning Board shall authorize the applicant to dispose of the records.

14.4.5 Site and Management Plan Requirements:

Each operating plan for a land application site shall include the following:

- a. Normal hours of operation of the site;
- b. Proposed route(s) of access to the site;
- c. Method of application and incorporation;
- d. Storage or stockpiling provisions;
- e. Anticipated source of material and anticipated service area;
- f. Quantity of material expected on a periodic basis, such as daily, weekly or monthly, and quantity of material expected over the entire life expectancy of the site, if applicable;
- g. The type of treatment required by 40 CFP 503 before application;
- h. Record keeping procedures;
- i. Measures to be taken to control vectors;
- j. A detailed odor control plan explaining the type of odors that will be generated by the activity and the procedures that will be used to address and resolve any odor complaints;

- k. Procedures for monitoring soil ph by UNH Analytical Services or by a method which produces results comparable to UNH Analytical Services' results and analysis of the sludge by a laboratory certified by the New Hampshire Department of Environmental Services or other appropriate agency, to analyze wastewater for VOCs and metals;
- l. If to be applied to an agricultural field, the applicant shall provide the following: a list of crops to be grown; the agronomic uptake rate calculations prepared in accordance with Best Management Practices (BMP's), the disposition of crops grown and the annual nitrogen loading and annual and lifetime heavy metals loading calculations; and any other specific management practices designed to ensure compliance with this ordinance.

14.4.6 Minimum Operating Standards for Land Application:

- a. The operation of all facilities which manage septage and/or sludge through land application shall comply with federal regulations as specified in 40 CFR 503, in accordance with an operating plan per ENV-Ws 806.02 and in accordance with the requirements specified in this ordinance;
- b. No spreading shall be done on frozen or snow covered ground or when the ground is wet due to precipitation or flooding;
- c. No spreading shall be done on land which has a slope greater than 8 percent, that is, an 8 foot rise in 100 feet;
- d. No spreading shall be done on any hydric soils as defined in Env-Ws 1014.02 or in areas exhibiting seasonal ponding;
- e. Stockpiling shall not be permitted on the 100-year flood plain;
- f. No person shall land apply septage or sludge in the following areas:
 - i. Within 500 feet of any off-site dwelling, off-site well or any surface drinking water supply;
 - ii. Within 300 feet of any on-site dwelling or on-site well;
 - iii. Within 100 feet of any public road or property boundary; or
 - iv. In areas where stockpiling of manure or keeping of farm animals is prohibited.
- v. No sewage sludge or residential septage shall be placed within 150 feet of streams, tributaries, ponds, lakes, seeps, or wetland areas.
- vi. Sludge shall be incorporated into the soil within 24 hours of spreading unless an exemption is granted by the Planning Board under 14.4.3.d of this section.

14.4.7 Sludge Management Requirements:

- a. Transportation:
 - i. Any person transporting sludge shall ensure that all vehicles are covered so as to not create odors or a public health hazard;
 - ii. Sludge being transported to a land application or stockpiling site shall meet Class B pathogen requirements prior to being transported.

b. Stockpiling:

- i. No person shall stockpile sludge which has not met Class B pathogen reduction requirements;
- ii. No person shall stockpile sludge at a land application site for longer than ninety (90) days;
- iii. Any person stockpiling sludge for longer than 7 days shall cover the stockpile with an odor control material, such as lime, wood ash or cement kiln dust, to minimize odors;
- iv. Sludge shall be stockpiled as far as possible from any dwelling or well, but in no case closer than 500 feet.

c. Sludge Quality Certification:

- i. Prior to stockpiling or land application of any sludge, the person proposing to undertake the activity shall obtain a sludge quality certification as specified in this section.
- ii. To apply for a sludge quality certification, the person shall submit the following to the appropriate State or Federal Agency as applicable:
 1. Name and address of the treatment facility, which has generated or will generate the sludge;
 2. Name, title, and telephone number of the person who is responsible for the operation of the treatment facility;
 3. Description of all wastewater contributors and the chemical constituents of their wastewater;
 4. The volume of sludge generated monthly by the treatment facility for the last two years;
 5. The discharge monitoring reports from the treatment facility for the last two years;
 6. A description of the process to achieve Class A and B pathogen reduction requirements;
 7. A priority pollutant scan of the sludge from the treatment facility taken within the last six months;
 8. An analysis of at least three representative samples of sludge from the treatment facility, taken at least 30 days apart within the last 6 months, for the following:
 - a. Arsenic, measured as mg/kg;
 - b. Cadmium, measured as 25mg/kg;
 - c. Chromium, measured as mg/kg;
 - d. Copper, measured as mg/kg;
 - e. Percent dry solids;
 - f. pH;

- g. Lead, measured as mg/kg;
- h. Mercury, measured as mg/kg;
- i. Molybdenum, measured as mg/kg;
- j. Nickel, measured as mg/kg;
- k. Percent ammonia nitrogen;
- l. Percent nitrate-nitrite;
- m. Percent total kjeldahl nitrogen;
- n. Percent organic nitrogen;
- o. Selenium, measured as mg/kg; and
- p. Zinc measured as mg/kg.

- 9. Each application shall be submitted in compliance with applicable State and Federal regulations.

14.4.8 Testing: The Town of Stratham reserves the right to require security in accordance with RSA 674:44 to insure the proper management and application of septage and sludge. In the event that the Planning Board and/or the Board of Selectmen question the accuracy and authenticity of the materials being stockpiled and/or applied, they shall have the authority to have an independent consultant review any or all aspects of the septage and/or sludge operation at the owner's sole expense.

SECTION XV: GROWTH MANAGEMENT & INNOVATIVE LAND USE CONTROL (Rev 3/03, 3/11)

15.1 AUTHORITY

The Section is enacted in accordance with both RSA 674:21 and 674:22.

15.2 PURPOSES

The purposes of this section of the Zoning Ordinance are as follows:

- a. Establish a long-range growth management process to access and balance community development needs and consider regional development needs.
- b. Determine, monitor, evaluate, and establish a rate of residential growth in the Town that does not unreasonably interfere with the Town's capacity for planned, orderly, and reasonable expansion of its services to accommodate such growth.
- c. Provide a mechanism to allow for phased development of residential projects to manage the impact on municipal services.
- d. Provide a mechanism when municipal services are strained or overloaded to reduce the rate of residential growth to allow the Town time to correct any deficiencies that have developed.
- e. Protect the health, safety, convenience, and general welfare of the Town's residents.

15.3 FINDINGS

The Town hereby finds that:

- a. The rate of population growth in the Town of Stratham has been among the fastest of any town in the immediate area, in Rockingham County, and in the State of New Hampshire.
- b. The Planning Board has prepared and adopted a Master Plan in accordance with NH RSA 674:3, 674:4 & 675:6
- c. The Planning Board has prepared and adopted a Capital Improvements Program (CIP) in accordance with NH RSA 674:5 – 674:8 & 675:6. This CIP is updated and amended annually by the Planning Board.
- d. The Planning Board implemented a plan for the periodic reporting of the increase in dwelling units, the issuance of building permits for new construction, the increase in school population, the capacity of municipal services, and other indicators of increase growth.

15.4 INDICATORS OF GROWTH IMPACT

The Town hereby determines that the presence of the following conditions will constitute an indicator of growth impact. An indicator of growth impact occurs when:

- a. The average annual percent increase in building permits for dwelling units in Stratham for the past five years exceeds the same average of the combined six abutting communities.
- b. The average annual percent population growth in the Town of Stratham as reported by the Office of State Planning exceeds the same average of the combined six abutting communities.
- c. The number of students enrolled or projected for the coming year for any public school in the Stratham School System exceeds 85 percent of its stated capacity.
- d. The annual full value tax rate of Stratham as reported by the New Hampshire Department of Revenue Administration exceeds the average rate of the combined six abutting communities or Rockingham County for the reporting year.
- e. The number of dwelling units of all projects combined, for which approval is being sought from the Board, at any time of reporting, if approved could result in the conditions defined by a., b., c., or d. above.
- f. The number of public students enrolled or projected for the coming year for each school in the Stratham School System exceeds 100 percent of its stated capacity.
- g. The annual capital expenditures including debt service and capital outlay for combined municipal and school department expenditures exceed 20 percent of the total municipal and school department expenditures combined.

15.5 PLANNING BOARD MONITORING

It is the responsibility of the Planning Board to monitor growth in the Town and to report on the following:

15.5.1 Annual Reporting:

- a. The Planning Board will by January 31st of each year report on the total number of dwelling units existing at the end of its previous calendar year. Existing units means all those units previously constructed and occupied plus those units constructed and from which Certificates of Occupancy were issued in the reporting year. In the same report, the Planning Board shall report on the status, as appropriate, of any phasing requirements or permit limitations in force in the reporting period.
- b. The Planning Board will by January 31st of each year report also report on the “indicators of growth impact” as determined in 15.4. This report shall indicate which growth indicators have been triggered.

15.5.2 Periodic Reporting: The Planning Board may at any time it determines it appropriate or necessary, issue written reports on the status of growth activity in the Town covering such topics as the number of dwelling units or lots being proposed for approval, or for which building permits are being sought, the condition and capacity of any municipal or school facility, the tax burden existing or anticipated on the Town's residents and/or any other topic affecting or related to the growth or finances of the Town.

15.5.3 Notice of Growth Impact: The Planning Board may at any time issue a Notice of Growth Impact, if it has determined, through 15.5.1 or 15.5.2, that any of the conditions in 15.4

exist. Said Notice would include a statement of whether those conditions could result in either 15.6 Phasing or 15.7 Permit Limitations.

Pursuant to the monitoring in 15.5.1, 15.5.2, or 15.5.3, the Planning Board shall make appropriate findings of fact, make recommendations for action, or take actions provided for in Section XV of the Zoning Ordinance as a result of its monitoring and reporting responsibilities.

15.6 PHASING OF DEVELOPMENTS

If the Planning Board, through its monitoring, finds that indicator 15.4 a., b., c., d., or e. has occurred, then the Planning Board may at its discretion issue a Notice of Growth Impact in conformance with 15.5.3 to the Board of Selectmen, the Building Inspector, and the general public by posting a notice in the Town Hall. The phasing of future residential developments, as provided in RSA 674:21, is to prevent a strain on municipal services and therefore, to provide for orderly growth in Town. Phasing may be implemented as provided below:

- 15.6.1 Phasing Required: The Planning Board may require the phasing of a development for a period up to or less than five years for a project which is proposed to have 50 dwelling units (lots) or less. For a project larger than 50 units or lots, the Planning Board may require a longer or shorter period of phasing based on the size of the project and the potential impact of the number or type of units on the municipal services of the Town. The Planning Board shall make appropriate findings of fact to substantiate the need, time, and limit for required phasing based on the size of the project and the potential impact from the number or type of units on municipal services.
- 15.6.2 Effect of Phasing: Once a phasing plan has been approved by the Planning Board, the project shall not be affected by any permit limitations subsequently enacted under the provisions of Section 15.8.4 of this Ordinance, provided that the developer secures permits for and begins substantial construction on the project on the units in each yearly phase. In the event that substantial construction is not undertaken in any yearly phase, then the vesting of that phase shall be forfeited and the developer shall be subject to any limitations imposed by 15.8.4. For the purpose of this Section, substantial construction shall mean either (a) all dwelling units in that phase are constructed to a weather tight condition or (b) 50 percent of all dwelling units in that phase are completed and a Certificate of Occupancy has been given.
- 15.6.3 Termination of Phasing: The above constraints shall be removed when the Planning Board determines in its 15.5 monitoring procedures that phasing is no longer necessary.

15.7 LIMITING THE ISSUANCE OF PERMITS

If the Planning Board finds through its monitoring that indicator 15.4 either a., b., c., d., or e., plus one or more of indicators f. or g. has occurred, then the Planning Board may at its discretion issue a Notice of Growth Impact in conformance with 15.5.3 to the Board of Selectmen, the Building Inspector, and the general public by posting a notice in the Town Hall. The annual permit limitation of residential developments, as provided in RSA 674:21, is to prevent a strain on municipal services and therefore, to provide for orderly growth in Town. Permit limitations may be implemented as provided below:

- 15.7.1 Interim Permit Limitations: Once a Notice of Growth Impact is issued, then no residential building permits shall be approved by the Building Inspector until after the hearing in Section 15.8 is held and until after the Planning Board has set the number of permits delineated in 15.8. The Planning Board has set the number of permits within 45 days of the Notice of Growth Impact being issued.

15.8 PROCEDURES FOR PHASING AND PERMIT LIMITATIONS

Once a Notice of Growth Impact pursuant to 15.5.3 has been issued, then the following procedures will be observed:

- 15.8.1 Planning Board Findings: The Planning Board will issue appropriate findings of fact to accompany any Notice of Growth Impact issued pursuant to 15.5.3.
- 15.8.2 Public Hearing: Prior to invoking 15.6 Phasing or 15.7 Permit Limitations, the Planning Board shall hold a public hearing with ten days notice to seek input from the general public.
- 15.8.3 Determination of Action: After a public hearing in Section 15.8.2, the Planning Board shall deliberate and decide whether (a) phasing should be invoked (b) permit limitations should be imposed or (c) other appropriate action, and issue its decisions. Any decision will be issued within 45 of the Notice of Growth Impact.
- 15.8.4 Permit Limitations: The following provisions shall apply:
- a. The Planning Board as part of its decisions may specify what limitations are necessary in the issuance of permits for residential units up until and during any corrective action is taken by the Town and/or School District. In determining the number of permits to be issued, the Planning Board shall consider the severity of the municipal service burden, the amount of capacity remaining in the service, and the amount of time needed to correct the service problem. After determining those facts, the Planning Board shall set the number of dwelling unit permits that can reasonably be issued on an annual basis.
 - b. After the public hearing, the Planning Board shall set the number of permits to be issued for the one-year period following enactment of the limit or such other shorter period as may be desirable. At the end of the year or such other shorter period, the Planning Board shall hold a hearing to determine if the permit limitation should be removed or altered. After making findings of fact, the Planning Board may (a) extend the permit limitation, (b) alter the permit limitation, or (c) remove the permit limitation.
- 15.8.5 Phasing: The Planning Board as part of its decision may require phasing in accordance with the provisions of Phasing 15.6.
- 15.8.6 Equitable Distribution: In order to insure equitable distribution of available permits, no individual, partnership, corporation, or other entity or its related or affiliated entities or in the case of individuals their relatives or persons associated in business may receive more than 10 percent of the permits or permits for eight units, whichever is less, available during the limitation period.

- a. The Building Inspector shall consult with the Planning Board, and the Planning Board shall devise an administrative procedure necessary to insure equitable distribution of available dwelling unit permits under guidelines expressed above.
- b. No application for a building permit will be accepted from any person who, in an attempt to avoid the building permit limitations of this Ordinance, has failed to pay fair consideration as defined by RSA 545:3 or any other person or entity who has the purpose of evasion of the limitations of Section 15 of this Ordinance.

15.9 SEVERABILITY (Added 3/11)

Should any part of this ordinance be held invalid or unconstitutional by a court, such holding shall not affect, impair or invalidate any other part of this ordinance, and, to such end. All articles, sections and provisions of this ordinance are declared to be severable.

15.10 EFFECTIVE DATE (Added 3/11)

Adoption of this ordinance includes the repeal of all prior growth management ordinances currently in effect. This ordinance becomes effective upon adoption and shall be reviewed by the Planning Board annually, to determine if the ordinance shall be relaxed or ended.

15.11 SUNSET (Added 3/11)

This ordinance shall expire on March 31, 2014 unless amended to remain in effect beyond that date.

SECTION XVI: ADMINISTRATION**16.1 POWER AND AUTHORITY**

For the purpose of this Ordinance, the Board of Selectmen is hereby given the power to appoint a Building Inspector and Code Enforcement Officer who shall perform the duties of their positions as designated in the various provisions of this Ordinance. The Building Inspector shall make inspections of all buildings in process of building and reconstruction. Both the Building Inspector and Code Enforcement Officer are responsible for reporting all Ordinance and code violations to the Board of Selectmen. In the absence of a Building Inspector and Code Enforcement Officer, the Board of Selectmen shall be given the powers and duties of the Building Inspector and Code Enforcement Officer as enumerated herein. (Rev. 3/94)

16.1.1 **Building Inspector:** The duty of administering and enforcing the provisions of this Ordinance and the current Stratham Building Code is hereby conferred upon the Building Inspector. (Rev. 3/88, Rev. 3/02) It shall be the duty of the Building Inspector to:

- a. Review all applications for building, demolition, or other permits to determine that the purpose for which the permit is sought will conform to the provisions of this Section and issue permits if appropriate;
- b. Investigate promptly all possible Zoning Ordinance violations and report his/her findings in writing to the Board of Selectmen.

16.1.2 **Building Code:** All multi-family dwellings shall be constructed in conformance with the current Stratham Building Code and current NFPA-13 and 13D standards. (Rev. 3/88, Rev. 3/02)

16.1.3 **Code Enforcement Officer:** (Rev. 3/94) The duty of administering and enforcing the provisions of this Ordinance is hereby conferred upon the Code Enforcement Officer. It shall be the duty of the Code Enforcement Officer to:

- a. Enforce the provisions of the Stratham Zoning Ordinance including ordinances relating to: dimensional requirements for building lots, lot coverage requirements, septic system placement and replacement, signs, parking, wetlands, floodplains, shorelands, aquifers, and wellhead protection;
- b. Investigates un-permitted and/or illegal construction/conversions/activities/apartments/ uses per the Zoning Ordinance or other codes; and issues cease and desist orders for Ordinance and other code violations;
- c. Collects and keeps accurate records of fees and other reports required;
- d. Coordinates, assists and supports other Town departments and officials, as required;
- e. Answers questions of the public and directs them to the appropriate authority, if required.

16.2 BUILDING PERMITS

The following conditions shall be observed.

- 16.2.1 Permit Required: Any person before commencing work on the erection or alteration of any building or structure must first obtain a permit duly granted for such erection or alteration by the Building Inspector. Before a permit shall be issued by the Building Inspector, he shall determine whether the proposed construction or alteration conforms to all the conditions of this Ordinance.
- 16.2.2 Actions Limited: No excavation for foundation nor the erection, construction or structural alteration of any structure or part of any structure shall be undertaken until a permit is issued by the Building Inspector. No such permit shall be issued before application has been made for a certificate of occupancy.
- 16.2.3 Compliance: No building permit may be issued for any premises unless the buildings and other structures and use of the premises comply with the provisions of this Ordinance or the terms of a variance granted by the Board of Adjustment; provided that a permit may be issued when the effect of the construction, reconstruction or alteration is to eliminate all violations of this Section on the premises.
- 16.2.4 Other Approvals: No building permit may be issued unless all necessary subdivision, site plan review, variance, and/or special exception approvals have been issued.
- 16.2.5 Pending Changes: The Building Inspector shall not issue any building permit where application for such permit is made after the first legal notice of proposed changes in the building code has been posted pursuant to the provisions of RSA 156-A:1-a or 156-A:1-b, or the first legal notice of proposed changes in the Zoning Ordinance has been posted pursuant to the provisions of RSA 674:16-18, if the proposed changes in the building code or Zoning Ordinance would, if adopted, justify refusal of such a permit. After final action has been taken on the proposed changes in the building code or the Zoning Ordinance, the Building Inspector shall issue or refuse to issue such a permit, which has been held in abeyance pursuant to this Subsection.
- 16.2.6 Exemptions: The construction of small accessory buildings, under one hundred (100) square feet, together with minor alterations, repairs, and general upkeep of existing buildings shall be exempt from the provisions of Section 16.2.1. The placing of transient recreational vehicles in recreational camping parks or recreational areas is exempt from the provisions of Section 16.2.1.
- 16.2.7 Final Inspection: Upon completion of the construction authorized by a local Building Permit, the permit grantee shall return the permit to the Building Inspector. The Building Inspector will then make a final inspection of the authorized work in order to ensure compliance with this Ordinance and all applicable codes. (Rev. 3/94)

16.3 CERTIFICATE OF OCCUPANCY

The following conditions shall be observed.

- 16.3.1 Certificate Required: No structure intended for occupancy (whether residential or non-residential) shall be occupied or changed in use until a certificate of occupancy is issued by the Building Inspector. (Rev. 3/94)
- 16.3.2 Approval Before Occupancy: A certificate of occupancy for the use or occupancy of vacant land or for a change in the use of the land or for a change in the use of an existing building shall be applied for and issued before any such land shall be occupied or used or such land or building changed in use and such certificate shall be issued within ten days

after application has been made providing such proposed use is in conformity with the provisions of this Ordinance.

16.3.3 **Compliance:** No certificate of occupancy shall be issued for any premises unless the proposed use of the land, buildings, driveway and other structures thereon comply with:

- a. The provisions of this Ordinance or the terms of a variance and/or special exception issued by the Board of Adjustment;
- b. The provisions of a subdivision and/or site plan review approval;
- c. All applicable housing, health, fire, safety, building codes, and ordinances;
- d. The provisions required for the issuance of a Town Driveway Permit. (Rev. 3/91)

16.4 PROCEDURES FOR PERMITS

The following procedures shall be followed for a building and/or certificate of occupancy permits.

16.4.1 **Applications:** Applications for building permits, driveway permits, and certificates of occupancy must be made by the owner of the premises or his/her authorized agent. Applications for building permits and certificates of occupancy shall be in writing on forms prescribed by the Building Inspector.

16.4.2 **Supporting Materials:** All applications for building permits shall be accompanied by a plat in duplicate drawn to scale showing the actual dimensions of each lot to be built upon. The size and location of each building to be erected upon each lot and such other information as may be necessary to enable the Building Inspector to determine the proposed structure and use of land will conform to the provisions of this Ordinance. All building plans will be submitted with applications for building permits. These plans will be submitted to a plan review agency to assure that the building codes are met. The expense incurred will be paid by the applicant. The Board of Selectmen or Building Inspector may waive this policy. (Rev. 3/88)

16.4.3 **Records:** (Amended 3/04) A record of all building permits and certificates of occupancy shall be kept on file in the office of the Building Inspector as set forth in NH RSA 33-A and Municipal Records Board department rules Mur 300 **MUNICIPAL RECORDS**. The substance and form of any and all records shall be determined by the Building Inspector, and as may be required by state and local regulations, and a copy shall be furnished on request to any person as required under NH RSA 91-A:4 and applicable Town Policies as may from time to time be amended.

16.5 HISTORIC DEMOLITION REVIEW (3/07)

16.5.1 **Definitions:** As used in this section, the following words or phrases shall have the meanings set forth below, except when the context in which they are used requires a different meaning:

- a. **Building:** Building is defined as any structure used or intended for supporting or sheltering any use or occupancy.
- b. **Demolition Review Committee:** A committee of the Stratham Heritage Commission comprised of three (3) members of the commission and two (2) alternates appointed

by the chair of the commission. Any conflict of interest by a member shall be determined as set forth in NH RSA 673:14.

- c. Demolition: The act of pulling down, destroying, removing, or razing a building or commencing the work of total or substantial destruction with the intent of completing the same.

16.5.2 Criteria:

Any building or part of a building in the Town of Stratham will fall under the terms of this article where:

- a. The proposed demolition is greater than five hundred (500) square feet of gross floor area; and
- b. The building(s) is assumed to have been constructed more than fifty (50) years before the date of application for demolition permit; and
- c. The building is visible from the adjacent public right-of-way or public lands or is listed or is eligible for listing in the National Register of Historic Places or state or local historic registers.

16.5.3 Procedure:

When an application for a demolition permit, or a building permit involving demolition, or a site plan review involving demolition is made, or a formal written application is submitted to the Building Inspector or Code Enforcement Officer for a determination under this article, the Code Enforcement Officer will determine if the building, or section of the building, meets the above criteria. If it does, the Code Enforcement Officer shall:

- a. Forward a copy of the application to the demolition review committee.
- b. Within five business days of its receipt of a copy of the application, the committee shall issue a preliminary recommendation regarding the granting of a demolition permit. If the committee issues a recommendation in favor of the granting of such a permit, a demolition permit shall be issued. If the committee determines the building to be potentially significant, no permit shall be issued until a more thorough investigation is undertaken and a final written recommendation is provided by the committee to the Code Enforcement Officer. Investigation and recommendation shall be completed within 30 calendar days of the committee's receipt of a copy of the application.
- c. During the maximum 30 calendar-day-period, the committee shall meet with the property owner and conduct such public hearings and investigations as it may determine to be necessary in the formulation of its written recommendation regarding the granting of such permit. The committee shall consider the following criteria in its deliberation:
 - i. The building or structure is of such interest or quality that it would meet national, state or local criteria for designation as a historic, cultural, or architectural landmark.
 - ii. The building or structure is of such unusual or uncommon design, texture, or materials that it could not be reproduced or could be reproduced only with great difficulty and expense.

- iii. The building or structure is of such architectural or historic interest that its removal would be to the detriment of the public interest.
- iv. Retention of the building or structure would help preserve and protect a historic place or area of historic interest in the town.

16.5.4 Demolition Review Committee Responsibilities:

It is the responsibility of the Demolition Review Committee to:

- a. Make a decision within five business days of receipt of the demolition application as to whether the building might be significant and preferably preserved within the standards and specifications provided above. If no decision is made within five business days, the application will be deemed to be approved and the permit may be issued.
- b. Hold a meeting between the demolition review committee and the applicant (or applicant's representative) to discuss alternatives to demolition if the committee determines the building is significant and its loss potentially detrimental to the community.

16.5.5 Demolition:

- a. If no alternatives to demolition have been identified and agreed to by the applicant after the meeting provided for in the preceding section, the applicant is free to proceed with demolition provided a permit is issued. (The Code Enforcement Officer/Building Inspector shall issue a permit if all other typical application requirements have been met.) Prior to demolition, and if the applicant is in agreement, the demolition review committee shall photographically document the building. The committee shall also encourage the applicant to salvage significant architectural features.
- b. Nothing in this article shall be construed to prevent immediate demolition where the public safety is at stake and the building has been determined by the Code Enforcement Officer to be a public hazard and demolition is the only viable recourse.

SECTION XVII: BOARD OF ADJUSTMENT (Rev. 3/11)**17.1 POWERS**

The Board of Adjustment shall have the powers and duties specifically granted to it under RSA 674:33.

17.2 MEMBERSHIP

The Board of Adjustment shall consist of five regular members and up to three alternate members who shall be appointed by the Board of Selectmen and be residents of the community as provided by the New Hampshire Revised Statutes Annotated under RSA 673:3 and 673:6.

17.3 RULES

The Board of Adjustment shall adopt rules and regulations governing meetings, hearings, fees, and other matters for the proper functioning of the Board. The Board shall adopt its own rules of procedure and shall keep a record of its proceedings showing the vote, indicating such fact and shall keep records of its examinations and other official actions. Every rule or regulation, every amendment or repeal thereof, and every order, requirement, decision or determination of the Board shall immediately be filed in the office of the Board and become a matter of public record.

17.4 MEETINGS

Meetings of the Board of Adjustment shall be held upon the call of the Chairman. All meetings shall be opened to the public.

17.5 APPLICATIONS

Applications appealing an administrative decision, seeking a special exception, or requesting a variance shall be in writing, shall be signed by the property owner/applicant, shall be accompanied by such fees as the Board deems necessary to defray its costs in processing the application, and shall be accompanied by a drawn to scale plan of the property in question. The property plan shall contain such information as the Board determines to be necessary for it to reach a decision. In appropriate cases the Board may require that the plan be prepared by a registered professional engineer or registered land surveyor. The application shall list the name and current mailing addresses of each abutter to the property in question.

17.6 HEARING NOTICE

The Board of Adjustment shall hold a public hearing on each application. Notice thereof shall be given as follows:

- 17.6.1 Mail: The applicant and all abutters shall be notified of the public hearing by certified mail, stating the time and place of the hearing, and such notice shall be given not less than five days nor more than thirty days before the date fixed for the hearing of the appeal. (Rev. 3/92)
- 17.6.2 Public Notice: A public notice of the hearing shall be posted at the Town Hall and one other public place and shall be published in a newspaper with a general circulation in the area, not less than five nor more than thirty days before the date fixed for the hearing of the appeal.
- 17.6.3 Costs: The cost of advertising and the cost of mailing the notices of hearing shall be payable prior to the hearing by the person making the appeal.

17.7 HEARINGS

Hearings before the Board shall be conducted by the Chairperson, or, in his/her absence the Acting Chairperson, who may administer oaths and compel the attendance of witnesses. At all hearings before the Board, the burden shall be upon the applicant to establish that the administrative decision appealed from is erroneous; or show that the applicant has met the conditions established for a special exception; or to show that the applicant has met the criteria for granting a variance. Abutters and residents of the Town shall be permitted to speak on behalf of or against the appeal and to present evidence orally and/or in writing in support of their position.

The Board in accordance with the provisions of this Ordinance may reverse or affirm, wholly or partly, or may modify any such order, requirements, decision or determination made by the Building Inspector and/or Code Enforcement Officer. The concurring vote of three members of the Board shall be necessary to reverse or modify any order, requirement, decision or determination of the Building Inspector and/or Code Enforcement Officer to decide in favor of the appellant on any matter upon which it is required to pass or to effect any variance from the strict applications of the provisions of this Ordinance. (Rev. 3/95)

17.8 SCOPE OF REVIEW

The Board of Adjustment shall hear and decide appeals de novo from the decisions or orders of the Building Inspector and/or Code Enforcement Officer, requests for special exceptions as provided for in this Ordinance, and requests for variances to the terms of this Ordinance in accordance with the provisions delineated herein. (Rev. 3/95)

- 17.8.1 Administrative Appeals: The Board shall hear and decide appeals from the decisions or orders of the Building Inspector and/or Code Enforcement Officer concerning administration or enforcement of this Ordinance. Applications for appeal of a decision of the Planning Board must be filed within thirty (30) days from the issuance of the decision. Applications for appeal of an order from the Building Inspector and/or Code Enforcement Officer must be filed within seven (7) days of the order. (Rev. 3/95, 3/00)
- 17.8.2 Special Exceptions: The Board shall hear and decide requests for special exceptions provided for in this Ordinance. The Board shall grant requests for special exceptions which are in harmony with the general purpose and intent of this Ordinance and meet the standards of this Subsection. Appropriate conditions as set forth in Subsection 17.8.2.b.

may be placed on special exception approvals when necessary. The Board shall deny requests for special exceptions that do not meet the standards of this Section.

- a. Special Exceptions: shall meet the following standards:
 - i. Standards provided by this Ordinance for the particular use permitted by special exception;
 - ii. No hazard to the public or adjacent property on account of potential fire, explosion, or release of toxic materials;
 - iii. No detriment to property values in the vicinity or change in the essential characteristics of a residential neighborhood on account of the location or scale of buildings and other structures, parking area, access ways, odor, smoke, gas, dust, or other pollutant, noise, glare, heat, vibration, or unsightly outdoor storage of equipment, vehicles or other materials;
 - iv. No creation of a traffic safety hazard or a substantial increase in the level of traffic congestion in the vicinity;
 - v. No excessive demand on municipal services, including, but not limited to, water, sewer, waste disposal, police and fire protection, and schools;
 - vi. No significant increase of storm water runoff onto adjacent property or streets.
- b. Special Exception Approvals: may be subject to appropriate conditions including the following:
 - i. Front, side, or rear yards in excess of the minimum requirements of this Ordinance;
 - ii. Screening of the premises from the street or adjacent property by walls, fences, or other devices;
 - iii. Modification of the exterior features or buildings or other structures;
 - iv. Reasonable limitations on the number of occupants and methods and times of operation;
 - v. Grading of the premises for proper drainage;
 - vi. Regulation of design of access drives, sidewalks, and other traffic features;
 - vii. Regulation of the number, size, and lighting of signs more stringent than the requirements of this Ordinance.

17.8.3 Variances: (Rev. 3/11)

- a. As provided for in NH RSA 674:33-I(a), the Board of Adjustment shall hear and decide requests to vary the terms of this Ordinance. At the hearing on the application, the applicant shall present testimony and other evidence to establish that the conditions for a variance have been met. The decision of the Board shall be based on the evidence both written and oral which shall be presented at the hearing and as may be contained in the application. Abutters and residents shall be entitled to present testimony and other evidence to establish that the applicant either has or has not met all of the listed conditions as stated below.
- b. No variance shall be granted unless all of the following conditions are met:

- i. The variance will not be contrary to the public interest.
 - ii. The spirit of the ordinance is observed.
 - iii. Substantial justice is done.
 - iv. The values of surrounding properties are not diminished, and
 - v. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship.
1. For purposes of this subparagraph, “unnecessary hardship” means that, owing to special conditions of the property that distinguish it from other properties in the area:
 - a. No fair and substantial relationship exists between the general public purposes of the ordinance provision and the specific application of that provision to the property; and
 - b. The proposed use is a reasonable one.
 2. If the criteria in subparagraph 1. are not established, an unnecessary hardship will be deemed to exist if, and only if, owing to special conditions of the property that distinguish it from other properties in the area, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it.
 3. The definition of “unnecessary hardship” set forth in this section shall apply whether the provision of the ordinance from which a variance is sought is a restriction on use, a dimensional or other limitation on a permitted use, or any other requirement of the ordinance.

17.9 FINDINGS OF FACT

The Board of Adjustment shall present findings of fact for all its decisions and shall enter such findings in its records.

17.10 REPRESENTATIONS

Representations made at the public hearing or material submitted to the Board by an applicant for a special exception or variance concerning features of proposed buildings, structures, parking, or use which are subject to regulation pursuant to Subsection 17.8.2 or 17.8.3 shall be deemed conditions upon such special exception or variance.

SECTION XVIII: FLOODPLAIN MANAGEMENT DISTRICT (OVERLAY)**(Enacted 3/89, Rev. 3/00)**

This ordinance, adopted pursuant to the authority of RSA 674:16 shall be known as the Town of Stratham Floodplain Development Ordinance. The regulations in this ordinance shall overlay and supplement the regulations in the Town of Stratham Zoning Ordinance, and shall be considered part of the Zoning Ordinance for purposes of administration and appeals under state law. If any provision of this ordinance differs or appears to conflict with any provision of the Zoning Ordinance or other ordinance or regulation, the provision imposing the greater restriction or more stringent standard shall be controlling.

The following regulations shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency (FEMA) in its "Flood Insurance Study for the County of Rockingham, NH" dated May 17, 2005 or as amended together with the associated Flood Insurance Rate Maps (FIRM), effective date May 17, 2005 or as may be amended, which are declared to be a part of this Ordinance and are hereby incorporated by reference."

18.1 DEFINITIONS

- 18.1.1 Area of Special Flood Hazard: is the land in the floodplain within Stratham subject to a one percent or greater chance of flooding in any given year. The area may be designated on the FIRM as zones A and AE.
- 18.1.2 Base Flood: means the flood having a one percent chance of being equaled or exceeded in any given year.
- 18.1.3 Basement: means any area of the building having its floor subgrade (below ground level) on all sides.
- 18.1.4 Breakaway Wall: means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or supporting foundation.
- 18.1.5 Building: (see Structure, Section 18.1.28).
- 18.1.6 Building Inspector: means the Town Building Inspector or his agent.
- 18.1.7 Development: means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.
- 18.1.8 FEMA: means the Federal Emergency Management Agency.
- 18.1.9 Flood or Flooding: means a general and temporary condition of partial or complete inundation of normally dry land areas from:
- a. The overflow of inland or tidal water.
 - b. The unusual and rapid accumulation or runoff of surface waters from any source.
- 18.1.10 Flood Elevation Study: means an examination, evaluation, and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) and/or flood-related erosion hazards.

- 18.1.11 Flood Insurance Rate Map: (FIRM) means an official map of a community, on which FEMA has delineated both the special flood hazard areas and the risk premium zones applicable to the community.
- 18.1.12 Flood Insurance Study: (see Flood Elevation Study, Section 18.1.10).
- 18.1.13 Floodplain or Flood-Prone Area: means any land area susceptible to being inundated by water from any source. See definition of Flooding (18.1.9).
- 18.1.14 Floodproofing: means any combination of structural and non-structural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.
- 18.1.15 Floodway: see Regulatory Floodway (18.1.24).
- 18.1.16 Functional Dependent Use: means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking and port facilities that are necessary for the loading/unloading of cargo or passengers, and ship building/repair facilities but does not include long-term storage or related manufacturing facilities.
- 18.1.17 Highest Adjacent Grade: means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.
- 18.1.18 Historic Structure: means a structure that is:
- a. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
 - b. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
 - c. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior, or;
 - d. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
 - i. By an approved state program as determined by the Secretary of the Interior, or;
 - ii. Directly by the Secretary of the Interior in states without approved programs.
- 18.1.19 Lowest Floor: means the lowest floor of the lowest enclosed areas (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this Ordinance.
- 18.1.20 Manufactured Home: means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management

- purposes, the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days.
- 18.1.21 Mean Sea Level: means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.
- 18.1.22 100-Year Flood: (see Base Flood, Section 18.1.2).
- 18.1.23 Recreational Vehicle: means a vehicle which is (i) built on a single chassis, (ii) 400 square feet or less when measured at the largest horizontal projection; (iii) designed to be self-propelled or permanently towable by a light duty truck; and (iv) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal uses. (Rev. 3/94)
- 18.1.24 Regulatory Floodway: means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot at any point. These areas are designated as floodways on the Flood Boundary and Floodway Maps.
- 18.1.25 Riverine: means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.
- 18.1.26 Special Flood Hazard Area: means an area having special flood, mudslide (i.e., mudflow) and/or flood-related erosion hazards and shown on the FIRM as Zone A and AE. See Area of Special Flood Hazard (18.1.1).
- 18.1.27 Start of Construction: includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.
- 18.1.28 Structure: means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.
- 18.1.29 Substantial Damage: means damage or any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.
- 18.1.30 Substantial Improvement: means any combination of repairs, reconstruction, alteration, or improvements to a structure in which the cumulative cost equals or exceeds fifty percent of the market value of the structure. The market value of the structure should be:
- a. The appraised value of the structure prior to the start of the initial repair or improvement, or:

- b. In the case of damage, the value of the structure prior to the damage occurring. For purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred substantial damage, regardless of actual repair work performed. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a structure listed on the National Register of Historic Places, provided that the alteration will not preclude the structure's continued designation as a 'historic structure'.

18.1.31 Water Surface Elevation: means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

18.2 PERMIT APPLICATION

All proposed development in any special flood hazard areas shall require a Flood Hazard Development Permit. Applications for the Permit shall include the following: general information, site plan, surveyor's certification, building plans, certified floodproofing methods for non-residential structures, etc. Applications for the Permit can be obtained from the Town office. A fee of \$10.00 shall be charged for each permit, payable to the Building Inspector.

18.3 DESIGN CRITERIA

The Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a flood-prone area, all new construction and substantial improvements shall:

- a. Be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;
- b. Be constructed with materials resistant to flood damage;
- c. Be constructed by methods and practices that minimize flood damage; and
- d. Be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

18.4 SEWER DESIGN

Where new and replacement water sewer systems (including on-site systems) are proposed in flood-prone areas, the applicant shall provide the Building Inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from

the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.

18.5 RECORD OF CONSTRUCTION

The Building Inspector shall maintain for public inspection, and furnish upon request, any certification of floodproofing and the as-built elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement. If the structure has been floodproofed, the as-built elevation (in relation to mean sea level) to which the structure was floodproofed. This information must be furnished by the applicant.

18.6 STATE AND FEDERAL PERMITS

The Building Inspector shall review proposed developments to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. It shall be the responsibility of the applicant to certify these assurances to the Building Inspector.

18.7 WATERCOURSES

- 18.7.1 In reverie situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Bureau of the New Hampshire Environmental Services Department and submit copies of such notification to the Building Inspector. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector.
- 18.7.2 Within the altered or relocated portion of any watercourse, the applicant shall submit to the Building Inspector, certification provided by a registered professional engineer assuring that the flood carrying capacity of the watercourse has been maintained.
- 18.7.3 Along watercourses that have a designated Regulatory Floodway, no encroachments, including fill, new construction, substantial improvements, and other development are allowed within the designated Regulatory Floodway that would result in any increase in flood levels within the community during the base flood discharge. In Zone A, the Building Inspector shall obtain, review, and reasonably utilize any floodway data available from a Federal, State, or other source as criteria for requiring that development meet the floodway requirements of this section.
- 18.7.4 Along watercourses that have not had a Regulatory Floodway designated, no new construction, substantial improvements or other development (including fill) shall be permitted within Zones A1-30 and AE on the FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

18.8 DISTRICT BOUNDARIES AND DESIGN

- 18.8.1 In special flood hazard areas, the Building Inspector shall determine the 100-year flood elevations. The Building Inspector may require a registered New Hampshire surveyor to

delineate the 100-year flood zone, certified in writing. Flood elevations shall be determined in the following order of precedence according to the data available:

- a. In Zone AE, refer to the elevation provided in the community's Flood Insurance Study and accompanying FIRM or FHBM;
- b. In unnumbered A zones, the Building Inspector shall obtain, review, and reasonably utilize any 100-year flood elevation data available from Federal, State, development proposals submitted to the community (example: subdivisions, site approvals, etc.) or other source.

18.8.2 The Building Inspector's 100-year flood elevation determination will be used as criteria for requiring in Zones AE and A that:

- a. All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the 100-year flood elevation;
- b. That all new construction and substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the 100-year flood level; or together with attendant utility and sanitary facilities shall:
 - i. Be flood proofed so that below the 100-year flood elevation the structure is watertight with the walls substantially impermeable to the passage of water;
 - ii. Have structural components capable of resisting hydrodynamic and hydrostatic loads and the effects of buoyancy; and
 - iii. Be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section;
- c. All manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the base flood level; and be securely anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable State and local anchoring requirements for resisting wind forces;
- d. For all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted providing the enclosed areas meet the following requirements:
 - i. The enclosed area is unfinished or flood resistant, usable solely for parking of vehicles, building access, or storage;
 - ii. The area is not a basement;
 - iii. The area shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters.

Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade.

- Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.
- e. All recreational vehicles placed on sites within Zone AE shall either:
 - i. Be on the site for fewer than 180 consecutive days;
 - ii. Be fully licensed and ready for highway use; or
 - iii. Meet all standards of Section 60.3 (b) (1) of the National Flood Insurance Program Regulations and the elevation and anchoring requirements for “manufactured homes” in paragraph (c) of Section 18.8.2

18.9 VARIANCES AND APPEALS

- a. Any order, requirement, decision or determination of the Building Inspector made under this Ordinance may be appealed to the Zoning Board of Adjustment as set forth in NHRSA §676:5.
- b. If the applicant, upon appeal, requests a variance as authorized by NHRSA §674:33, I (b), the applicant shall have the burden of showing in addition to the usual variance standards under state law:
 - i. That the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense;
 - ii. That if the proposed variance is for activity within a designated regulatory floodway, no increase in flood levels during the base flood discharge will result; and
 - iii. That the variance is the minimum necessary, considering the flood hazard, to afford relief.
- c. The Zoning Board of Adjustment shall notify the applicant in writing that: (1) the issuance of a variance to construct below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and (2) such construction shall below the base flood level increases risks to life and property. Such notification shall be maintained with a record of all variance actions.
- d. The Town of Stratham shall (1) maintain a record of all variance actions, including their justification for their issuance, and (2) report such variances issued in its annual or biennial report submitted to FEMA’s Federal Insurance Administrator.

SECTION XIX: TELECOMMUNICATION FACILITIES (Adopted 3/97)**19.1 AUTHORITY**

This ordinance is adopted by the Town of Stratham in accordance with the authority as granted in New Hampshire Revised Statutes Annotated 674:16 and 674:21 and procedurally under the guidance of 675:1, II.

19.2 PURPOSE AND GOALS

This Ordinance is enacted in order to establish general guidelines for the siting of towers and antennas and to enhance and fulfill the following goals:

- 19.2.1 Preserve: The authority of Stratham to regulate and to provide for reasonable opportunity for the siting of telecommunications facilities, by enhancing the ability of providers of telecommunications services to provide such services to the community quickly, effectively, and efficiently.
- 19.2.2 Reduce: Adverse impacts such facilities may create, including, but not limited to; impacts on aesthetics, environmentally sensitive areas, historically significant locations, flight corridors, health and safety by injurious accidents to person and property, and prosperity through protection of property values.
- 19.2.3 Provide: For co-location and minimal impact siting options through an assessment of technology, current locational options, future available locations, innovative sighting techniques, and sighting possibilities beyond the political jurisdiction of the Stratham.
- 19.2.4 Permit: The construction of new towers only where all other reasonable opportunities have been exhausted, and to encourage the users of towers and antennas to configure them in a way that minimizes the adverse visual impact of the towers and antennas.
- 19.2.5 Require: Cooperation and co-location, to the highest extent possible, between competitors in order to reduce cumulative negative impacts upon Stratham.
- 19.2.6 Provide: Constant maintenance and safety inspections for any and all facilities.
- 19.2.7 Provide: For the removal of abandoned facilities that are no longer inspected for safety concerns and Code compliance. Provide a mechanism for Stratham to remove these abandoned towers to protect the citizens from imminent harm and danger.
- 19.2.8 Provide: For the removal or upgrade of facilities that are technologically outdated.

19.3 DEFINITIONS

- 19.3.1 Alternative Tower Structure: Innovative siting techniques that shall mean man-made trees, clock towers, bell steeples, light poles, and similar alternative-design mounting structures that camouflage or conceal the presence of antennas or towers.
- 19.3.2 Antenna: Shall mean any exterior apparatus designed for telephonic, radio, television, personal communications service (PCS), pager network, or any other communications through the sending and/or receiving of electromagnetic waves of any bandwidth.
- 19.3.3 FAA: An acronym that shall mean the Federal Aviation Administration.
- 19.3.4 FCC: An acronym that shall mean the Federal Communications Commission.

- 19.3.5 Height: Shall mean, when referring to a tower or other structure, the distance measured from ground level to the highest point on the tower or other structure, even if said highest point is an antenna.
- 19.3.6 Planning Board: Shall mean the Town of Stratham Planning Board and the regulator of this ordinance.
- 19.3.7 Preexisting Towers and Antennas: Shall mean any tower or antenna lawfully constructed or permitted prior to the adoption of this ordinance. Shall also mean any tower or antenna lawfully constructed in accordance with this ordinance that predates an application currently before the Board.
- 19.3.8 Telecommunications Facilities: Shall mean any structure, antenna, tower, or other device which provides commercial mobile wireless services, unlicensed wireless services, cellular phone services, specialized mobile radio communications (SMR), and personal communications service (PCS), and common carrier wireless exchange access services.
- 19.3.9 Tower: Shall mean any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guy towers, or monopole towers. The term includes radio and television transmission towers, microwave towers, common-carrier towers, cellular telephone towers, alternative tower structures, and the like.

19.4 SITING STANDARDS

- 19.4.1 General: The uses listed in this section are deemed to be permitted uses that may require further review under this ordinance in accordance with Section 19.7: conditional use permits. However, all such uses must comply with other applicable ordinances and regulations of Stratham (including Site Plan Review). The following tables represent the siting standards for the listed uses as delineated by the districts in which they are located in Stratham.
- a. Principal or Accessory Use: Antennas and towers may be considered either principal or accessory uses. A different existing use or an existing structure on the same lot shall not preclude the installation of an antenna or tower on such lot. For purposes of determining whether the installation of a tower or antenna complies with district development regulations, including but not limited to setback requirements, lot-coverage requirements, and other such requirements, the dimensions of the entire lot shall control, even though the antennas or towers may be located on leased parcels within such lots. Towers that are constructed, and antennas that are installed, in accordance with the provisions of this ordinance shall not be deemed to constitute the expansion of a nonconforming use or structure.

19.4.2 Use Districts: (Amended 03-04)

	New Tower Construction¹	Co-location on Pre-existing Tower²	Co-location on Existing Structure³
Industrial Zone:	PCU	P	P
Commercial Zone: (GCN, CLIO, PRE & TC)	S/CU ⁴	P	PCU
Residential Zone:	S/CU ⁴	P	PCU

P = Permitted Use without Conditional Use Permit

PCU = Permitted Use with Conditional Use Permit

CU = Conditional Use Permit

S = Permitted by Special Exception

¹ An antenna may be located on a tower, newly constructed, under this Ordinance.

² An antenna may be located on a preexisting tower, constructed prior to the adoption of this ordinance.

³ An antenna may be located on other existing structures with certain limitations (See 19.4.3 below).

⁴ Additional requirements, which shall be included in any consideration of the location of any facility, shall include the following:

1. Shall be of an "Alternative" type tower structure as defined in the ordinance. Flag, light, or other flush mounted monopole types are recommended for location with any existing or proposed uses.
2. Shall be located as part of an existing municipal, office, commercial, industrial or multi family development which may include residential condominium developments or,
3. All facilities constructed as a camouflaged tree, shall be located on a parcel, which is no less than 10 acres, buffered by and integrated into the surrounding forestscape, and has a forest management plan which shall provide for the long-term protection of any forest buffers of the facility and associated structures.
4. All tower facilities and supporting structures shall be of a type and design to blend into the primary use of the site. It shall be the Planning Boards responsibility to review the architectural design of any and all supporting structures to ensure compatibility with surrounding properties.

- 19.4.3 **Height Requirements:** (Amended 03-04) These requirements and limitations shall preempt all other height limitations as required by the Stratham Zoning Ordinance and shall apply only to telecommunications facilities. These height requirements may be waived through the Conditional Use Permit process only if the intent of the Ordinance is preserved in accordance with 19.8: Waivers (e.g. where a 200' tower would not increase adverse impacts but provide a greater opportunity for co-location).

	New Tower Construction	Co-location on Preexisting Tower	Co-location on Existing Structure
Industrial Zone:	150'	Current Height + 15%	Current Height + 30'
Commercial Zone: (GCN, CLIO, PRE & TC)	150'	Current Height	Current Height + 30'
Residential Zone:	150'	Current Height	Current Height

19.5 **APPLICABILITY**

- 19.5.1 **Amateur Radio; Receive-Only Antennas:** This ordinance shall not govern any tower, or the installation of any antenna that is under 70 feet in height and is owned and operated by a federally-licensed amateur radio station operator or is used exclusively for receive only antennas. This application adopts the provisions and limitations as referenced in RSA 674:16, IV.
- 19.5.2 **Essential Services & Public Utilities:** Telecommunications facilities shall not be considered infrastructure, essential services, or public utilities, as defined or used elsewhere in the Town's ordinances and regulations. Siting for telecommunication facilities is a use of land, and is addressed by this Article.

19.6 **CONSTRUCTION PERFORMANCE REQUIREMENTS**

- 19.6.1 **Aesthetic and Lighting:** The guidelines in this subsection shall govern the location of all towers, and the installation of all antennas. However, the Planning Board may waive these requirements in accordance with Section 19.8: Waivers.
- Towers shall either maintain a galvanized steel finisher, subject to any applicable standards of the FAA, or be painted a neutral color, so as to reduce visual obtrusiveness;
 - At a tower site, the design of the buildings and related structures shall, to the extent possible, use materials, colors, textures, screening, and landscaping that will blend the tower facilities with the natural setting and built environment. These buildings and facilities shall also be subject to all other Site Plan Review Regulation requirements;

- c. If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible;
- d. Towers shall not be artificially lighted, unless required by the FAA or other applicable authority. If lighting is required, the governing authority may review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views;
- e. Towers shall not contain any permanent or temporary signs, writing, symbols, or any graphic representation of any kind.

19.6.2 Federal Requirements: All towers must meet or exceed current standards and regulations of the FAA, FCC, and any other agency of the federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, then the owners of the towers and antennas governed by this ordinance shall bring such towers and antennas into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations, unless a more stringent compliance schedule is mandated by the controlling federal agency. Failure to bring towers and antennas into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna, as abandoned, at the owners expense through the execution of the posted security.

19.6.3 Building Codes-Safety Standards: To ensure the structural integrity of towers and antennas, the owner of a tower shall ensure that it is maintained in compliance with standards contained in applicable local building codes and the applicable standards for towers that are published by the Electronic Industries Association, as amended from time to time. If, upon inspection, the Town concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have 30 days to bring such tower into compliance with such standards. If the owner fails to bring such tower into compliance within 30 days, such action shall constitute an abandonment and grounds for the removal of the tower or antenna, as abandoned, at the owners expense through execution of the posted security.

19.6.4 Additional Requirements for Telecommunications Facilities: These requirements shall supersede any and all other applicable standards found elsewhere in Town Ordinances or Regulations that are less strict:

- a. Setbacks and Separation:
 - i. Towers must be set back a distance equal to 125% of the height of the tower from any off-site residential structure;
 - ii. Tower, guys, and accessory facilities must satisfy the minimum zoning district setback requirements;
 - iii. Towers over 90 feet in height shall not be located within one-quarter mile of any existing tower that is over 90 feet in height.
 - iv. The setback required for any flag, light or other flush mounted monopole type facility shall be no less than that required within the underlying zone for any other

structure after review by the planning board to ensure safe location of such facility.

- v. The Planning Board may after review, require additional setback distances to provide for safety and to reduce impacts to abutting residential properties.
- b. Security Fencing:
 - i. Towers shall be enclosed by security fencing not less than six feet in height and shall also be equipped with an appropriate anti-climbing device.
 - ii. Flag, light or other flush mounted monopole type facility may not require fencing if after review by the planning board they are determined to have been safely integrated into the site.
- c. Landscaping:
 - i. Towers shall be landscaped with a buffer of plant materials that effectively screens the view of the tower compound from adjacent residential property. The standard buffer shall consist of a landscaped strip at least 15 feet wide outside the perimeter of the compound;
 - ii. In locations where the visual impact of the tower would be minimal or in the case of an “Alternative” design structure, the planning board may reduce or waive entirely the landscaping requirement;
 - iii. Existing mature tree growth and natural landforms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large wooded lots, natural growth around the property may be deemed a sufficient buffer.

19.7 CONDITIONAL USE PERMITS

19.7.1 General: All applications under this ordinance shall apply to the Planning Board for Site Plan Review, in accordance with the requirements as provided for in the Town's Site Plan Review Regulations. In addition, applications under this ordinance shall also be required to submit the information provided for in this Section.

19.7.2 Issuance of Conditional Use Permits: In granting the Conditional Use Permit, the Planning Board may impose conditions to the extent the Board concludes such conditions are necessary to minimize any adverse effect of the proposed tower on adjoining properties.

- a. Procedure on application: The Planning Board shall act upon the application in accordance with the procedural requirements of the Site Plan Review Regulations and RSA 676:4.
- b. Decisions: Possible decisions rendered by the Planning Board, include Approval, Approval with Conditions, or Denial. All decisions shall be rendered in writing, and a Denial shall be in writing and based upon substantial evidence contained in the written record.
- c. Factors Considered in Granting Decisions:
 - i. Height of proposed tower or other structure.

- ii. Proximity of tower to residential development or zones.
- iii. Nature of uses on adjacent and nearby properties.
- iv. Surrounding topography.
- v. Surrounding tree coverage and foliage.
- vi. Design of the tower, with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness.
- vii. Proposed ingress and egress to the site.
- viii. Availability of suitable existing towers and other structures as discussed in 19.7.3(c).
- ix. Visual impacts on view sheds, ridgelines, and other impacts by means of tower location, tree and foliage clearing and placement of incidental structures.
- x. Availability of alternative tower structures and alternative siting locations.

19.7.3 Information Required.: Each applicant requesting a Conditional Use Permit under this ordinance shall submit a scaled plan in accordance with the Site Plan Review Regulations and further information including; a scaled elevation view, topography, radio frequency coverage, tower height requirements, setbacks, drives, parking, fencing, landscaping, adjacent uses (up to 200' away), and any other information deemed necessary by the Planning Board to assess compliance with this ordinance. Furthermore, the applicant shall submit the following prior to any approval by the Board:

- a. The applicant shall submit written proof that the proposed use/facility complies with the FCC regulations on radio frequency (RF) exposure guidelines;
- b. The applicant shall submit written proof that an evaluation has taken place, as well as the results of such evaluation, satisfying the requirements of the National Environmental Policy Act (NEPA) further referenced in applicable FCC rules. If an Environmental Assessment (EA) or an Environmental Impact Statement (EIS) is required under the FCC rules and NEPA, submission of the EA or EIS to the Board prior to the beginning of the federal 30-day comment period, and the Town process shall become part of the application requirements;
- c. Each applicant for an antenna and or tower shall provide to the Planning Board an inventory of its existing towers that are within the jurisdiction of the Town and those within two miles of the border thereof, including specific information about the location, height, design of each tower, as well as economic and technological feasibility for co-location on the inventoried towers. The Planning Board may share such information with other applicants applying for approvals or conditional use permits under this ordinance or other organizations seeking to locate antennas within the jurisdiction of the governing authority, provided, however that the Planning Board is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

If the applicant is proposing to build a new tower, the applicant shall submit written evidence demonstrating that no existing structure can accommodate the applicant's proposed antenna. This evidence can consist of:

- i. Substantial Evidence that no existing towers or structures are located within the geographic area required to meet the applicant's engineering requirements, provided that a description of the geographic area required is also submitted;
 - ii. Substantial Evidence that existing towers are not of sufficient height to meet the applicant's engineering requirements, and why;
 - iii. Substantial Evidence that the existing towers or structures do not have sufficient structural strength to support applicant's proposed antenna and related equipment;
 - iv. Substantial Evidence that applicant's proposed antenna would cause electromagnetic interference with the antenna on the existing towers or structures, or the antenna on the existing towers or structures would cause interference with the applicant's proposed antenna;
 - v. Substantial Evidence that the fees, costs, or contractual provisions required by the owner in order to share the existing tower or structure are unreasonable. Costs exceeding new tower development are presumed to be unreasonable;
 - vi. Substantial Evidence that the applicant can demonstrate other limiting factors that render existing towers and structures unsuitable.
- 19.7.4. Co-location Agreement: The applicant proposing to build a new tower, shall submit an agreement with the Town that allows for the maximum allowance of co-location upon the new structure. Such statement shall become a Condition to any Approval. This statement shall, at a minimum, require the applicant to supply available co-location for reasonable fees and costs to other telecommunications providers. Failure to provide such an agreement is evidence of the applicant's unwillingness to cooperate with the orderly and well-planned development of the Stratham.
- 19.7.5 Coverage Engineering: The applicant shall submit the engineering information detailing the size and coverage required for the facility location. The Planning Board may have this information reviewed by a consultant for verification of any claims made by the applicant regarding technological limitations and feasibility for alternative locations. Cost for this review shall be borne by the applicant in accordance with 676:4(I)(g).

19.8 WAIVERS

- 19.8.1 General: Where the Board finds that extraordinary hardships, practical difficulties, or unnecessary and unreasonable expense would result from strict compliance with the foregoing regulations or the purposes of these regulations may be served to a greater extent by an alternative proposal, it may approve waivers to these regulations. The purpose of granting waivers under provisions of these regulations shall be to insure that an applicant is not unduly burdened as opposed to merely inconvenienced by said regulations. The Board shall not approve any waiver(s) unless a majority of those present and voting shall find that ***all*** of the following apply:
- a. The granting of the waiver will not be detrimental to the public safety, health, or welfare or injurious to other property and will promote the public interest;
 - b. The waiver will not, in any manner, vary other provisions of the Stratham Zoning Ordinance, Stratham Master Plan, or Official Maps;

- c. Such waiver(s) will substantially secure the objectives, standards, and requirements of these regulations;
 - d. A particular and identifiable hardship exists or a specific circumstance warrants the granting of a waiver. Factors to be considered in determining the existence of a hardship shall include, but not be limited to:
 - i. Topography and other Site features;
 - ii. Lack of availability of alternative site locations;
 - iii. Geographic location of property;
 - iv. Size/magnitude of project being evaluated and availability of future co-location.
- 19.8.2 Conditions: In approving waivers, the Board may impose such conditions as it deems appropriate to substantially secure the objectives of the standards or requirements of these regulations.
- 19.8.3 Procedures: A petition for any such waiver shall be submitted in writing by the applicant with the application for Board review. The petition shall state fully the grounds for the waiver and all of the facts relied upon by the applicant. Failure to provide this written request shall require an automatic denial.

19.9 BONDING AND SECURITY

Recognizing the extremely hazardous situation presented by abandoned and unmonitored towers, the Planning Board shall set the form and amount of security that represents the cost for removal and disposal of abandoned towers in the event that the tower is abandoned and the tower owner is incapable and unwilling to remove the tower in accordance with section 19.10.

19.10 REMOVAL OF ABANDONED ANTENNAS AND TOWERS

Any antenna or tower that is not operated for a continuous period of 12 months shall be considered abandoned and hazardous to the public health and safety, unless the owner of said tower provides proof of quarterly inspections. The owner shall remove the abandoned structure within 90 days of receipt of a declaration of abandonment from the Town notifying the owner of such abandonment. A declaration of abandonment shall only be issued following a public hearing, noticed per Town regulations, with notice to abutters and the last known owner/operator of the tower. If the abandoned tower is not removed within 90 days the Town may execute the security and have the tower removed. If there are two or more users of a single tower, this provision shall not become effective until all users cease using the tower.

SECTION XX: SANITARY PROTECTION & SEPTIC ORDINANCE (Adopted 3/99)**20.1 GENERAL**

This Section is enacted in accordance with the provisions of RSA 674:16-17 and RSA 674:21.

20.1.1 No sewage disposal system shall be constructed or replaced unless designed in accordance with this Section of the Stratham Zoning Ordinance and the most recent edition of the Subdivision and Individual Sewage Disposal System Design Rules (as published by the Water Supply and Pollution Control Division). When conflicts arise, the more restrictive requirements shall apply. Applications and necessary design information shall be submitted to the Code Enforcement Officer, who in conjunction with the designated town review agent, shall determine compliance with this section.

20.1.2 No sewage disposal area shall be located closer than 75 feet from a well or 100 feet from a water body. No fill associated with a sewage disposal area shall encroach upon a drainage structure or drainage or utility easement. No sewage disposal area shall be built on slopes exceeding fifteen (15) percent average grade.

20.1.3 The Planning Board as part of any review may require a hydrogeologic study for all projects that: have one or more sewage disposal systems designed for a total on-site septic loading of 2,500 gpd or more; or are located within the Aquifer Protection District. The Board may require the applicant to pay for a design review of the proposed system by a licensed system designer or a professional engineer designated by the Board.

A hydrogeologic study shall be performed by a professional engineer, hydrologist, hydrogeologist, or other groundwater professional. All water testing is to be performed at an EPA approved laboratory. A hydrogeologic study will address:

- a. A hydrogeologic mapping of groundwater flow within the site;
- b. Existing background water quality;
- c. The location of and potential impacts to on-site and abutting water supply wells and septic systems;
- d. The location and capacity of the proposed septic system(s);
- e. Estimates of the transport of contaminants from the septic system(s) and of the constituent concentrations (i.e. nitrates) at the property boundary and at abutting water supplies;
- f. Groundwater mounding analysis.

The proposed sewage disposal system(s) shall not create groundwater degradation beyond the limits of the property line in excess of EPA water quality criteria for domestic supplies, as amended. Systems which violate these tenets shall be rejected.

20.1.4 Sloping Lots: Leaching fields may be constructed on sloping lots provided the natural grade of the proposed location does not exceed 15%. When the natural grade exceeds 5%, the WSPCD "50% rule" (Env-Ws 104.05) which allows up to 50% of the bed bottom to be less than four (4) feet from the SHWT may be used. However, the upgradient side of the bed bottom shall be at least three (3) feet above the SHWT.

20.1.5 All lots created after the effective date of this ordinance and all sewage disposal systems shall comply with this section of the Stratham Zoning Ordinance with the following additional requirements:

- a. The Town requires two (2) feet of natural permeable soil above the seasonal high water table (SHWT) beneath the sewage disposal area and sewage reserve area;
- b. Five feet of natural soil above bedrock or any impervious substratum is required beneath the sewage disposal area and sewage reserve area;
- c. Fill material when needed to raise the bottom of the leaching area above the SHWT, bedrock, or impervious substratum shall be medium to coarse textured sand;
- d. Test pits and septic reserve areas. Each undeveloped lot shall have at least two (2) suitable test pits, separated by at least fifty (50) feet. All test pits necessary for satisfying local regulations shall be witnessed by the designated agent of the town. Each newly created lot shall accommodate its own sewage. For cluster developments, all sewage shall be disposed of within the boundaries of the development.
 - i. New lots created subsequent to the adoption of this ordinance shall show a 5,000 square foot septic reserve as part of the subdivision process creating the lot.
 - ii. During design review phase each lot shall show a suitable sewage disposal area and a suitable reserve sewage disposal area of equal or greater size.
- e. The Planning Board, as part of a conditional use permit, may waive the requirements of this section in consideration of the following criteria:
 - i. The designed system complies with all State WSPCD rules provided no waivers are granted;
 - ii. The lot upon which the waiver is sought contains conditions which fulfill other purposes and goals of the Stratham Ordinance and presents a compelling justification for such waiver, or,
 - iii. The designed system for which the waiver is sought cannot feasibly be carried out on a portion or portions of the lot which complies more fully with this section of the ordinance.
- f. Before final subdivision approval by the Planning Board, and where individual lots were granted waivers as part of a conditional use permit in accordance with e), above, individual system designs shall be submitted showing compliance with the general requirements of this section. Where individual designs cannot comply with these general requirements, the Zoning Board of Adjustment shall grant a Special Exception for those designs provided the following:
 - i. The design shows a system that at least meets or exceeds the limits imposed as part of the waiver by the Planning Board;
 - ii. The design of the proposed system will, to the extent practicable, be consistent with the purpose and intent of this section;
 - iii. The applicant has exceeded other applicable minimum design requirements in an effort to mitigate impacts resulting from the limitations of the site;
 - iv. The applicant has demonstrated that no reasonable use of the property can be

made;

- v. The application complies with the provisions of §17.8.2 of the Stratham Zoning Ordinance.

20.2 REPLACEMENT OF EXISTING SYSTEMS WITHOUTOUT EXPANSION OF DESIGN CAPACITY

Replacement systems with no expansion in original design capacity shall be reviewed and permitted by the Code Enforcement Officer in conjunction with the designated town review agent. Upon application to the Code Enforcement Officer, where a design fails to meet the requirements of this section, the Code Enforcement Officer has the authority to waive the general requirements of this section and may grant a special permit to construct a sewage disposal system provided the following provisions are met:

- a. The proposed system entails no expansion of use and is a replacement of the system previously occupying the lot;
- b. The previous system shall be discontinued. Only the proposed system shall be used once initial function is established;
- c. The design of the system shall comply with New Hampshire State WSPCD rules in effect at the time of approval, including waiver of these rules by the State permitting authority.

20.3 REPLACEMENT OF EXISTING SYSTEMS WITH EXPANSION OF DESIGN CAPACITY

Replacement systems with expansion in original design capacity shall be reviewed and permitted by the Code Enforcement Officer in conjunction with the designated town review agent. Upon application to the Code Enforcement Officer, where a design fails to meet the requirements of this section, the Planning Board has the authority to waive the general requirements of this section and may grant a special permit to construct a sewage disposal system provided the following provisions are met:

- a. The use for which the permit is sought cannot feasibly be carried out on a portion or portions of the lot which complies more fully with this section of the ordinance;
- b. The design and construction of the proposed use will, to the extent practicable, be consistent with the purpose and intent of this Section;
- c. The applicant has exceeded other applicable minimum design requirements in an effort to mitigate impacts resulting from the limitations of the site.

20.4 VACANT LOTS OF RECORD

Subsurface septic systems shall be reviewed and permitted by the Code Enforcement Officer in conjunction with the designated town review agent to determine compliance with this section.

- 20.4.1 Special Exception: Upon application to the Code Enforcement Officer, where a design fails to meet the requirements of this section the applicant can apply for a special

exception. Upon appropriate findings, the ZBA shall grant a special exception to the general requirements of this section provided that all of the following conditions are found to exist:

- a. The lot upon which an exception is sought was an official lot of record, as recorded in the Rockingham County Registry of Deeds, prior to the date on which this amendment was posted and published in the Town;
- b. The use for which the exception is sought cannot feasibly be carried out on a portion or portions of the lot which complies more fully with this section of the ordinance;
- c. The design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Section;
- d. The applicant has exceeded other applicable minimum design requirements in an effort to mitigate impacts resulting from the limitations of the site;
- e. The applicant has demonstrated that no reasonable use of the property can be made;
- f. The application complies with the provisions of Section 17.8.2 of the Stratham Zoning Ordinance.

SECTION XXI: AMENDMENTS**21.1 PROCEDURE**

The provisions of this Ordinance may be amended or changed at any regular or special Town Meeting by a majority of the voters present as provided by the Revised Statutes Annotated of the State of New Hampshire.

SECTION XXII: VIOLATIONS & PENALTIES**22.1 VIOLATIONS**

Upon information from the Building Inspector and Code Enforcement Officer that the provisions of this Ordinance are being violated, the Board of Selectmen shall take immediate steps to enforce the provisions of this Ordinance as provided by the Revised Statutes Annotated of the State of New Hampshire. (Rev. 3/95)

22.2 PENALTIES

Any person, firm or corporation violating any of the provisions of this Ordinance shall for each violation, upon conviction thereof, pay a fine of not more than one hundred (\$100.00) dollars for each day such violation shall exist.

SECTION XXIII: VALIDITY**23.1 DECLARATION**

If any section, clause, provision or portion of this Ordinance shall be held to the invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect or impair any other section, clause, provision or portion of this Ordinance.

23.2 DATE OF EFFECT

This Ordinance, and amendments, shall take effect upon passage.

APPENDIX A

- Record of Amendments Since 3/8/1987 Adoption -

(Includes reference to all Town Meeting changes from 2013 to 1988 [reverse chronological order])

March 12, 2013 Town Meeting:

- Article 2: Defeated.
- Article 3: Amend the Zoning Ordinance, Section II. Definitions, Subsection 2.1.51 Professional (Professional Office), insert new subsections for a Commercial Service Establishment, Personal Service Establishment, and Retail Sales to further clarify and define said terms. In addition, amend Section 3.6 Table of Uses by amending Table 3.6.F Commercial Uses to include a Commercial Service Establishment, Personal Service Establishment, and Retail Sales as regulated uses in all zoning districts, and then renumbering accordingly.
- Article 4: Amend Sections 3.4.3 Professional / Residential, 3.6 Table of Uses, and 3.6.Table of Uses - Footnotes to permit limited retail uses within the Professional / Residential Zoning District.
- Article 5: Amend Section VII. Signs by replacing said section in its entirety with revised language to further clarify and provide additional guidance on the type, number, maximum area, and design of signage within Stratham. In addition, delete Sections 2.1.61 through 2.1.91 and 3.8.7.f in their entirety and renumber accordingly.
- Article 6: Amend Section VIII. Residential Open Space Cluster Development by replacing said section in its entirety with revised language to further clarify and provide additional guidance regarding density bonuses and open space design and requirements for Residential Open Space Cluster Developments. In addition, replace Section 3.6 Table of Uses, Additional Notes in it entirety with revised language to reflect the updated criteria and standards pertaining to the issuance of a Conditional Use Permit.
- Article 7: Amend Sections 3.1 Establishment of Districts, 3.2 Location, 3.4 District Purposes, 3.6 Table of Uses, 3.8 Gateway Commercial Business District, 4.1 General Requirements, 4.2 Table of Dimensional Requirements, 4.3 Explanatory Notes, 5.8.4 Multi-Family, Workforce Housing, and Elderly Affordable Housing - Applicability, and VII. Signs to eliminate the General Commercial District in its entirety and designate the Gateway Commercial Business District from its current designation as an overlay district to the underlying zoning district. Further, amend Section 3.8 Gateway Commercial Business District to change the provisions and standards of the Gateway Commercial Business District from voluntary compliance to mandatory for all development projects within the district.
- In addition, amend Section 3.6 Table of Uses by inserting the Gateway Commercial Business District, Central Zone and Outer Zone sub districts and designating the appropriate permitted uses in accordance with Section 3.8.8 Development Standards And Tables. Further, amend Section 3.8.8, Table 2. to reduce the minimum building/structure front setback requirement for properties within the District fronting Route 108/Portsmouth Avenue
- Amend Sections Table 4.2 Table of Dimensional Requirements and 4.3 Explanatory Notes to reduce the front setback requirements for properties fronting Route 108 and Route 33 within the Gateway Commercial Business District, Professional / Residential District, Special Commercial District, and Town Center District.

March 13, 2012 Town Meeting:

- Article 2: Amend the Zoning Ordinance, Section 5.8.4 Applicability to insert "Special Commercial District" into Section 5.8.4 to further clarify and codify workforce housing and elderly affordable housing as a permitted use within the Special Commercial Zoning District through the issuance of a Conditional Use Permit.

March 8, 2011 Town Meeting:

- Article 2: Amend the Zoning Ordinance, Section II. Definitions, Subsection 2.1.70 Structure and insert new subsection, Subsection 2.1.79 Yard Sale in order to further clarify and define said terms.
- Article 3: Amend the Zoning Ordinance in its entirety in order to revise/update all Tax Map and Parcel numbers and references to correspond with the 2010 Tax Map conversion.
- Article 4: Amend the Zoning Ordinance, Section 2. Definitions, Section 3.8.f. Gateway Commercial Business District, Section 7.2 General Regulations, and Section 7.3 Table of Permitted Signs to further define and clarify the types of and design standards for signage within the Gateway Commercial Business District.
- Article 5: Amend the Zoning Ordinance, Section XI. Wetlands Conservation District, Section 12.4.3, and 18.7 Water Courses in conformance with the New Hampshire Statutes Annotated 482-A, New Hampshire Code of Administrative Rules, Section Env-Wt 301, and related text changes for clarification and consistency with said Statutes with the following:
- Article 6: Amend the Zoning Ordinance, Section 17.8.3 Variances to conform to the Revised Statutes Annotated 674:33 and to eliminate the distinction between a “use” or “area” variance.
- Article 7: Amend the Zoning Ordinance, Section 15 Growth Management & Innovative Land Use Control to conform to the Statutes Annotated 674:22 to include a sunset or defined termination date by adding new sections, 15.9 Severability, 15.10 Effective Date, and 15.11 Sunset.
- Article 8: Amend the Zoning Ordinance, Section 3.6 Table of Uses, D. Agricultural / Forestry Uses in conformance with RSA 674:32-c allowing farming uses in all zoning districts as a permitted use.
- Article 9: Amend the Official Zoning Map of the Town of Stratham pursuant to Section 3.2 to rezone Map 17, Lot 87 from its current zoning designation of Residential / Agricultural (R/A) to the Town Center District (TC).

March 9, 2010 Town Meeting:

- Article 2: Amend Section 3.1 Establishment of Districts and Section 3.2 Location and add new sections, Section 3.4.15 Gateway Commercial Business District and Section 3.8 Gateway Commercial Business District. The purpose of said amendments is to offer zoning to enhance the economic vitality, business diversity, accessibility, and visual appeal of Stratham’s Gateway Commercial Business District, in a manner that is consistent with the landscape and architecture of the Town’s agricultural tradition. Further, these Ordinance amendments will foster the development of a vibrant mixed use zoning district with a cohesive street layout and architectural character that includes commercial, residential and civic uses and integration of open spaces, transit, bicycle and pedestrian accommodations.
- Article 3: Amend Section II. Definitions, Subsection 2.1.27 Home Occupation and insert new section, Section V: Supplementary Regulations, Subsection 5.13 Home Occupations to further clarify the definition of a Home Occupation, types of allowed Home Occupations, and requirements for granting a Special Exception to allow a Home Occupation.
- Article 4: Amend Section 3.6 Table of Uses, by deleting the current Section 3.6.A.4 and add a new section 3.6.A.3 Multi-Family Dwelling in accordance with Section 5.8 of this ordinance and a new Section 3.6.A.6 Workforce and Elderly Affordable Housing in accordance with Section 5.8 of this ordinance and renumber accordingly; delete and replace Section 5.8 Multi-Family, Workforce Housing, and Elderly Affordable Housing; and further amend Section VIII Residential Open Space Cluster Development Section 8.1.9 Density Bonus and Section 8.4 General Requirements. The intent of the amendments is be in conformance with the revised New Hampshire Statutes Annotated 674:58-61 and encourage and provide reasonable and realistic opportunities for the development of workforce housing within Stratham.

March 10, 2009 Town Meeting:

- Article 2: To amend Section 5.4 Accessory Apartments and Section 2.1.2 Definitions to allow greater flexibility in development of an accessory apartment. The amendment will recognize current RSA's and recent approvals by the ZBA.
- Article 3: To Amend the Stratham Zoning Ordinances add a new Section 3.4.14 Special Commercial and Section 3.6 Table of Uses (SC) to add a new zoning district which will allow Hotel/Conference facilities along with commercial, entertainment, professional office and limited residential uses south of the Route 101 intersection along Portsmouth Avenue.
- Article 4: To amend Section 2.1.6 Agriculture, Farm, Farming to comply with NH RSA 21:34-a Farm, Agriculture, Farming. The Planning Board has found that the current definition has not been conducive to the establishment of new farms or farming activities within Stratham.
- Article 5: To add a new Section 5.12 Small Wind Energy Systems which will provide for the regulation of small wind energy systems within the town of Stratham. The proposed ordinance will allow the Building Inspector to grant permits for these systems if they meet the conditions of the ordinance

March 2008 Town Meeting:

No Amendments were offered

March 13, 2007 Town Meeting:

- Article 2: Amend the zoning ordinances to add a new Section 3.4.13 and Section 3.7 Flexible\Mixed Use Development District to the Stratham Zoning Ordinance to address the re-development of the current Community College site. The new sections will require any developer to utilize compact village development guidelines, to encourage the creation of human-scale development with pedestrian friendly spaces, centralized park areas, recreational opportunities and to meet energy efficiency standards and sustainability practices. The proposed ordinance also encourages a mixed-use environment, which would allow opportunities to develop new or provide for the adaptive reuse of existing structures where flexible performance standards would provide for the protection of abutting neighborhoods, surrounding properties and uses.
- Article 3: Amend Sections 2.1 Definitions and Section 7 Signs of Stratham Zoning Ordinance to address real-estate signs, contractor signs, snipe signs, yard sale signs, agricultural signs, and other off-site signage issues. The amendment would restrict the off-site location of real-estate signage, would address other types of signage, and would provide for the enforcement of the ordinance and removal of any illegal signage. The amendment replaces the current Section 7 and replaces it in its entirety with the new language.
- Article 4: Add a new Section 5.11 Day-Care Facilities to the Stratham Zoning Ordinance to address the location of Day-Care and Childcare facilities with the Town of Stratham. The proposed ordinance will provide for certain requirements for the issuance of a special exception for the location and operation of a day-care facility within any residential zone and the Town Center. The ordinance also limits the size of any childcare operation based upon NH State licensing requirements and provisions.
- Article 5: Add a new Section 16.5 Historic Demolition Review To require that prior to any demolition of any home, barn or other structure, which is assumed to be over 50 years in age, be reviewed by the Heritage Commission prior to any issuance of a permit to demolish such structure. The new section would provide for an expedited review with an extended review period for structures within the town, which were found to be historic, or of significant importance to the heritage of the community.
- Article 6: Amend the Official Zoning Map of the Town of Stratham to adjust the boundaries of Map 2 Lot 30 to reflect corrected data and to add Map 2 Lot 26 to the Industrial Zone.
- Article 7: Amend the Official Zoning Map of the Town of Stratham to add Map 2 Lots 25, 41, 42 and 43 to the Retirement Planned Community Zone.

March 14, 2006 Town Meeting:

- Article 2: Amend section 7.2.2 Sign Permits and 7.2.7 Computation of Area to require site review approval for all new signage and to require a Conditional Use Permit for any waivers to the sign regulations dealing with computation of area.
- Article 3: Amend section 2.1 shall be amended to provide for the inclusion of definitions for Triplex and Quadplex housing units and to renumber section 2.1 to reflect these additions.
- Article 4: Add Section 5.10 to authorize the Planning Board to require preliminary site plan review. The site plan review regulations regarding site plan design review and the requirements of such review are to be prepared and adopted by the Planning Board.

March 8, 2005 Town Meeting:

- Article 2: Replace section 2.1.68 Definitions with the following as required by the NH RSA. Also amend Section XI as may be required to reflect the new definition and the inclusion of “Hydric” soils as a part of our Wetlands regulations.
- Article 3: Amend Section 7.2.3 to prohibit Variable Electronic Message signs.
- Article 4: To bring the Town of Stratham into compliance with the Federal Emergency Management Agency (FEMA), Flood Insurance Program, by the adoption of the updated county Flood Maps dated May 17, 2005.
- Article 5: Add a new subsection to the Section 17.8.3 (criteria for a variance.) The new subsection will set out the test, which must be met, for determining a hardship for an area variance.
- Article 6: Amend Section 5.7, to allow affordable senior housing within the Residential/Agricultural zones by Conditional Use Permit.
- Article 7: Add Section 5.9 to authorize the Planning Board to require preliminary subdivision review. The subdivision review regulations regarding subdivision design review and the requirements of such review are to be prepared and adopted by the Planning Board.
- Article 8: Amend Section 5.4 to allow an accessory apartment for a family member by special exception.
- Article 9: Add Section 5.8 to allow multi-family housing by Conditional Use Permit in the Town Center, Professional Residential, General Commercial and Commercial Light Industrial zones and to add a new Section 5.8 Multi-Family Housing which shall provide for certain performance zoning standards to be met prior to any location of a multi-family complex or structure.
